

Blocs Notes Perptuel Lhistoire 365 Jours

L'histoire en 365 jours-Collectif 2015-09-02 Découvrez chaque jour à la date précise un évènement qui a marqué l'histoire du monde depuis 1900, de la fin de la bataille de la Marne à l'élection de Barack Obama en passant par la chute du mur de Berlin. Objet élégant à exposer, mais aussi pense-bête pratique pour noter ses rendez-vous et les anniversaires à ne pas oublier, cette éphéméride nous en apprend tous les jours.

Édith Piaf-David Looseley 2015 The world-famous French singer Edith Piaf (1915-63) was never just a singer. Dozens of biographies of her, of variable quality, have seldom got beyond the well known and usually contested 'facts' of her life. This book suggests new ways of understanding her. A 'cultural history' of Piaf means exploring her cultural, social and political significance as a national and international icon, looking at her shifting meanings over time, at home and abroad. How did she become a star and a myth? What did she come to mean in life and in death? At the centenary of her birth and more than fifty years after her passing, why do we still remember her work and commemorate her through the work of others, from Claude Nougaro and Elton John to Ben Harper and Zaz, as well as in films, musicals, documentaries and tribute acts around the world? What does she mean today? The book proposes the notion of an imagined Piaf. To a large extent, she was her own invention, not only by virtue of her talent but because she produced narratives about herself, building a mystery. But she was also the invention of others: of those she worked with but above all of her audiences, who made their own meanings from her carefully staged performances. Since her death, the world has been free to imagine new Piafs. From the 1930s until today, she has variously embodied conceptions of the 'popular' and of 'chanson' as a new kind of middlebrow, of gender, sexuality, national identity and the human condition. "

Beauvoir in Time-Meryl Altman 2020 "Beauvoir in Time situates Simone de Beauvoir's The Second Sex in the historical context of its writing and in later contexts of its international reception, from then till now. The book takes up three aspects of Beauvoir's work more recent feminists find embarrassing: "bad sex," "dated" views about lesbians, and intersections with race and class. Through close reading of her writing in many genres, alongside contemporaneous discourses (good and bad novels in French and English, outmoded psychoanalytic and sexological authorities, ethnographic surrealism, the writing of Richard Wright and Franz Fanon), and in light of her travels to the U.S. and China, the author uncovers insights more recent feminist methodologies obscure, showing Beauvoir is still good to think with today"--

The Works of John Adams, Second President of the United States-John Adams 1851

Capital Letters-Ève Morisi 2020 "'Capital Letters' sheds new light on how literature has dealt with society's most violent legal institution, the death penalty. It investigates this question through three major French authors with markedly distinct political convictions and literary styles: Victor Hugo, Charles Baudelaire, and Albert Camus. Working at the intersection of poetics, ethics, and law, Ève Morisi uncovers an unexpected transhistorical dialogue both on the modern death penalty and on the ends and means of post-Revolutionary literature. She offers close textual analysis and careful contextualization of the representations of state killing that these prominent writers crafted over two centuries during which the guillotine consistently fulfilled its function. Combined with concepts forged by critics of violence such as Agamben, Foucault, and Girard, this detailed examination reveals that, despite their differences, Hugo, Baudelaire, and Camus converge in questioning the humanitarian redefinition of capital punishment dating from the late eighteenth century. Conversely, capital justice leads all three writers to interrogate the functions, tools, and limits of their art"--Provided by publisher.

Regimes of Comparatism-Renaud Gagné 2018-11-06 Comparatism is reflexive comparison. The regime of comparatism is the horizon of knowledge in which each individual comparison is received and judged. The aim of this book is to turn the comparative insight on itself and compare different comparative moments, exploring various frameworks of comparison in history, religion and anthropology.

Art in Progress-Maarten Doorman 2003 A philosophical essay in support of the argument that progress in art is both possible and necessary.

European Clocks in the J. Paul Getty Museum-Gillian Wilson 2013-08-15 Among the finest examples of European craftsmanship are the clocks produced for the luxury trade in the eighteenth century. The J. Paul Getty Museum is fortunate to have in its decorative arts collection twenty clocks dating from around 1680 to 1798: eighteen produced in France and two in Germany. They demonstrate the extraordinary workmanship that went into both the design and execution of the cases and the intricate movements by which the clocks operated. In this handsome volume, each clock is pictured and discussed in detail, and each movement diagrammed and described. In addition, biographies of the clockmakers and enamelers are included, as are indexes of the names of the makers, previous owners, and locations.

Exile and Return-Jonathan Stökl 2015-08-31 Many books of the Hebrew Bible were either composed in some form or edited during the Exilic and post-Exilic periods among a community that was to identify itself as returning from Babylonian captivity. At the same time, a dearth of contemporary written evidence from Judah/Yehud and its environs renders any particular understanding of the process within its social, cultural and political context virtually impossible. This has led some to label the period a dark age or black box – as obscure as it is essential for understanding the history of Judaism. In recent years, however, archaeologists and historians have stepped up their effort to look for and study material remains from the period and integrate the local history of Yehud, the return from Exile, and the restoration of Jerusalem’s temple more firmly within the regional, and indeed global, developments of the time. At the same time, Assyriologists have also been introducing a wide range of cuneiform material that illuminates the economy, literary traditions, practices of literacy and the ideologies of the Babylonian host society – factors that affected those taken into Exile in variable, changing and multiple ways. This volume of essays seeks to exploit these various advances.

Margins of Writing, Origins of Cultures-Seth L. Sanders 2006 Who invented national literature? What is the relationship between script, identity, and history? This volume contains papers from a symposium, which brought leading philologists together with anthropologists and historians to connect theories of writing, language, and identity with the results of ancient Near Eastern scholarship.

The Medallic History of the United States of America, 1776-1876-Joseph Florimond Loubat 1880

Unspeakable Things Unspoken-Isabelle M. Hamley 2019-01-30 The story of the raped and murdered woman of Judges 19 and the civil war and mass marriage that ensue in chapters 20–21 are hardly favorite tales of the Hebrew Bible. The chapters have often been dismissed as little more than an anachronistic epilogue, an awkward amalgamation of earlier stories or a “text of terror,” proof of patriarchal oppression. This book argues that, far from being a clumsy collage, Judges 19–21 is a carefully narrated tale that chronicles the descent of a nation into extreme individualism and fragmentation. In dialogue with continental philosopher Luce Irigaray, it will uncover the dynamics of identity formation and how differential constructions of identity of the One and the Other yield patterns of victimization and justification of violence. This literary-philosophical reading will bring out silences and missed possibilities for the subjectivity of women, whilst also shedding light on the victimization of men within the logic of totalitarian identity constructions. The end of Judges therefore offers a theological conclusion to the book as a whole and opens up avenues for thought on theological anthropology, understandings of identity and gender, and a theological commentary on violence.

Days Near Rome-Augustus John Cuthbert Hare 1875

The Handbook of Humanitarian Law in Armed Conflicts-Dieter Fleck 1999 This book offers the most authoritative commentary and analysis of international humanitarian law applicable in armed conflict available. It is based upon the Joint Service Regulation for the German Ministry of Defence, augmented with extensive international references, and accompanied by commentary by a team of distinguished and internationally renowned experts. Whilst the past decades have seen consistent development of international law applicable in armed conflict, culminating in a series of International Covenants and Protocols, world events in recent years have made reassessment of the law both a timely and topical concern. This Handbook available for the first time in paperback will serve as an indispensable reference source for practising lawyers and academics working in the field of international humanitarian law and for military personnel worldwide.

The Aesthetics of Movement-Camilla Damkjær 2005

The Life and Letters of Charles Darwin-Charles Darwin 1897

From Riemann to Differential Geometry and Relativity-Lizhen Ji 2017-10-03 This book explores the work of Bernhard Riemann and its impact on mathematics, philosophy and physics. It features contributions from a range of fields, historical expositions, and selected research articles that were motivated by Riemann's ideas and demonstrate their timelessness. The editors are convinced of the tremendous value of going into Riemann's work in depth, investigating his original ideas, integrating them into a broader perspective, and establishing ties with modern science and philosophy. Accordingly, the contributors to this volume are mathematicians, physicists, philosophers and historians of science. The book offers a unique resource for students and researchers in the fields of mathematics, physics and philosophy, historians of science, and more generally to a wide range of readers interested in the history of ideas.

Customary International Humanitarian Law-Jean-Marie Henckaerts 2005 In 1995, the International Committee of the Red Cross, along with a range of renowned experts, embarked upon a major international study into current state practice in humanitarian law in order to identify customary law in this area. This book (and its companion, Volume 1: Rules) is the result of that study. Volume 2 contains a summary of the relevant treaty law, international case-law and relevant state practice including legislation, military manuals, case-law, official statements, and official military practice for each aspect of humanitarian law. Also available: Volume 1: Rules 0-521-80899-5 Hardback \$100.00 C 0-521-00528-0 Paperback \$38.00 D Boxed Set of 3 Volumes: Vol.I: Rules; Vol. 2: Practice: Parts 1 and 2 0-521-53925-0 Hardback \$450.00 C

Science, Voyages, and Encounters in Oceania, 1511-1850-Bronwen Douglas 2014-03-26 Blending global scope with local depth, this book throws new light on important themes. Spanning four centuries and vast space, it combines the history of ideas with particular histories of encounters between European voyagers and Indigenous people in Oceania (Island Southeast Asia, New Guinea, Australia, New Zealand, and the Pacific Islands).

The Androgyne in Early Modern France-Marian Rothstein 2015-09-16 Based on sources in Genesis and Plato's Symposium , the androgyne during Early Modern France was a means of expressing the full potential of humans made in the image of God. This book documents and comments on the range of references to the androgyne in the writings of poets, philosophers, courtiers, and women in positions of political power.

Political Writings-Richard Cobden 1868

L’Hymnaire manichéen chinois Xiabuzan 西巴祖讚 à l’usage des Auditeurs-Lucie Rault 2018-10-25 Par la traduction de cet Hymnaire manichéen chinois, Lucie Rault offre une vision nouvelle de la Religion de Lumière, porteuse du message du prophète iranien Mani (3ème s.), telle qu’elle était pratiquée au quotidien par les Auditeurs chinois. Through the translation of this Hymnaire manichéen chinois Lucie Rault offers a new view on the Religion of Light, which bore the message of the Iranian prophet Mani (3rd c), as it was practiced daily by the Chinese Auditors.

Essays on Pierre Bayle and Religious Controversy-Walter Rex 2012-12-06 The solitary and erudite figure of Pierre Bayle occupies a position of particular interest in French letters; we are pleased to recognize in his thought the germ of the ideas which reached their fulfillment in the eighteenth century. His own age does not seem to have been quite ready to receive him. Forced into exile by the Catholics, he was censured and harassed by the Protestants in Holland. It is to be expected that his outspoken enemies would have declared him a danger to religion and morality; yet to his more moderate contemporaries, too, he was sometimes a "problem," and one senses an occasional reserve toward him even in his remaining friends. As for the general public, the *Nouvelles de la République des lettres* may indeed have received the "universal applause" Des Maizeaux said it had, yet there was voluminous criticism also. His marvelous Dictionary, which probably achieved the widest circulation of any of his works during his lifetime, also elicited the most attack, censure and discontent. Moreover, though Bayle had earned fame, he did not have in the eyes of his contemporaries particularly of those in France - the importance which he has for us today. Other figures seemed still grander than he in the closing decades of the seventeenth century: in philosophy and metaphysics, the enormous system of Malebranche, the last significant attempt in France to establish a synthesis of Christianity and reason, attracted far more admiration, or criticism, than Bayle.

The Order of Minims in Seventeenth-Century France-P.J.S. Whitmore 2012-12-06 Thinking of the text from the *Dies frae* (S. Matthew, XXV, 40). It is also probable that this other Saint Francis, partly out of admiration for his illustrious compatriot of Assisi and partly from a compelling urge to be superlative in all things, chose the title in opposition to the Franciscans, the *Fratres Minori*, l who had previously adopted this style taken from Saint Matthew, XXIII, 8. The title "Minim" was confirmed in these words" ... eosque Eremitos Ordinis Minimorum Fratrum Eremitarum F. Francesci de Paula in posterum nuncupari," taken from the Papal Bull, *Meritis religiosae vitae*, of 26 February, 1493. The earliest reference to the Order in France is in a fragment preserved in the *Bibliothèque de l' Arsenal* called, *La règle et vie de Frere Franfois, pauvre et humble hermite de Paule*, laquelle donne a tous ses 2 freres voulant entrer et vivre en son ordre. The dating of this manuscript should be accepted with considerable reserve; it bears a clearly legible "1474," although it seems most unlikely that any reference to an Order occurred before the Bull of 1493 or that any Rule appeared in French before the Founder's visit to Louis XI in 1483. 3 The fame of Francis and his reputation as a "guerisseur" had reached the French court where Louis XI was sick and dying; the King summoned him to the chateau of Le Plessis-Ies-Tours, but it required the intervention of the Pope to make the hermit undertake the journey.

Inscriptions antiques de Lyon-Alphonse de Boissieu 1854

Albert Camus- 1989-05-15

Courbet's Realism-Michael Fried 1992-11-15 "'This book,' Michael Fried's work opens, 'was written not so much chapter by chapter as painting by painting over a span of roughly ten years.' Courbet's Realism is a magnificent work and its very first sentence brings us up against the qualities of mind of its author, qualities that make it as impressive as it is. It allows us to reconstruct the keen eye, the commitment to perception, the gift of rapt concentration, the conviction that great paintings are not necessarily understood easily, and the further conviction that a great painter deserves to get from us as good as he gives. By drawing on these qualities, Fried achieves something out of reach for all but a handful of his colleagues. In his writing, art history takes on some of the character of art itself. It is driven by the same stubborn resolve to open our eyes."—Richard Wollheim, *San Francisco Review of Books* Courbet's Realism is clearly a major contribution to the highly active field of Courbet studies. . . . But to contribute here and now is necessarily also to contribute to central debates about art history itself, and so the book is also—I hesitate to say 'more importantly,' because of the way object and method are woven together in it—a major contribution to current attempts to rethink the foundations and objects of art history. . . . It will not be an easy book to come to terms with; for all its engagement with contemporary literary theory and related developments, it is not an application of anything, and its deeply thought-through arguments will not fall easily in line with the emerging shapes of the various 'new art histories' that tap many of the same theoretical resources. At this moment, there may be nothing more valuable than such a work."—Stephen Melville, *Art History*

Surrealism and Architecture-Thomas Mical 2005 This is a historically informed examination of architecture's perceived absence in surrealist thought, surrealist tendencies in the theories and projects of modern architecture, and the place of surrealist thought in contemporary design. This book represents current insights into surrealism in the thought and practice of modern architecture. In these essays, the role of the subconscious, the techniques of defamiliarization, aesthetic and social forces affecting the objects, interiors, cities and landscapes of the twentieth century are revealed. The book contains a diversity of voices from across modern art and architecture to bring into focus what is often overlooked in the histories of the modernist avant-garde. This collection examines the practices of writers, artists, architects, and urbanists with emphasis on a critique of the everyday world-view, offering alternative models of subjectivity, artistic effect, and the production of meanings in the built world.

Photo-Revue- 1905

Jews in Early Christian Law-John Victor Tolan 2014 What is the place of Jews in medieval Christian societies? in the nineteenth and early twentieth centuries, this question was largely confined to Jewish scholars, and the academic debates where inseparable from the upheavels of the lives of contemporary European Jews.

The Egyptian Revival-James Stevens Curl 2013-04-03 In this beautifully illustrated and closely argued book, a completely updated and much expanded third edition of his magisterial survey, Curl describes in lively and stimulating prose the numerous revivals of the Egyptian style from Antiquity to the present day. Drawing on a wealth of sources, his pioneering and definitive work analyzes the remarkable and persistent influence of Ancient Egyptian culture on the West. The author deftly develops his argument that the civilization of Ancient Egypt is central, rather than peripheral, to the development of much of Western architecture, art, design, and religion. Curl examines: the persistence of Egyptian motifs in design from Graeco-Roman Antiquity, through the Medieval, Baroque, and Neo-Classical periods rise of Egyptology in the nineteenth and twentieth-century manifestations of Egyptianisms prompted by the discovery of Tutankhamun's tomb various aspects of Egyptianizing tendencies in the Art Deco style and afterwards. For students of art, architectural and ancient history, and those interested in western European culture generally, this book will be an inspiring and invaluable addition to the available literature.

Bona Dea-H.H.J. Brouwer 1989-06-01

Cinema, Trance and Cybernetics-Ute Holl 2017-03-15 We ve all had the experience of watching a film and feeling like we ve been in a trance. This book takes that experience seriously, explaining cinema as a cultural technique of trance, one that unconsciously transforms our perceptions. Ute Holl moves from anthropological and experimental cinema through nineteenth-century psychological laboratories, which she shows developed technique of testing, measuring, and classifying the mind that can be seen as a prehistory of cinema, one that allows us to see the links among cinema, anthropology, psychology, and cybernetics."

Additional Letters of John Stuart Mill-John Stuart Mill 1991 This volume contains 300 letters presented in full scholarly form, with notes giving information about the texts and their provenance, and also historical and bibliographic information.

Darius Milhaud-Paul Collaer 1988-10-10

The Correspondence of Jeremy Bentham: 1777-80-Jeremy Bentham 1968 Jeremy Bentham was a British philosopher, jurist, and social reformer. He is regarded as the founder of modern utilitarianism. Bentham became a leading theorist in Anglo-American philosophy of law, and a political radical whose ideas influenced the development of welfarism. He advocated individual and economic freedom, the separation of church and state, freedom of expression, equal rights for women, the right to divorce, and the decriminalising of homosexual acts. He called for the abolition of slavery, the abolition of the death penalty, and the abolition of physical punishment, including that of children. He has also become known in recent years as an early advocate of animal rights. Though strongly in favour of the extension of individual legal rights, he opposed the idea of natural law and natural rights, calling them "nonsense upon stilts."

The First Garden-Anne Hebert 1990-01-01 "When her long-estranged daughter disappears in Quebec, famous actress Flora Fontanges returns home from Paris and experiences a devastating confrontation with the past."

The Papers of Thomas Jefferson, Volume 37-Thomas Jefferson 2018-06-05 This volume opens on 4 March 1802, the first anniversary of Thomas Jefferson's inauguration as the nation's third president, and closes on 30 June. In March, a delegation of Seneca Indians comes to Washington to discuss their tribe's concerns, and Jefferson names a commissioner to handle a land sale by Oneida Indians to the state of New York. In April, the Senate ratifies a treaty with the Choctaw nation for a wagon road across their lands. Jefferson worries about an increasingly dictatorial France taking back control of New Orleans, prompting him to the intemperate remark that he would "marry" America's fortunes to the British fleet. Charles Willson Peale sends him sketches of the skull of a prehistoric bison found in Kentucky. During the closing, and very frustrating, weeks of Congress, he distracts himself with a cipher devised by Robert Patterson. He prepares lists of books to be purchased for the recently established Library of Congress and also obtains many titles for his own collection. Even while he is in Washington occupied with matters of state, Jefferson has been keeping close watch on the renovations at Monticello. In May, he has Antonio Giannini plant several varieties of grapes in the southwest vineyard, and he orders groceries, molasses, dry Lisbon wine, and cider to be shipped to Monticello in time for his arrival. He looks forward "with impatience" to the moment he can embrace his family once more.

Hermaphrodites in Renaissance Europe-Kathleen P. Long 2016-12-05 Kathleen Long explores the use of the hermaphrodite in early modern culture wars, both to question traditional theorizations of gender roles and to reaffirm those views. These cultural conflicts were fueled by the discovery of a new world, by the Reformation and the backlash against it, by nascent republicanism directed against dissolute kings, and by the rise of empirical science and its subsequent confrontation with the traditional university system. For the Renaissance imagination, the hermaphrodite came to symbolize these profound and intense changes that swept across Europe, literally embodying these conflicts. Focusing on early modern France, with references to Switzerland and Germany, this work traces the symbolic use of the hermaphrodite across a range of disciplines and domains - medical, alchemical, philosophical, poetic, fictional, and political - and demonstrates how these seemingly disparate realms interacted extensively with each other in this period, also across national boundaries. This widespread use and representation of the hermaphrodite established a ground on which new ideas concerning sex and gender could be elaborated by subsequent generations, and on which a wide range of thought concerning identity, racial, religious, and national as well as gender, could be deployed.

The Practical Guide to Humanitarian Law-Françoise Bouchet-Saulnier 2013-12-12 Now in a comprehensively updated edition, this indispensable handbook analyzes how international humanitarian law has evolved in the face of these many new challenges. Central concerns include the war on terror, new forms of armed conflict and humanitarian action, the emergence of international criminal justice, and the reshaping of fundamental rules and consensus in a multipolar world. The Practical Guide to Humanitarian Law provides the precise meaning and content for over 200 terms such as terrorism, refugee, genocide, armed conflict, protection, peacekeeping, torture, and private military companies—words that the media has introduced into everyday conversation, yet whose legal and political meanings are often obscure. The Guide definitively explains the terms, concepts, and rules of humanitarian law in accessible and reader-friendly alphabetical entries. Written from the perspective of victims and those who provide assistance to them, the Guide outlines the dangers, spells out the law, and points the way toward dealing with violations of the law. Entries are complemented by analysis of the decisions of relevant courts; detailed bibliographic references; addresses, phone numbers, and Internet links to the organizations presented; a thematic index; and an up-to-date list of the status of ratification of more than thirty international conventions and treaties concerning humanitarian law, human rights, refugee law, and international criminal law. This unprecedented work is an invaluable reference for policy makers and opinion leaders, students, relief workers, and members of humanitarian organizations. Published in cooperation with Doctors Without Borders/Médecins Sans Frontières.
