Travels In A Strange State Josie Dew, 2012-08-02 By most people's standards, Josie Dew is hugely adventurous. By American standards, she is completely insane. For Americans drive everywhere: through cinemas, restaurants, banks, even trees. But driving past Josie as she pedalled across America was a new and alarming experience. On her eight-month journey Josie experienced it all; race riots in Los Angeles, impossible heat in Death Valley, Sexual Tantric Seminars in Hawaii. From Utah to the Great Lakes, via improbable places like Zzyzx and Squaw Tit, her two-wheeled odyssey brought her into contact with all the wonders and worries of this larger-than-life country. Highly entertaining, richly informative, TRAVELS IN A STRANGE STATE is a personal memoir of an improbable journey, revealing the United States as it is rarely seen - from the seat of a bicycle.

Around Ireland Finian Bicycle, 2021-12-14 A bicycle is a great way to explore a country. Be it here, there or anywhere. It can be challenging and demanding at times but there is nothing to be proven and if you have the time, you can explore a little more. This book is about the travelling done from the north of Ireland to the south of Ireland on the east coast and then on the west coast. I didn't see everything nor was I travelling to see everything, there may be some places that I visited that may

not be included on an itinerary. This is 40 days around Ireland. This is Ireland, but not all the island has to offer.

A Bicycle Journey to the Bottom of the Americas George J. Hawkins, 2000-10-24 Remember when you were a kid and you got your first bicycle? After a few weeks of mastering the dynamics of balancing, steering, and pedaling, all at the same time hopefully, your father released his protective, steadying grip on the seat and you went wobbling off on your own. It was probably your very first taste of independence and freedom and you knew you liked that feeling very much. Few things in life have ever compared to that first solo ride. Almost 40 years after my first solo bike ride, I was able to recapture the excitement and passion of that momentous occasion when I pedaled out of Anchorage, Alaska bound for Tierra del Fuego-the very tip of South America. No matter that it was 17,500 miles distant and would take 3 years to get there I vowed I would achieve that goal if it took the rest of my life.

The Reindeer Chronicles Judith D. Schwartz,2020-08-19 Compelling, Fascinating, sometimes unexpectedly moving, this vitally important book is, above all, a springboard for hope and transformation.—Isabella Tree A lucid and compelling look at the global movement of ecological rehabilitation.— The Boston Globe In a time of uncertainty about our environmental future—an eye-opening global tour of some of the most wounded places on earth, and stories of how a passionate group of eco-restorers is leading the way to their revitalization. Award-winning science journalist Judith D. Schwartz takes us first to China's Loess Plateau, where a landmark project has successfully restored a blighted region the size of Belgium, lifting millions of people out of poverty. She journeys on to Norway, where a young indigenous reindeer herder challenges the most powerful orthodoxies of conservation—and his own government. And in the Middle East, she

follows the visionary work of an ambitious young American as he attempts to re-engineer the desert ecosystem, using plants as his most sophisticated technology. Schwartz explores regenerative solutions across a range of landscapes: deserts, grasslands, tropics, tundra, Mediterranean. She also highlights various human landscapes, the legacy of colonialism and industrial agriculture, and the endurance of indigenous knowledge. The Reindeer Chronicles demonstrates how solutions to seemingly intractable problems can come from the unlikeliest of places, and how the restoration of local water, carbon, nutrient, and energy cycles can play a dramatic role in stabilizing the global climate. Ultimately, it reveals how much is in our hands if we can find a way to work together and follow nature's lead.
