Paper Crafts Workshop-Marie Browning 2007-03 Classic techniques—contemporary projects! This second entry in the new Paper Crafts Workshop series proves that traditional methods of crafting can produce some of the most exquisite greeting cards ever. Every idea is eye-opening and lovely: paper lacework, a form of paper weaving known as papuela, silhouette cutting, iris folding, paper embroidery, paper piercing (Ornare), kaleidoscope folding, and more. With plenty of photos and description to lead the newcomer through every step, and patterns when needed, crafters won't be able to resist making every card. Best of all, the supplies and papers needed to create these unique designs are all easily found at neighborhood scrapbooking stores.

Elementary School Mathematics-John A. Van de Walle 1994 Elementary School Mathematics: Teaching Developmentally, Second Edition, provides detailed, comprehensive coverage of the teaching of mathematics in grades K-8. Firmly grounded in the NCTM Standards, the text develops a constructivist/developmental approach to learning mathematics that focuses on the nature of mathematical concepts and the manner in which children construct mathematical ideas. It aims to help teachers reconceptualize mathematics as a problem-solving endeavor not as a mastery of rules and procedures. An accessible synthesis of viewpoints and current research, this highly praised text includes topics ranging from the development of basic fact mastery to the important development of "number sense"--All the while encouraging teachers to consider the construction of mathematics from the child's perspective. In-depth treatment of curriculum content teaching, combined with hundreds of teaching activities aimed at conceptual development, makes Elementary School Mathematics a practical teacher's resource as well as a college text. Elementary School Mathematics: Teaching Developmentally, Second Edition, features: greater emphasis on the NCTM Curriculum Standards and the Professional Teaching Standards as the leading forces in mathematics education; a new chapter on mathematics as a "science of pattern and order"; a completely rewritten chapter on alternative assessment; expanded and improved problem-solving examples; enhanced coverage of grades 7 and 8; even more black-line masters with directions for making other useful materials; and an Instructor's Manual with instructional suggestions, activities for group homework, practicum ideas, and essay questions.

Draw Original Sugar Skull Day of the Dead Cross Stitch and Needlework Designs-The Snarky Cross Stabber 2019-05-21 Create your own patterns, charts and design elements for Day of the Dead themed needlework in this specialized sketchbook. Featuring 20 individual stitch count grid templates on 10-Square graph paper with a silhouette of a Sugar Skull. Add your own colorful details to the pre-made skeleton head. Use the conversion charts to convert the 62 x 88 count pattern into multiple fabric count sizes. The book includes image and total fabric sizes for many different types of fabric choices, over both one and over two, from 8 to 40 count fabrics or linens. Each sketching panel is partnered with a Floss Chart for planning your supplies list or embroidery floss colors. Supply information such as strand count, brand name, inventory number, color description and alternate color options can be recorded for each new stitchery drawing. A perfect book for planning your own traditional Mexican Catrina painted skull fiber art projects. Start creating your own unique Sugar Skull charts right away!
