Literacy Strategies for Improving Mathematics Instruction-Joan M. Kenney 2005 Provides teachers with classroom-proven ways to prepare students to be successful math learners by teaching the vocabulary and comprehension skills needed to understand mathematics.

Unearthing the Changes-Edward L. Shaughnessy 2014-02-25 In recent years, three ancient manuscripts relating to the Yi jing (I Ching), or Classic of Changes, have been discovered. The earliest—the Shanghai Museum Zhou Yi—dates to about 300 B.C.E. and shows evidence of the text's original circulation. The Gui cang, or Returning to Be Treasured, reflects another ancient Chinese divination tradition based on hexagrams similar to those of the Yi jing. In 1993, two manuscripts found in a third-century B.C.E. tomb at Wangjiatai contained almost exact parallels to the Gui cang's early quotations, supplying new information on the performance of early Chinese divination. Finally, the Fuyang Zhou Yi was excavated from the tomb of Xia Hou Zao, lord of Ruyin, who died in 165 B.C.E. Each line of this classic is followed by one or more generic prognostications similar to phrases found in the Yi jing, indicating exciting new ways in which the text was produced and used in the interpretation of divinations. This book details the discovery and significance of the Shanghai Museum Zhou Yi, the Wangjiatai Gui cang, and the Fuyang Zhou Yi, including full translations of the texts and additional evidence that constructs a new narrative of the Yi jing's writing and transmission in the first millennium B.C.E.

History of the Tenth Regiment of Cavalry New York State Volunteers, August, 1861, to August, 1865-Noble D. Preston 1891

The Double Tenth-George Brown 2012-04-17 Malaya, 1952 - The War of the Running Dogs. They shot the Chinese courier and took the documents he was carrying. Then they cut off his hands and rolled him into a shallow grave. Another act of barbary in a savage jungle war, another dead Communist and another successful mission for the police and the SAS. Thirty-five years later - Members of the ambush party start dying. Unpleasantly. One of them has had his hands cut off. The past is catching up with the men who stood in that jungle clearing - the past in the form of a man with artificial hands and an insane urge to reclaim what was taken from him - at any cost.

Percutaneous Absorption-Nina Dragičević 2021-07-30 Updating and expanding the scope of topics covered in the previous edition, Percutaneous Absorption: Drugs, Cosmetics, Mechanisms, Methods, Fifth Edition supplies new chapters on topics currently impacting the field including cutaneous metabolism, skin contamination, exposure to protein allergens, in vitro absorption methodology and the percutaneous absorption of chemical mixtures. Complete with studies on the role of the skin as a key portal of entry for chemicals into the body, this book serves as a detailed reference source for recent advances in the field, as well as an experimental guide for laboratory personnel. Key Features: Details in vivo and in vitro methods for measuring absorption, dermal decontamination, mechanisms of transdermal delivery, and the relationship of transepidermal water loss to percutaneous absorption Considers a range of mathematical models, the safety evaluation of cosmetic ingredients, the absorption of hair dyes, nanoparticles for drug delivery, and other novel methods of drug delivery Discusses topics including skin metabolism, the skin reservoir, and the effects of desquamation on absorption

The Year's Best Science Fiction: Tenth Annual Collection-Gardner Dozois 1993-06-15 With stories about consciousness and conscience, about heroes and horrors, this volume offers up two dozen dazzling stories from some of science fiction's greatest writers, including: Neal Barret, Jr., Terry Bisson, Pat Cadigan, Arthur C. Clarke, L. Sprague de Camp, Bradley Denton, Greg Egan, Joe Haldeman, Lukas Jaeger, Kathe Koja, Nancy Kress, Jonathan Lethem, Ian R. McLeod, Tom Maddox, Maureen F. McHugh, Ian McDonald, Frederik Pohl, Robert Reed, Robert Silverberg, Michael Swanwick, Steven Utley, Ian Watson, Kate Wilhelm, Connie Willis. Rounded out by a list of Honourable Mentions and Gardner Dozois's annual summation of the year in science fiction, this anthology is the single best guide available to the best possible tomorrows and alternate yesterdays of the past year.

The Tenth Month-Laura Z. Hobson 2011-12-27 A novel of midlife motherhood and the basis for the TV movie starring Carol Burnett—from the #1 New York Times–bestselling author of Gentleman's Agreement. Dori Gray—married, then divorced, age forty, professional journalist—had given up hope of a child. A botched abortion left her functionally infertile, and after a string of bad relationships, Dori's prospects have seemingly dwindled to naught. Then comes the astonishing revelation that she is pregnant—by her married ex-lover. Dori's options are limited. Fearful that her doctor will decline to oversee an illegitimate birth, or that she'll be forced into a hermitlike existence until the child is born, Dori confides in her married best friend, Celia Duke. Surprised by Celia's confidence and support, Dori decides to confront her predicament head-on.

The Fourth Battalion Duke of Connaught's Own Tenth Baluch Regiment in the Great War-W. S. Thatcher 2011-12-19 The part played by Indian soldiers in the Great War is, as the author of this excellent and excitingly written history correctly complains, somewhat under-appreciated. He blames this on the fact that Regular Army officers in Indian Regiments were too few and too over-worked to write down the essential facts, while the Indians themselves did not write in English. For W. S. Thatcher, a volunteer who joined up at the outbreak of the war 'for the duration' - his service with the Baluchis remained 'the great adventure of my life'. The Baluchis served in Flanders, fighting in the battles of Festubert and Neuve Chapelle and Loos in 1915 before the decision was taken to embark them for East Africa. Here they fought against that elusive guerrilla genius Gen. Von Lettow-Vorbeck, and, as Thatcher writes, 'They responded magnificently'. He adds bitterly: 'The East African campaign would have meant very great privation and hardship even if it had been well-organised and run, which it was not. Columns were only too often sent out with inadequate medical equipment, porters even without water bottles. Food was bad. Von Lettow would have managed it better'. Casualties in East Africa were much less than in Flanders, but the regiment was ravaged by dysentery and malaria. The book comes complete with Rolls of Honour; and appendices on awards; organisation of Indian troops; and many maps.

Chemical Determinations-Ralph I. Dorfman 2014-05-12 Chemical Determinations is a collection of papers that discusses chemical methods used in hormone investigation. One paper explains the physicochemical procedures used to separate estrogens from interfering material which leads to the possible determination of small amounts of hormones in biological fluids. One approach is through simpler methods for routine use, designed principally for the determination of estrogens in urine and in plasma. Another way is through more elaborate methods, designed to establish the presence and identity of various estrogens in small numbers of biological samples. Another paper explains the methods for the analysis of 17-ketosteroids of blood and urine, and a method for the assay of testosterone in plasma which correlates with the state of virilism of an individual. One paper describes the techniques utilized for extraction, preliminary purification, isolation, and quantitative estimation of progesterone. Another paper reviews the occurrence of pregnanetriolone (an inactive urinary metabolite), the significance of its estimation as an aid in differential diagnosis, the methods of estimation, as well as the metabolic pathways leading to the excretion of pregnanetriolone and related steroids. The collection is suitable for researchers, scientists, medical practitioners, or academicians involved in endocrinology, metabolism, and bio-research.

City on the Thames-London-Shan Leslie 2015-04-11 In book one, the fascinating story of Neil S. Roberts unfolds, This young Victorian man lives a exciting magazine reporters life from 1888-1928. His private life woven in among his work adds even more insight into the people of Victorian England and brings the Victorian British life into sharp focus. Neil Roberts starts out as a reporter in the English Parliament where political battles are waged with words in a world of wigs and soap box oratory. But soon his reporting brings him into direct contact with the hideous poverty, disease and death of the London poor, while writing about them in the popular London Magazine, The Strand. He rides with the Metropolitan Police on the Thames River Night Patrol while they are dredging bodies, and searching for criminal activities among the many docks, and wharves. He reports on the Metropolitan Fire Brigade; on the English Monetary system, The new detective Sciences; Then Neil Roberts covers the British law courts, including a sensational true murder trial in Londo
