Liquid Natural Gas in the United States-John Hrastar 2014-06-26 When natural gas was first discovered in Appalachia in the 19th century, its development as a fuel was rapid. Unlike oil and coal, gas could be moved only by pipeline and required large containers for storage. It was not possible to cope with peak loads without adding excessive pipeline capacity until just before World War II, when two sister gas companies developed a plant to liquefy and store natural gas as a liquid; the liquid was then regasified to deal with peak loads. The liquid is 1/600 the volume of the gas, but it requires storage at an extremely low temperature, 1-260Â°F. This worked well until 1944, when a liquid natural gas (LNG) tank in Cleveland ruptured and caused a fire with 130 fatalities. The fire did not end the industry but caused it to pause. Over the next few years the problems in materials, design, standards, and siting were solved. The recognition that liquefaction made LNG transportable without a pipeline was the breakthrough. In 1959 a shipload of LNG went from Louisiana to Britain and restarted the LNG industry. It is now a major worldwide energy industry and the topic of this work.

The G20-Peter I. Hajnal 2019-01-24 This revised and updated edition presents detailed analysis of the history and current state of the G20, and the challenges it faces. The emergence of the G20 was the result of calls for full inclusion of major developing and other systemically important countries and to reflect new global economic and political realities. The growth of Chinese power, growing significance of other major developing countries and new concerns concerning anti-globalization and rising protectionism in the West have all resulted in important changes to the dynamics of the institution. The suspension of Russia’s membership in the G8 has also necessitated a change in G7/G20 dynamics and the G20’s processes, agenda priorities and role in global governance. Providing a historical overview and analysis of the evolving agenda, methods of performance evaluation, relationship with structured international organizations and other external actors, Hajnal’s text is an authoritative work of history, analysis and reference on the G20 and also G7/G8/G20 reform. This book is an essential source for researchers and students focusing on the G20, international organizations and global governance, and more generally for scholars in the fields of political science, economics, and finance.

Losing an Enemy-Trita Parsi 2017-08-01 The definitive book on President Obama’s historic nuclear deal with Iran from the U.S. foreign policy expert and acclaimed author of Treacherous Alliance. In Losing an Enemy, Middle East policy expert Trita Parsi examines President Obama’s strategy toward Iran’s nuclear program and reveals how the historic agreement of 2015 broke the persistent stalemate in negotiations that had blocked earlier efforts. The Joint Comprehensive Plan of Action, commonly known as the Iran nuclear deal, accomplished two major feats in one stroke: it averted the threat of war with Iran and prevented the possibility of an Iranian nuclear bomb. Parsi advised the Obama White House throughout the talks and had access to decision-makers and diplomats on the U.S. and Iranian sides alike. With his unique insight, he examines every facet of a triumph that could become as important and consequential as Nixon’s rapprochement with China. Drawing from more than seventy-five in-depth interviews with key decision-makers, including Iran’s Foreign Minister Javad Zarif and U.S. Secretary of State John Kerry, this is the first authoritative account of President Obama’s signature foreign policy achievement. "A detailed and gripping account of the 22 months of negotiations over Iran’s nuclear program that resulted in the 2015 deal."—John Waterbury, Foreign Affairs

Sport’s Relationship with Other Leisure Industries-Dion Georgiou 2017-01-12 This innovative and timely volume of essays critically interrogates the shared histories between sport and a variety of leisure, entertainment and cultural pursuits. Sport’s Relationship with Other Leisure Industries: Historical Perspectives spans the bowling greens of early modern England to the postmodern exhibition halls of contemporary Las Vegas, and considers examples from Europe, North America and India. Utilizing a range of historical methods and sources, they describe how sport has interacted with a broad range of leisure forms, including tourism, shopping, theatre, circus, carnival and film. The collection takes into account the economic, cultural, geographic and political interactions sport has forged and poses a series of questions: about how sport has been forged in contemporary consumer capitalism; about the manner in which it has been shaped by space and place; and the ways in which entrepreneurs, sportspeople and artists have represented sporting competition. The collection will help both students and scholars conceptualise sporting networks, and will be of interest to those working in multiple fields. This book was previously published as a special issue of Sport in History.

The Season of the Nativity-Sybil MacBeth 2014-11-01 Sybil MacBeth writes that Advent and Epiphany are the often-neglected parentheses around Christmas. And they deserve more attention and better publicity. This Season of the Nativity sets the stage the liturgical year, our yearlong journey through Scripture and salvation history. Sybil MacBeth’s memoir, front-porch theology, and pages of practices and activities invite individuals and families to enjoy this season in a way that has more peace and more Christ and less chaos and guilt. She offers simple tools for busy people – perhaps to reclaim a joyful and yes, serious nativity season for the first time. Sybil MacBeth is a dancer, a doodler, and a former community college mathematics professor. Her books include Praying in Color: Drawing a New Path to God, Praying in Color: Kids’ Edition, and Praying in Color--Portable Edition. Learn more about Sybil and her work at prayingincolor.com. "This gorgeous book is going to remain at my reading chair, dog-eared and bookmarked, all through the Yuletide season. It will also be under the tree of just about everyone on my gift list. We will all have more interesting winters, and greater intimacy with Jesus, because of it." —Lauren F. Winner, author of Still and Mudhouse Sabbath "This beautifully designed book caters to those of us for whom waiting for Christmas is the very best part about the holidays. With activities like Advent calendars, games, doodles, carols, and my personal favorite—"flaunting the color purple"—Sybil MacBeth helps us see the Nativity as an entire season stretching from Advent through Epiphany, each day an opportunity for Technicolor grace." —Jana Riess, author of Flunking Sainthood and Flunking Sainthood Every Day If you think you’re already familiar with Advent, Christmas, and Epiphany, think again! After reading this book, you’ll never see those seasons in the same way. With humor, spiritual wisdom, and innovative activity suggestions, the author makes you open your eyes in wonder." —Linda Douty, spiritual director and author of 5 books, including Rhythms of Growth: 365 Meditations to Nurture the Soul "With heart-open honesty, Sybil MacBeth opens the door to a new exploration of the three-part Nativity Season. With personal and family-friendly practices and her appealing approach, Sybil invites both seasoned Christians and curious seekers to prepare in Advent, nestle into Christmas, and wonder anew in Epiphany. Extremist? Not really, but perhaps the leader of a new awakening. —Connie Denninger is a retreat leader, teacher of prayer and spiritual disciplines, and advocate of the Arts in Christian Practice Sybil MacBeth’s genius is for getting the grand themes – like prayer and yearning and waiting and birth and joy – into real life. She starts with scripture and tradition and solid theology and ends up right on the kitchen table or living room (where children and adults alike are actually enjoying one another). As an on-the-ground parish priest, I want this book in every home of every parishioner. That’s because I know they want what I want – not to dread the approach of Christmas and feel inadequate in its wake – but to truly experience God’s great activity before, during and after in a way that’s full of pleasure and meaning. This book lines out the very concrete path from the wish to the reality. —Rev Carleton Bakkum, Episcopal Priest and Rector of Grace Episcopal Church, Yorktown, VA. - also an artist The “Season of the Nativity” by Sybil MacBeth is an invitation into spiritual growth through frameworks and forms – by sharing with the reader some familiar and many new ways to prepare for and celebrate Advent, Christmas, and Epiphany. Her book is an incarnational feast of ideas – both thoughtful and fun, challenging at times and delightful as well. You will want your own copy as well as several to share with your friends. —The Reverend Canon Meredith Hunt, Episcopal Priest, Diocese of Western Michigan As Luther translated Scripture in the language of the people, Sybil Macbeth’s Seasons of the Nativity translates the Church’s ancient Incarnation liturgy into the every day lives of God’s children of every age. If you adopt any of Sybil MacBeth’s suggestions for observing the Church’s liturgical seasons of Advent, Christmas and Epiphany--watch out! You may find yourself holding the ChristChild in a whole new way--that may change your life and the lives of those around you! Whether its Praying in Color or her latest work, Seasons of the Nativity, Sybil MacBeth makes the mysterious things of God (prayer) and the Church (liturgy) accessible to everyone. In her book, Seasons of the Nativity, Sybil MacBeth moves liturgy into action as she provides meaning-full ways to anticipate and expect, welcome and receive, enjoy and cherish the gift of Jesus in the seasons of Advent, Christmas and Epiphany. Corporate Welfare-James T. Bennett 2017-07-05 From the time of Alexander Hamilton's "Report on Manufactures" through the Great Depression, American towns and cities sought to lure footloose companies by offering lavish benefits. These ranged from taxpayer-financed factories, to tax exemptions, to outright gifts of money. This kind of government aid, known as "corporate welfare," is still around today. After establishing its historical foundations, James T. Bennett reveals four modern manifestations.His first case is the epochal debate over government subsidy of a supersonic transport aircraft. The second case has its origins in Southern factory relocation programs of the 1930s?the practice of state and local governments granting companies taxpayer financed incentives. The third is the taking of private property for the enrichment of business interests. The fourth?export subsidies?has its genesis in the New Deal but matured with the growth of the Export-Import Bank, which subsidizes international business exchanges of America's largest corporate entities.Bennett examines the prospects for a successful anti-corporate welfare coalition of libertarians, free market conservatives, Greens, and populists. The potential for a coalition is out there, he argues. Whether a canny politician can assemble and maintain it long enough to mount a taxpayer counterattack upon corporate welfare is an intriguing question.

Calendar of State Papers and Manuscripts, Relating to English Affairs-Rawdon Lubbock Brown 2013-05-06 This is the first of three parts of the sixth volume in a seven-volume collection - published between 1864 and 1890 - comprising Venetian and other northern Italian state papers relating to England. Translator and editor Rawdon Lubbock Brown (1806-83) lived for many years in Venice, had unrivalled access to the Venetian archives and travelled widely to find documents in other Italian libraries and archives. He had previously published two volumes of Sebastian Giustinian's dispatches to Venice from Henry VIII's court (also reissued in this series). This first part of the sixth volume contains documents from the years 1555-6, the early years of Mary I's reign, an important period for the Italian states when papal authority was reinstated in England and Mary married Philip of Spain - documented here by the correspondence of, among others, the papal legate Cardinal Pole. The editor's preface puts the various documents into historical context.

A Way other than Our Own-Walter Brueggemann 2016-12-15 Lent recalls times of wilderness and wandering, from newly freed Hebrew slaves in exile to Jesus' temptation in the desert. God has always called people out of their safe, walled cities into uncomfortable places, revealing paths they would never have chosen. Despite our culture of self-indulgence, we too are called to walk an alternative pathâ€"one of humility, justice, and peace. Walter Brueggemann's thought-provoking reflections for the season of Lent invite us to consider the challenging, beautiful life that comes with walking the way of grace.

Decisive-Chip Heath 2013-03-26 The four principles that can help us to overcome our brains' natural biases to make better, more informed decisions--in our lives, careers, families and organizations. In Decisive, Chip Heath and Dan Heath, the bestselling authors of Made to Stick and Switch, tackle the thorny problem of how to overcome our natural biases and irrational thinking to make better decisions, about our work, lives, companies and careers. When it comes to decision making, our brains are flawed instruments. But given that we are biologically hard-wired to act foolishly and behave irrationally at times, how can we do better? A number of recent bestsellers have identified how irrational our decision making can be. But being aware of a bias doesn't correct it, just as knowing that you are nearsighted doesn't help you to see better. In Decisive, the Heath brothers, drawing on extensive studies, stories and research, offer specific, practical tools that can help us to think more clearly about our options, and get out of our heads, to improve our decision making, at work and at home.

I'll Write Your Name on Every Beach-Susan Auerbach 2017-07-21 Written by a mother who lost her 21 year old son to suicide, this book deals with the themes of suicide loss through the lens of the author's personal grief. Addressing the process of post-traumatic growth, this memoir provides the bereaved with therapy exercises and creative activities to help them come to terms with their loss. Although it deals directly with losing a child, much of the book pertains to grief generally, especially complicated grief after a sudden death, and thus provides comfort to any reader who has lost a close one to suicide or anyone interested in young people struggling with mental health. Organised thematically, it addresses the many issues and stages involved in the grieving process and ends each chapter with a variety of beneficial yoga, breathing and therapy activities. This allows readers to dip in and out of the book, and go at their own pace - replicating the fact that grief is not a linear journey but an iterative one that goes back and forth. This book is a lifeline for anyone struggling to process loss.

United States Code-United States 2013 "The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office"--Preface.

Seychelles-International Monetary Fund. African Dept. 2015-07-22 Context: The robust recovery from the 2008 balance of payments and debt crisis has resulted in improved economic and social outcomes. Continued policy discipline and reforms are needed for the microstate to mitigate its geographical and population constraints and maintain momentum in developing a diversified and resilient economy. Focus: With the fiscal stance anchored by the authorities' debt reduction objective, macroeconomic discussions concentrated on the smooth functioning of monetary and exchange rate policies. On the structural agenda, the dialogue focused on policies to promote sustained and inclusive growth, particularly on the appropriate role for state-owned enterprises (SOEs). Review: The program is on track. The authorities met the end-December quantitative performance criteria except for narrowly exceeding the ceiling on reserve money. The structural agenda remains broadly on track despite some delays. Staff recommends completion of the second review under the Extended Arrangement and modification of the performance criteria for end-June and end-December 2015, and supports the authorities' request for a waiver for the end-December 2014 performance criterion for reserve money. Outlook and risks: With the external position having stabilized since the last review, fundamentals are strengthening. However, the economy remains highly vulnerable to global developments, including weakness in the key European markets, while domestic risks center on the role of the SOEs. Recommendations: The authorities' objective of reducing public debt below 50 percent of GDP by 2018 remains an appropriate and attainable anchor for fiscal policy. The monetary policy framework should be further enhanced by increasing its forward orientation in the context of a flexible exchange rate. Structural measures should focus on fostering inclusiveness and private sector-led growth, while improving economic governance and the focus of SOEs. Data: Data provision is broadly adequate for surveillance. Priority areas include improved GDP statistics, strengthening external sector statistics, and extending coverage of the international investment position.

Defying Expectations-Jason Foster 2018-01-26 In October 2005, Jason Foster, then a staff member of the Alberta Federation of Labour, was walking a picket line outside Lakeside Packers in Brooks, Alberta with the members of local 401. It was a first contract strike. And although the employees—the meat-packing plant—many of whom were immigrants and refugees—had chosen an unlikely partner in the United Food and Commercial Workers local, the newly formed alliance allowed the workers to stand their ground for a three-week strike that ended in the defeat of the notoriously anti-union company, Tyson Foods. It was but one example of a wide range of industries and occupations that local 401 organized over the last twenty years.
