Crazy As a Run Over Dog ... But Don't Blame It All On the Animals-Mike Rowland 2014-05-10 For many of us, life is about the stories that make up our past, provide context for the present, and give hope for our future. As an art form, storytelling has fallen victim to the smart phone, the computer tablet, and the video game. We just don't take time anymore to pass along the stories that define our culture, our heritage, and our character. Crazy as a Run Over Dog is one man's attempt to renew the tradition of legacy building by telling the stories of everyday experiences that remind us we are all more alike than we are different.

Don't Shoot the Dog-Karen Pryor 2019-12-03 Karen Pryor's clear and entertaining explanation of behavioral training methods made Don't Shoot the Dog a bestselling classic with revolutionary insights into animal—and human—behavior. In her groundbreaking approach to improving behavior, behavioral biologist Karen Pryor says, "Whatever the task, whether keeping a four-year-old quiet in public, housebreaking a puppy, coaching a team, or memorizing a poem, it will go fast, and better, and be more fun, if you know how to use reinforcement." Now Pryor clearly explains the underlying principles of behavioral training and reveals how this art can be applied to virtually any common situation. And best of all, she tells how to do it without yelling threats, force, punishment, guilt trips—or shooting the dog. From the eight methods for putting an end to all kinds of undesirable behavior to the ten laws of "shaping" behavior, Pryor helps you combat your own addictions and deal with such difficult problems as a moody spouse, an impossible teen, or an aged parent. Plus, there's also incredibly helpful information on house training the dog, improving your tennis game, keeping the cat off the table, and much more! "In the course of becoming a renowned dolphin trainer, Karen Pryor learned that positive reinforcement...is even more potent than prior scientific work had suggested...Don't Shoot the Dog looks like the very best on the subject—a full-scale mind-changer" (The Coevolution Quarterly). Learn why pet owners rave, "This book changed our lives!" and how these pioneering techniques can work for you, too.

Oxford Studies in Ancient Philosophy-Brad Inwood

2013-11 Oxford Studies in Ancient Philosophy is a volume of original articles on all aspects of ancient philosophy. The articles may be of substantial length, and include critical notices of major books. OSAP is now published twice yearly, in both hardback and paperback. 'The serial Oxford Studies in Ancient Philosophy (OSAP) is fairly regarded as the leading venue for publication in ancient philosophy. It is where one looks to find the state-of-the-art. That the serial, which presents itself more as an anthology than as a journal, has traditionally allowed space for lengthier studies, has tended only to add to its prestige; it is as if OSAP thus declares that, since it allows as much space as the merits of the subject require, it can be more entirely devoted to the best and most serious scholarship.' The Life and Opinions of Maf the Dog, and of His

Friend Marilyn Monroe-Andrew O'Hagan 2010-12-06

Meet Maf: The hilariously opinionated, well-read, politically scrappy, and complex canine companion to Marilyn Monroe. In November 1960, Frank Sinatra gave Marilyn Monroe a dog. His name was Mafia Honey, or Maf for short. Born in the household of Vanessa Bell, brought to the United States by Natalie Wood's mother, and given as a Christmas present to Marilyn the winter after she separated from Arthur Miller, Maf was with Marilyn for the last two years of her life, first in New York and then in Los Angeles, and he had

as much instinct for celebrity and psychoanalysis as he did for Liver Treat with a side order of National Biscuits. Marilyn took him to meet President Kennedy and to Hollywood restaurants, to department stores, to interviews, and to Mexico for her divorce. Through Maf's eyes, we see an altogether original and wonderfully clever portrait of the woman behind the icon—and the dog behind the woman.

Don't Blame the Messenger-Lee Kronert 2012-10-15 The public education system in New York is in turmoil. Is this because of leadership in Albany, the No Child Left Behind Act, parents who fail in their effort to raise children properly, or is it just the fault of kids who show little to no respect for authority, peers, or themselves? Or should we accept the most popular place of blame? The teacher is the problem. The former world, where teachers were revered, looked up to by children and parents, and respected because of the crucial role they played, is all but a forgotten memory. Today, parents and school administrators often demonize teachers and are openly critical of the tenure system, which protects their positions seemingly forever. Riverton School District has lots of issues. There is rampant bullying and peer intimidation. Some kids are even afraid to come to school. The disrespect and outrageous behavior runs not only unchecked, but leadership in Albany wants to see even less discipline and consequences for the young perpetrators. Brendan Moss teaches eighth-grade math at Riverton. As a widower and devoted father of three, he does his best to assist young people, but the school superintendent wants to use the veteran math teacher as a

test case to overturn the right to lifetime tenure. Don't Blame the Messenger addresses school policies, State Department of Education leadership, bullying, and why a teacher's tenure should be maintained and viewed as something good for kids and the process of learning. The author works in the trenches, where truth and reality collide. Opinions on what is wrong with public education vary. Don't Blame the Messenger is written by a teacher who knows how it really is.

English Toy Spaniel-Chelsea Devon 2012-07-10 The treasured companion of kings and aristocrats, the English Toy Spaniel has graced homes and palaces around the world for over five hundred years. As in centuries gone-by, the English Toy Spaniel makes a charming and sophisticated companion for the right owner or family. The Charlie, as the breed is affectionately known;in honor of King Charles II, the breed's most famous ally;is distinctive for his well-domed head, flat and feathered ears, and his pug nose. Owners are spoiled for choice, as the breed comes in four distinct color patterns (solid ruby, chestnut and white, black and tan, or tricolored). This Comprehensive Owner's Guide opens with a chapter on the breed's history, retelling the breed's beginnings in England and featuring a special section on the history of the breed in America, written by breeder and artist, Michael Allen. The chapter on the breed's characteristics is focused on helping a potential owner decide whether or not the Charlie is the right toy dog to bring into his or her life, considering the breed's personality and physical traits, health concerns, and special

requirements. For most responsible dog owners, the Charlie fits well into a home with well-behaved children and makes an amenable, easy-to-live-with canine chum for all members of the household. New owners will welcome the well-prepared chapter on finding a reputable breeder and selecting a healthy, sound puppy. Chapters on puppy-proofing the home and yard, purchasing the right supplies for the puppy as well as house-training, feeding, and grooming are illustrated with photographs of handsome adults and puppies. In all, there are over 135 full-color photographs in this useful and reliable volume. The author's advice on obedience training will help the reader better mold and train into the most well-mannered dog in the neighborhood. The extensive and lavishly illustrated chapter on healthcare provides up-to-date detailed information on selecting a qualified veterinarian, vaccinations, preventing and dealing with parasites, infectious diseases, and more. Sidebars throughout the text offer helpful hints, covering topics as diverse as historical dogs, breeders, or kennels, toxic plants, first aid, crate training, carsickness, fussy eaters, and parasite control. Fully indexed.
