Sony A7 Series-Brian Smith 2015-07-15 The Sony A7 and A7R were the world's first mirrorless, interchangeable lens cameras with a full-frame sensor. Since their release, Sony has expanded the series, adding the A7S and A7II models. All of the cameras in the series are intended for amateurs to semi-professionals who want to jump into photography with a camera that combines compact size with the performance of a high end DSLR. While the camera manual explains what the camera can do, it doesn't show exactly how to use the camera to create great images! That's where Sony A7 Series: From Snapshots to Great Shots comes in. Starting with the

top ten things users need to know about the camera, author Brian Smith carefully guides readers through the operating features. Readers get practical advice from a pro on which settings to use when, great shooting tips, and end of chapter assignments. - A7S: High-sensitivity version with an effective ISO range from 100 to 409600 and with 4K video capability, but only 12MP.

Dog Sense-John Bradshaw 2012-05-08 Dogs have been mankind's faithful companions for tens of thousands of years, yet today they are regularly treated as either pack-following wolves or furry humans. The truth is, dogs are neither--and our misunderstanding has put them in serious crisis. What dogs really need is a spokesperson, someone who will assert their specific needs. Renowned anthrozoologist Dr. John Bradshaw has made a career of studying human-animal interactions, and in *Dog Sense* he uses the latest scientific research to show how humans can live in harmony with--not just dominion over-- their four-legged friends. From explaining why positive reinforcement is a more effective (and less damaging) way to control dogs' behavior than punishment to demonstrating the importance

of weighing a dog's unique personality against stereotypes about its breed, Bradshaw offers extraordinary insight into the question of how we really ought to treat our dogs.

Atomic Culture-Scott C. Zeman 2004 Eight scholars examine the range of cultural expressions of atomic energy from the 1940s to the early twenty-first century, including comic books, nuclear landscapes, mushroom-cloud postcards, the Los Alamos suburbs, uranium-themed board games, future atomic waste facilities, and atomic-themed films such as 'Dr. Strangelove' and 'The Atomic Kid'. Despite the growing interest in atomic culture and history, the body of relevant scholarship is relatively sparse. *Atomic Culture* opens new doors into the field by providing a substantive, engaging, and historically based consideration of the topic that will appeal to students and scholars of the Atomic Age as well as general readers.

Faithful-Alice Hoffman 2016-11-01 From the New York Times bestselling author of *The Marriage of Opposites* and *The Dovekeepers* comes a soul-searching story about a young woman struggling to redefine herself and the power of love, family, and fate. Growing up on Long Island, Shelby

Richmond is an ordinary girl until one night an extraordinary tragedy changes her fate. Her best friend's future is destroyed in an accident, while Shelby walks away with the burden of guilt. What happens when a life is turned inside out? When love is something so distant it may as well be a star in the sky? Faithful is the story of a survivor, filled with emotion—from dark suffering to true happiness—a moving portrait of a young woman finding her way in the modern world. A fan of Chinese food, dogs, bookstores, and men she should stay away from, Shelby has to fight her way back to her own future. In New York City she finds a circle of lost and found souls—including an angel who's been watching over her ever since that fateful icy night. Here is a character you will fall in love with, so believable and real and endearing, that she captures both the ache of loneliness and the joy of finding yourself at last. For anyone who's ever been a hurt teenager, for every mother of a daughter who has lost her way, Faithful is a roadmap. Alice Hoffman's "trademark alchemy" (USA TODAY) and her ability to write about the "delicate balance between the everyday world and the extraordinary" (WBUR) make this an unforgettable story. With beautifully crafted prose, Alice Hoffman spins hope from heartbreak in this profoundly moving novel.

Runt-Nora Raleigh Baskin 2014-07-22 The award-winning author of *Anything But Typical* “delivers an honest message about surviving bad situations and remaining true to oneself and one’s friends” (Publishers Weekly) in this insightful exploration of middle school bullying from multiple perspectives. Elizabeth Moon grew up around dogs. Her mom runs a boarding kennel out of their home, so she’s seen how dogs behave to determine pack order. Her experience in middle school is uncomfortably similar. Maggie hates how Elizabeth acts so much better than everyone else. Besides, she’s always covered in dog hair. And she smells. So Maggie creates a fake profile on a popular social networking site to teach Elizabeth a lesson. What makes a bully, and what makes a victim? It’s all in the perspective, and the dynamics shift. From sibling rivalries to mean girl antics, the varying points of view show the many shades of gray in this illuminating novel from the award-winning author of *Anything But Typical*—because middle school is anything but black and white.
