**Coming to Our Senses**-Susan R. Barry 2021-06-08 A neurobiologist reexamines the personal nature of perception in this groundbreaking guide to a new model for our senses. We think of perception as a passive, mechanical process, as if our eyes are cameras and our ears microphones. But as neurobiologist Susan R. Barry argues, perception is a deeply personal act. Our environments, our relationships, and our actions shape and reshape our senses throughout our lives. This idea is no more apparent than in the cases of people who gain senses as adults. Barry tells the stories of Liam McCoy, practically blind from birth, and Zohra Damji, born deaf, in the decade following surgeries that restored their senses. As Liam and Zohra learned entirely new ways of being, Barry discovered an entirely new model of the nature of perception. *Coming to Our Senses* is a celebration of human resilience and a powerful reminder that, before you can really understand other people, you must first recognize that their worlds are fundamentally different from your own.

**Blindness**-José Saramago 2013-08-23 A stunningly powerful novel of humanity's will to survive against all odds during an epidemic by a winner of the Nobel Prize for Literature. An International Bestseller • "This is a shattering work by a literary master."—Boston Globe A city is hit by an epidemic of "white blindness" which spares no one. Authorities confine the blind to an empty mental hospital, but there the criminal element holds everyone captive, stealing food rations and raping women. There is one eyewitness to this nightmare who guides seven strangers—among them a boy with no mother, a girl with dark glasses, a dog of tears—through the barren streets, and the procession becomes as uncanny as the surroundings are harrowing. A magnificent parable of loss and disorientation, *Blindness* has swept the reading public with its powerful portrayal of our worst appetites and weaknesses—and humanity's ultimately exhilarating spirit. "This is an important book, one that is unafraid to face all of the horror of the century."—Washington Post A New York Times Notable Book of the Year A Los Angeles Times Best Book of the Year

**The Blind Assassin**-Margaret Atwood 2010-12-10 "Ten days after the war ended, my sister Laura drove a car off a bridge." These words are spoken by Iris Chase Griffen, married at eighteen to a wealthy industrialist but now poor and eighty-two. Iris recalls her far from exemplary life, and the events leading up to her sister's death, gradually revealing the carefully guarded Chase family secrets. Among these is "The Blind Assassin," a novel that earned the dead Laura Chase not only notoriety but also a devoted cult following. Sexually explicit for its time, it was a pulp fantasy improvised by two unnamed lovers who meet secretly in rented rooms and seedy cafés. As this novel-within-a-novel twists and turns through love and jealousy, self-sacrifice and betrayal, so does the real narrative, as both move closer to war and catastrophe. Margaret Atwood's Booker Prize-winning sensation combines elements of gothic drama, romantic suspense, and science fiction fantasy in a spellbinding tale.

**Blindness Through the Looking Glass**-Gili Hammer 2019-09-25 Modern Western culture is saturated with images, imprinting visual standards of concepts such as beauty and femininity onto our collective consciousness. *Blindness Through the Looking Glass* examines how gender and femininity are performed and experienced in everyday life by women who do not rely on sight as their dominant mode of perception, identifying the multiple senses involved in the formation of gender identity within social interactions. Challenging visuality as the dominant mode to understand gender, social performance, and visual culture, the book offers an ethnographic investigation of blindness (and sight) as a human condition, putting both blindness and vision "on display" by discussing people's auditory, tactile, and olfactory experiences as well as vision and sight, and by exploring ways that individuals perform blindness and "sightedness" in their everyday lives. Based on in-depth interviews with 40 blind women in Israel and anthropological fieldwork, the book investigates the social construction and daily experience of blindness in a range of domains. Uniquely, the book brings together blind symbolism with the everyday experiences of blind and sighted individuals, joining in mutual conversation the fields of disability studies, visual culture, anthropology of the senses, and gender studies.

**Blindness**-Henry Green 2017 Henry Green's first novel, and the book that began his career as a master of British modernism *Blindness*--Henry Green's first novel, begun while he was still at Eton and finished before he left university--is the story of John Haye, a young student with literary airs. It starts with an excerpt from his diary, brimming with excitement and affectation and curiosity about life and literature. Then a freak accident robs John of his sight, plunging him into despair. Forced to live with his high-handed, horsey stepmother in the country, John begins a weird dalliance with a girl named Joan, leading to a new determination. *Blindness* is the curse of youth and inexperience and love and ambition, but blindness, John will discover, can also be the source of vision.

**A Blind Guide to Stinkville**-Beth Vrabel 2016-08-02 Before Stinkville, Alice didn't think albinism—or the blindness that goes with it—was a big deal. Sure, she uses a magnifier to read books. And a cane keeps her from bruising her hips on tables. Putting on sunscreen and always wearing a hat are just part of life. But life has always been like this for Alice. Until Stinkville. For the first time in her life, Alice feels different—like she's at a disadvantage. Back in her old neighborhood in Seattle, everyone knew Alice, and Alice knew her way around. In Stinkville, Alice finds herself floundering—she can't even get to the library on her own. But when her parents start looking into schools for the blind, Alice takes a stand. She's going to show them—and herself—that blindness is just a part of who she is, not all that she can be. To prove it, Alice enters the Stinkville Success Stories essay contest. No one, not even her new friend Kerica, believes she can scout out her new town's stories and write the essay by herself. The funny thing is, as Alice confronts her own blindness, everyone else seems to see her for the first time. This is a stirring small-town story that explores many different issues—albinism, blindness, depression, dyslexia, growing old, and more—with a light touch and lots of heart. Beth Vrabel's characters are complicated and messy, but they come together in a story about the strength of community and friendship. This paperback edition includes a Q&A with the author and a sneak peak at the upcoming *The Blind Guide to Normal*. Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to publish a broad range of books for young readers—picture books for small children, chapter books, and novels for middle grade readers, and novels for young adults. **Blind Luck**-Olivia Gaines 2019-05-03 Mr. Yield popped in at a small roadside eatery in Missouri for a bowl of grits, three crispy strips of bacon and a cup of coffee. Already angry at the bullet hole in his leg courtesy of Mr. Stop, the last thing he wanted was trouble. Trouble came calling with the start of an antique watch, a woman named Millicent and obsessive Sheriff. It was just his blind luck that all three were about to change his life.

**There Plant Eyes**-M. Leona Godin 2021-06-01 From Homer to Helen Keller, from Dune to Stevie Wonder, from the invention of braille to the science of echolocation, M. Leona Godin explores the fascinating history of blindness, interweaving it with her own story of gradually losing her sight. *There Plant Eyes* probes the ways in which blindness has shaped our ocularcentric culture, challenging deeply ingrained ideas about what it means to be “blind.” For millennia, blindness has been used to signify such things as thoughtlessness (“blind faith”), irrationality (“blind rage”), and unconsciousness (“blind evolution”). But at the same time, blind people have been othered as the recipients of special powers as compensation for lost sight (from the poetic gifts of John Milton to the heightened senses of the comic book hero Daredevil). Godin—who began losing her vision at age ten—illuminates the often-surprising history of both the condition of blindness and the myths and ideas that have grown up around it over the course of generations. She combines an analysis of blindness in art and culture (from *King Lear* to *Star Wars*) with a study of the science of blindness and key developments in accessibility (the white cane, embossed printing, digital technology) to paint a vivid personal and cultural history. A genre-defying work, *There Plant Eyes* reveals just how essential blindness and vision are to humanity’s understanding of itself and the world.

**More Than Meets the Eye**-Georgina Kleege 2017-12 In *More Than Meets the Eye*, Georgina Kleege explores the ways that ideas about visual art and blindness are linked in many facets of the culture. While it may seem paradoxical to link blindness to visual art, western theories about art have always been haunted by the specter of blindness. The ideal art viewer is typically represented as possessing perfect vision, an encyclopedic knowledge of art, and a photographic memory of images, all which allow for an unmediated wordless communion with the work of art. This ideal viewer is defined in polar opposition to a blind person, presumed to be oblivious to the power of art, and without the cognitive capacity to draw on analogous experience. Kleege begins her study with four chapters about traditional representations of blindness, arguing that traditional theories of blindness fail to take into account the presence of other senses, or the ability of blind people to draw analogies from non-visual experience to develop concepts about visual phenomena. She then shifts focus from the tactile to the verbal, beginning with Denis Diderot’s remarkable range of techniques to describe art works for readers who were not present to view them for themselves, and how his criticism offers a powerful warrant for bringing the specter of blindness out of the shadows and into the foreground of visual experience. Through both personal experience and scholarly treatment, Kleege dismantles the traditional denigration of blindness, contesting the notion that viewing art involves sight alone and challenging traditional understandings of blindness through close reading of scientific case studies and literary depictions. *More Than Meets the Eye* introduces blind and visually impaired artists whose work has shattered stereotypes and opened up new aesthetic possibilities for everyone.

**The Motif of “Blindness” in Richard Wright’s ‘Native Son’**-David Stehling 2012-11-26 Seminar paper from the year 2008 in the subject English - Literature, Works, grade: 2,7, <http://www.uni-jena.de/> (Institut für Anglistik/Amerikanistik), language: English, abstract: The motif of “blindness” is an idea that recurs many times in Richard Wright’s masterpiece *Native Son*. Thus it has got a significant meaning to develop the novel’s general theme. This motif, next to others (such as “whiteness”), supports a certain idea: Referring to James Nagel, it is “[...] operative throughout the novel [...]” and provides the impression of “[...] a lack of understanding and of a tendency to generalize individuals on the basis of race. It is both a rationalization for those who are looking and a disguise for those who are looked at.” Almost all the characters, occurring in the novel, are “blind” in a figurative sense, which makes them prejudiced or apparently charitable not knowing what they are actually causing. They provoke hatred and are not able to see reality as it is. In fact, Bigger is considered to be a stereotype representing the whole black mass. Not until the end of *Native Son* (“But what I killed for, I am!” 429) does he realize his being an individual with particular needs and emotions. Conversely, he sees himself through the eyes of others, especially through those of the white people surrounding him. Obviously, “blindness” plays an important role in the novel. This seminar paper will deal with this motif that underlines the character’s “lack of understanding”, as Nagel would call it, and their tendency to consider an individual to be just an example of a whole mass, namely Bigger as the stereotype of the whole black community. In that way, microcosm is turned to macrocosm with no respect to Bigger’s individuality. For the following analysis, it is, at first, necessary to focus on the definition of the term “motif” to continue with the main part. The latter is planned to include the “blindness”, either in a literal or figurative sense (or both), of certain characters. Therefore, Mary and Jan will be considered at first. Secondly, we look at Mr. and Mrs. Dalton to go on further with Boris Max, Bigger’s lawyer in the trial of the third book. These figures are chosen because of their significance for the plot and Bigger’s personal development. Furthermore, they represent the meaning of “blindness” and its effects, mentioned above, best. The protagonist Bigger himself will be the last character who will be analysed according to his “blindness” to end up in a brief conclusion.
