But step by step, each one discovers that taking medicine is very important for the animals, as well as for the children!A funny way to learn and a funny way to teach. As everyone knows how difficult it can be to explain to young children how important it is to take medicine....--THE BOOK OF THE ANIMALS:FUN LEARNING FOR CHILDREN AND PARENTSWhat are certainly the most occurring moments in a parent's life? When their child doesn't want to wash, eat, sleep, go to school, share, take medicine, get vaccinated... And what can a parent answer to these refusals?The successful "Book of The Animals" bilingual children's books series was created with the aim to help both parents and children to discover the benefits of washing, eating, sleeping, going to school, sharing, taking medicine, getting vaccinated... in a fun as well as educational manner. Since the books are also bilingual, parents will enjoy the teaching and the interactivity they can gain from reading them with their children.THE AUDIENCEThe books are geared towards children aged 2-5, before elementary/primary school.They will likely be bilingual children whose parents want to encourage the learning of their two current languages.They will also be children whose parents want to teach a language at a young age.Some teachers have also been using the books of the series as a way to teach a second language to children, with themes easy for them to both understand and memorise.THE CURRENT BOOKSThere are currently seven books in the series.Each episode brings on new animals, new words, new situations and new stories.- Ep.1. "These Animals... Don't Want to Wash!" (2008)- Ep.2. "These Animals... Don't Want to Eat!" (2009)- Ep.3. "These Animals... Don't Want to Sleep!" (2010)- Ep.4. "These Animals... [...] These delightful books tell the story of what happens when the animals in the stories, like many young children, don't want to eat and don't want to wash...The books are very suitable both for reading to young children and for older children to use to learn to read in both languages. They might even persuade them to wash and eat their dinner!The repetitive structure is supportive of children learning new words and the illustrations work well alongside the text to help understanding of unfamiliar words.I can easily imagine young children demanding repeat readings and enjoying learning the text by heart as many children do with favourite stories. Children learning to make up and write their own stories might well want to write a personalised version, using the structure as a prop.I think the stories would work well both in the home and in the classroom."(Review published in The Cass School of Education, by Dr Raymonde Sneddon, Research Fellow for "The Cass School of Education" at the University of East London, and Honorary Research Fellow of Birkbeck College, in the Department of Applied Linguistics)SUPPORT"The Book of The Animals' series is supported & recommended by ABRIR UK, a Brazilian Association for Educational Projects in the United Kingdom. www.Abrir.org.ukOfficial website: TheBookOfTheAnimals.com

Blood Lines-Sheila Marie Contreras 2009-07-21 Blood Lines: Myth, Indigenism, and Chicana/o Literature examines a broad array of texts that have contributed to the formation of an indigenous strand of Chicano cultural politics. In particular, this book exposes the ethnographic and poetic discourses that shaped the aesthetics and stylistics of Chicano nationalism and Chicana feminism. Contreras offers original perspectives on writers ranging from Alurista and Gloria Anzaldúa to Lorna Dee Cervantes and Alma Luz Villanueva, effectively marking the invocation of a Chicano indigeneity whose foundations and formulations can be linked to U.S. and British modernist writing. By highlighting intertextualities such as those between Anzaldúa and D. H. Lawrence, Contreras critiques the resilience of primitivism in the Mexican borderlands. She questions established cultural perspectives on “the native,” which paradoxically challenge and reaffirm racialized representations of Indians in the Americas. In doing so, Blood Lines brings a new understanding to the contradictory and richly textured literary relationship that links the projects of European modernism and Anglo-American authors, on the one hand, and the imaginary of the post-revolutionary Mexican state and Chicano/a writers, on the other hand.

Violence, Veils and Bloodlines-Louis J. Salome 2010-04-13 This memoir by an American journalist explores how entrenched notions of self, family, and tribalism dictate human behavior in our modern world. While sweeping in its scope, the work bears witness to one man’s examination of his familial roots and ethnicity, and the ways in which tribalism is found lurking under his own roof. Includes 26 photographs, as well as maps to familiarize readers with some of the world’s most misunderstood and volatile regions.

Bloodlines-Andrew Davidson 2015-04-30 Andrew Davidson goes behind the scenes at Britain’s largest hospital trust and describes a year in the life of a hospital through the stories of those who work there and those who pass through. St Thomas' Hospital, opposite the Houses of Parliament, is one of the most famous centres of medical excellence in the world. For the past two years it has been the subject of bitter political controversy over the decision to amalgamate it with its rival, Guy’s. From the man who runs the Mortuary to the Chief Executive who has 'finished' an affair with the head of PR - but who has just born his child - to the patients with Multi Drug Resistant Infection (an extremely scary potential by-product of going into hospital) and those who come into Casualty to have frozen fish removed from unlikely places - this is the most vividly realised book that has ever emerged from a modern hospital. It reveals the choices that doctors, nurses, administrators and patients must make each day - decisions that are often literally a matter of life and death.

Now it Can be Told-Philip Gibbs 1920 In this book I have written about some aspects of the war which, I believe, the world must know and remember, not only as a memorial of men's courage in tragic years, but as a warning of what will happen again--surely--if a heritage of evil and of folly is not cut out of the hearts of peoples. Here it is the reality of modern warfare not only as it appears to British soldiers, of whom I can tell, but to soldiers on all the fronts where conditions were the same.

Bloodlines-Anthony M. Platt 2015-12-03 At the end of World War II, an American military intelligence team retrieved an original copy of the 1935 Nuremberg Laws, signed by Hitler, and turned over this rare document to General George S. Patton. In 1999, after fifty-five years in the vault of the Huntington Library in southern California, the Nuremberg Laws resurfaced and were put on public display for the first time at the Skirball Cultural Center in Los Angeles. In this far-ranging, interdisciplinary study that is part historical analysis, part cultural critique, part detective story, and part memoir, Tony Platt explores a range of interrelated issues: war-time looting, remembrance of the holocaust, German and American eugenics, and the public responsibilities of museums and cultural centers. This book is based on original research by the author and co-researcher, historian Cecilia O'Leary, in government, military, and library archives; interviews and oral histories; and participant observation. It is both a detailed, scholarly analysis and a record of the author's activist efforts to correct the historical record.
