Eating Appalachia Darrin Nordahl, 2015-06-01 Dozens of indigenous fruits, vegetables, nuts, and game animals are waiting to be rediscovered by American epicures, and Appalachia stocks the largest pantry with an abundance of delectable flavors. In *Eating Appalachia*, Darrin Nordahl looks at the unique foods that are native to the region, including pawpaws, ramps, hickory nuts, American persimmons, and elk, and offers delicious and award-winning recipes for each ingredient, along with sumptuous color photographs. The twenty-three recipes include: Pawpaw Panna Cotta, Pawpaw Whiskey Sour, Chianti-Braised Elk Stew, Pan-Fried Squirrel with Squirrel Gravy, Ramp Linguine, and Wild Ginger Poached Pears, among others. Nordahl also examines some of the business, governmental, and ecological issues that keep these wild, and arguably tastier, foods from reaching our tables. *Eating Appalachia* profiles local chefs, hunters, and locavores who champion these native ingredients and describes food festivals—like the Pawpaw Festival in Albany, Ohio; the Feast of the Ramson in Richwood, West Virginia; and Elk Night at Jenny Wiley State Park in Prestonsburg, Kentucky—that celebrate them.

Datascape: An Infographic Study of Macclesfield Des Fagan,Greg Keeffe,2013-01-04 Towns are often seen as an object, or at most a collection of objects, however this objectification of the town creates issues with the way we perceive it. Towns are contextual and ecological, they are not static, but sit in dynamic equilibrium with the forces that their hinterland, and more so globalisation, press onto them. Macclesfield is no different. This book provides a snapshot view, a single frame in the real life movie that is Macclesfield's future and past. This frame shows a town in transition: at a crossroads. In its past, Macclesfield has continually engaged with global forces, that have at times threatened its very existence, and at other created a boom-time. This book aims to present the background and benchmark to that process. In collating a range of indicators (social, spatial and geographic), we provide the first steps in creating trajectories that create new futures for Macclesfield. Towns have always been a place for public debate, and this must continue if towns are to flourish in the new Century.

Iceland from the West to the South Wolfgang Fraedrich,Neli Heidari,2018-09-20 The book thoroughly describes Iceland's geological development and its current geological processes, taking into account both geographic and geo-ecological aspects. Furthermore, it includes suggested excursions especially for individual tours. The most popular tourist

“highlights” (e.g. the Golden Circle with Þingvellir, Gullfoss and Geyser) should certainly not be excluded. But there is so much more to explore apart from the main tourist routes - and sometimes only a few kilometers away. Examining various regions of the country, each proposed stop is sufficiently described so that it is easily accessible (especially for individual tourists). A wealth of maps, graphics and images illustrate and supplement the coverage. This invaluable guide is aimed in particular at individual tourists to Iceland. It provides those tourists wishing to explore Iceland on their own with a wide range of suggestions for their trip. In addition, numerous excursion suggestions for the west, southwest and south, including the Westman Islands, are described in detail.
