But step by step, each one discovers that taking medicine is very important for the animals, as well as for the children!A funny way to learn and a funny way to teach. As everyone knows how difficult it can be to explain to young children how important it is to take medicine...---THE BOOK OF THE ANIMALS:FUN LEARNING FOR CHILDREN AND PARENTSWhat are certainly the most occurring moments in a parent's life? Since the books are also bilingual, parents will enjoy the teaching and the interactivity they can gain from reading them with their children.THE AUDIENCEThe books are geared towards children aged 2-5, before elementary/primary school.They will likely be bilingual children whose parents want to encourage the learning of their two current languages.They will also be children whose parents want to teach a language at a young age.Some teachers have also been using the books of the series as a way to teach a second language to children, with themes easy for them to both understand and memorise.THE CURRENT BOOKSThere are currently seven books in the series.Each episode brings on new animals, new words, new situations and new stories.- Ep.1. "These Animals... Don't Want to Wash!" (2008)- Ep.2. "These Animals... Don't Want to Eat!" (2009)- Ep.3. "These Animals... Don't Want to Sleep!" (2010)- Ep.4. "These Animals... [...] These delightful books tell the story of what happens when the animals in the stories, like many young children, don't want to eat and don't want to wash...The books are very suitable both for reading to young children and for older children to use to learn to read in both languages. They might even persuade them to wash and eat their dinner!The repetitive structure is supportive of children learning new words and the illustrations work well alongside the text to help understanding of unfamiliar words.I can easily imagine young children demanding repeat readings and enjoying learning the text by heart as many children do with favourite stories. Children learning to make up and write their own stories might well want to write a personalised version, using the structure as a prop.I think the stories would work well both in the home and in the classroom."(Review published in The Cass School of Education, by Dr Raymonde Sneddon, Research Fellow for "The Cass School of Education" at the University of East London, and Honorary Research Fellow of Birkbeck College, in the Department of Applied Linguistics)SUPPORT"The Book of The Animals' series is supported & recommended by ABRIR UK, a Brazilian Association for Educational Projects in the United Kingdom. www.Abrir.org.ukOfficial website: TheBookOfTheAnimals.com

Blood Harvest-Tessa Dawn 2021-03-09 Beneath the dusky glow of a millennium moon, an ancient mystery is unfolding. Two very different vampires have each consumed a vial of blood containing the life force of two primordial princes, both presumed to be dead: "Drink this blood and welcome life; drink this blood and welcome death." And the contents are stirring, quickening...awakening. Braden Bratianu was only five years old when he was sired into the Vampyr race. The only fledgling to be made—not born—he struggled with his new identity, his past human frailties, and how to forge a new place in an ancient, lethal society. His very soul seems to be linked to the heartbeat of the house of Jadon. Kristina Riley Silivasi came from a troubled home and a tragic past. Rescued from a Dark One by an Ancient Master Healer, then mistaken for an ancient vampire's destiny, she was swiftly ushered into a terrifying universe, enduring everything from conversion to betrayal. Mage's Blood-David Hair 2013-09-03 David Hair is the award-winning writer of two young adult fiction series, The Aotearoa and The Return of Ravana (based on the Vedic epic The Ramayana). Mage's Blood, the first volume of a series called The Moontide Quartet, is Hair's first work of adult fantasy. In a starred review of Mage's Blood, Publisher's Weekly said, "This multilayered beginning to the Moontide Quartet plunges readers into a taut network of intrigue and mystery that tightens with each chapter. Hair portrays a stark and beautiful world breaking apart, with both good and evil characters desperate to reshape it through magic, war, and treachery. This strong debut should draw in fantasy readers of all stripes." Most of the time the Moontide Bridge lies deep below the sea, but every twelve years the tides sink and the bridge is revealed, its gates open for trade. The Magi are hell-bent on ruling this new world, and for the last two Moontides they have led armies across the bridge on "crusades of conquest." Now, the third Moontide is almost here, and this time the people of the East are ready for a fight... but it is three seemingly ordinary people that will decide the fate of the world.

Toker's Blood-Jennifer Jones 2014-09-29 On Friday nights at Hilda's Drive-In, teenagers Burt Carron and his buddies dance all too

closely with their dates to the stimulating "Motown" beat of the sixties. Then on Saturday nights they guzzle beer and burn rubber around town in their muscle cars. There is no police intervention. Instead, the small town chief, Chief Larry Spivey, looks the other way. For years Oak Bottom, Alabama has been a small Southern town most citizens believe insulated from big city crime, even as it grew around them amidst the culture-changing decade of the 1960s. But neither Chief Spivey or the citizens of Oak Bottom can hide their heads in the sand any longer after one of the young men disappears and one crime after another leads everyone to the adder in their midst. Toker's Blood is a glimpse of a last fleeting decade of innocence when ignorance was bliss, even as rock'n roll was cool. Nonetheless, the enlightenment of youth to the illusions around them is quickened by the dark side of a rising drug culture in small town U.S.A.

Years later, after a successful prison break, the judge makes fast friends with the King of Hawaii. He blinked his huge eyes slowly, his stiff mouth fumblingly forming words of a language his race had not used for thirty thousand years. 'Kor was . . . is . . . God . . . Knowledge.' How to Understand Economics in 1 Hour-Marshall Payn 2012-04-01 For decades US politicians have been kicking the federal deficit and overspending can down the road. No politician can get elected by running on a platform that will honestly fix the US economy. At no time in history has it been more crucial than now for each of us to understand our government. In order to do so, we must understand economics, politics, and the difference between the two. We are the richest country in history but yet we sit on the edge of financial disaster. How can we expect that to change if voters don't understand the very basics of economics? There has never been a source of information on economics that people can easily understand, UNTIL NOW. Author Marshall Payn, with a degree in Economics from M.I.T., believes that the current presentation of economics in our educational system is the biggest obstacle in understanding economics. He developed his unique approach while working in the field of vocational education, i.e. getting fundamental information from one mind to another. In clear and simple terms, this book separates truth from emotion, economics from politics, and offers undeniable proof of our country's destiny if each of us continues to elect politicians while lacking a clear understanding of basic economic principles. If you think you understand economics, think again. This book is an eye opener, not only with its content, but because these concepts are so simple. What is truly amazing is that the knowledge in this book is not common knowledge. You cannot call yourself a responsible citizen unless you read How to Understand Economics in 1 Hour prior to voting in the 2012 US election. It will change the way you see the government, politicians, and the future of our country.

Oh, and Zara wasn't the name I was born with-but you'll find out more about that in the book. I don't know about you, but my own struggle with my weight has held me back a bit in life. And my self-esteem took a real nose dive after my fiance dumped me-via text, no less. (I know, right? Jerk!...but I don't usually dwell on things in the past, so let's just move right along from that, shall we?) So, I'm still a work-in-progress for sure, but I'm really starting to figure it all out-how to be more of who I'm meant to be every day-including the bumps, the lumps, and my bruised ego along the way. Oh and I love my sisterhood (more about that later) - the women who join me in believing that we are all capable of being strong, amazing, warrior princesses-just the way we are right now."

The Applicants-Ari Morgan 2014-07-02 Groomed for a place at a Big Name School since their obsessed, status-conscious helicopter parents passed out cigars at the Stockstill General Hospital Neonatal Unit, the privileged students of Pembrocton College Preparatory are ratcheting up the stakes in the race to get into the nation's most prestigious colleges. The PCP juniors are gloating, jubilant at the rumor that the valedictorian presumptive has received a B on her report card, a grade that will relegate her to in-state hell. Her heir apparent, a three-generation Yale legacy, is the sole mourner at the demise of her future—if only because her thoughtless academic lapse is going to derail his plans to attend MIT. Across town, in the graffiti-covered halls of Stockstill High School, the students slink to class, praying that they arrive without a knife wound—and dream of ivy-covered walls. And with the help of a take-no-prisoners principal and an enterprising parent, the students at SHS dare to encroach shamelessly on territory normally reserved for their wealthy private school rivals. Join the fray as a memorable cast of characters engages in the latest rage in extracurricular activities: college admissions as a blood sport. Laugh out loud funny, The Applicants lampoons the heights we scale—and the depths to which we sink—to get into the "right" college. ?

First Blood-Tarita Maree 2017-10-17 "Periods equal people." Each of us is intimately tied to menstrual cycles, fertility, pregnancy, motherhood, abortion, and indeed all things uterine. The Womb is our first home. It should not be treated as an inconvenience, a political battleground, or a source of anything other than sacred life. I hated my period! It was painful and horrible and nothing the doctors did seemed to help. I wondered if I was the only one? I'd seen Oprah Winfrey do a show on learning to love her period and the resulting changes in her body and it got me to thinking. So I started roaming around asking women about their menstrual cycles and was blown away by our collective experiences. This book is a culmination of the stories that make up those collective experiences and the empowering themes nestled within them. It is my hope that it will empower women, educate men and encourage all of us to participate in critical conversations about our experiences, practices, products and preferences.
