Higher Education Tax Credits-Linda W. Cooke 2006 Education tax credits were introduced as a new subsidy for higher education in 1997 and have cost, on average, \$4.6 billion a year in lost tax revenue since their enactment. The introduction of the Hope Credit and the Lifetime Learning Credit marked a dramatic increase in education spending through tax expenditures. Prior to 1997, tax incentives for higher education expenses totalled less than \$2 billion in estimated lost revenue. The education tax credit program expanded the number of federal agencies involved in education policy making and increased the complexity and cost of administering the income tax system. This book provides analysis of the education tax credit program in the context of issues facing Congress in regard to higher education. This report begins with a review of the economic rationale for subsidising education, then describes federal subsidies for education in general and the education tax credits in particular. An analysis of the education credits follows and the report concludes with a discussion of education tax credit policy options. The Taxpayer Relief Act of 1997 established two permanent federal income tax credits, effective since tax year 1998, for qualified post secondary education expenses -- the Hope Scholarship credit and the Lifetime Learning credit. The Economic Growth and Tax Relief Reconciliation Act of 2001 created a temporary higher education tax deduction beginning in 2002. The Hope credit was introduced to help ensure that students have access to the first two years of undergraduate education. The Lifetime Learning credit and tuition and fees deduction provide support for students in any year of undergraduate and graduate study; they are unique in that they are available to individuals taking occasional courses. Only one of the three tax benefits may be taken in the same tax year for the same eligible student's qualified expenses. Key features of the credits and deduction dictate who the provisions benefit and the value of assistance they confer. Among these are the non-refundable nature of the credits (i.e., persons must have income tax liabilities and the liabilities must exceed the maximum amount of the credits in order to claim their full value), the deduction's availability whether or not taxpayers take itemised deductions, and the statutory limits on benefit amounts and on taxpayers' income. Accordingly, middle-and upper middle-income individuals are the targeted beneficiaries of these tax incentives. All three benefits apply to the tuition and fees required for enrolment that are not offset by grant aid (e.g. qualified scholarships) and other tax benefits (e.g. Coverdell Education Savings Accounts and Section 529 Plans). The Hope credit has had a maximum value of \$1,500 per student since its inception; the Lifetime Learning credit, \$2,000 per return since 2003.

Public Budgeting-Irene S. Rubin 2015-01-28 Some of the best writings on public budgeting and finance can be found in the journals that ASPA publishes or sponsors. For this volume editor Irene Rubin has brought together the best of these articles - emerging classics that address the most important theoretical and practical problems underlying public budgeting. The anthology is organized topically rather than historically, with an effort to delineate the issues needed to understand some of the more recent controversies in the field. Rubin's introductory essay and section openers frame the key issues and provide historical context for each article. The collection begins with descriptions of what public budgeting is, where it comes from, and what it is for. It moves on to the relationship between budget processes and outcomes, constraints on budgeting, the legal context in which it operates, and adaptations to those constraints such as contracting out. The book concludes with a discussion of the ethics and norms that underlie budgeting in a democracy. Throughout the anthology, the emphasis is on areas of disagreement and debate, so students can get involved and explore different viewpoints.

The Rideshare Guide-Harry Campbell 2018-04-03 An industry leader's guide to making Lyft and Uber work for you. In less than five years, ridesharing has grown from nonexistence into a billion dollar industry. Uber now has two million drivers in the United States, Lyft has seven hundred thousand, and both show no signs of slowing down. Despite the large number of drivers, Uber and Lyft provide little in the way of help for new drivers, who complain that there is a lack of guidance when starting out. Harry Campbell, founder and director of The Rideshare Guy blog and podcast and a driver himself, can help. The Rideshare Guide offers a comprehensive and engaging handbook for current and prospective rideshare drivers. Learn how to: Decide between Uber and Lyft Maximize passengers and profits Maintain a five-star rating Keep safe and interact appropriately with passengers Navigate legal matters and tax codes Campbell explains these and much more, also including funny, shocking, and bizarre tales from the road. Whether you are thinking about becoming a driver or a veteran wondering about UberPool and tax help, The Rideshare Guide by the Rideshare Guy has the answers.

Employer's Tax Guide, Circular E-Internal Revenue Service 2018-01-30 Pub. 15 / Circular E explains your tax responsibilities as an employer. It explains the requirements for withholding, depositing, reporting, paying, and correcting employment taxes. It explains the forms you must give to your employees, those your employees must give to you, and those you must send to the IRS and the SSA. This guide also has tax tables you need to figure the taxes to withhold from each employee for 2017. References to "income tax" in this guide apply only to "federal" income tax. Contact your state or local tax department to determine if their rules are different. When you pay your employees, you don't pay them all the money they earned. As their employer, you have the added responsibility of withholding taxes from their paychecks. The federal income tax and employees' share of social security and Medicare taxes that you withhold from your employees' paychecks are part of their wages that you pay to the United States Treasury instead of to your employees. Your employees trust that you pay the with-held taxes to the United States Treasury by making federal tax deposits. This is the reason that these withheld taxes are called trust fund taxes. If federal income, social security, or Medicare taxes that must be withheld aren't withheld or aren't deposited or paid to the United States Treasury, the trust fund recovery penalty may apply. See section 11 for more information. Pub. 15-A includes specialized information supplementing the basic employment tax information provided in this publication. Pub. 15-B, Employer's Tax Guide to Fringe Benefits, contains information about the employment tax treatment and valuation of various types of non-cash compensation. Pub. 535 discusses common business expenses and explains what is and is not deductible. The general rules for deducting business expenses are discussed in the opening chapter. The chapters that follow cover specific expenses and list other publications and forms you may need.

First Admiral-William J. Benning 2013-05-31 It's not easy being an ordinary teenager leading a hazardous and exciting double life. The Garmaurians, the most advanced species in the universe, wiped themselves out with a bio-weapon in a senseless civil war. And, in a desperate attempt to protect the secret of the potentially dangerous Trion technology - the ability to manipulate the fundamental particle of the universe - their leader sends one last covert mission to Earth. The mission goes horribly wrong, leaving Billy Caudwell; an overweight, acne-scarred 14 year old, with the Mind Profile of a military genius, a huge battle fleet and a mission to unite the intelligent species of the universe in a Universal Alliance. With people to rescue, space fleets to battle and villains to defeat, Billy has to overcome his own inhibitions, insecurities and a vicious bully before he can start saving the universe. Welcome, dear readers, to the exciting universe of First Admiral.

Concealed-Esther Amini 2020-04-21 Esther Amini grew up in Queens, New York, during the free-wheeling 1960s. She also grew up in a Persian-Jewish household, the American-born daughter of parents who had fled Mashhad, Iran. In CONCEALED she tells the story of being caught between these two worlds: the dutiful daughter of tradition-bound parents who hungers for more self-determination than tradition allows. Exploring the roots of her father's deep silences and explosive temper, her mother's flamboyance and flights from home, and her own sense of indebtedness to her two Iranian-born brothers, Amini uncovers the story of her parents' early years in Mashhad, Iran's holiest Muslim city; the little known history and persecution of Mashhad's underground Jews; the incident that steeled her mother's resolve to leave; and her parents' arduous journey to the United States, where they found themselves facing a new threat to their traditions: the threat of freedom. Determined to protect his only daughter from corruption, Amini's father prohibits talk, books, higher education, and tries to push her into an early Persian marriage. Can she resist? Should she? Focused intently on what she stands to gain, Amini eventually comes to see what she also stands to lose: a family and community bound together by food, celebrations, sibling escapades, and unexpected acts of devotion by parents to whom she feels invisible. In this poignant, funny, entertaining and uplifting memoir, Amini documents with keen eye, quick wit, and warm heart, how family members build, buoy, wound, and save one another across generations; how lives are shaped by the demands and burdens of loyalty and legacy; and how she rose to the challenge of deciding what to keep and what to discard.

Hare & Hare, Landscape Architects and City Planners-Carol Grove 2019-04-01 When Sidney J. Hare (1860-1938) and S. Herbert Hare (1888-1960) launched their Kansas City firm in 1910, they founded what would become the most influential landscape architecture and planning practice in the Midwest. Over time, their work became increasingly far-ranging, in both its geographical scope and its project types. Between 1924 and 1955, Hare & Hare commissions included fifty-four cemeteries in fifteen states; numerous city and state parks (seventeen in Missouri alone); more than fifteen subdivisions in Salt Lake City; the Denver neighborhood of Belcaro Park; the picturesque grounds of the Christian Science Sanatorium in Chestnut Hill, Massachusetts; and the University of Texas at Austin among fifty-one college and university campuses. In Hare & Hare: Landscape Architects and City Planners Carol Grove and Cydney Millstein document the extraordinary achievements of this

little-known firm and weave them into a narrative that spans from the birth of the late nineteenth-century "modern cemetery movement" to midcentury modernism. Through the figures of Sidney, a "homespun" amateur geologist who built a rustic family retreat called Harecliff, and his son Herbert, an urbane Harvard-trained landscape architect who traveled Europe and lived in a modern apartment building, Grove and Millstein chronicle the growth of the field from its amorphous Victorian beginnings to its coalescence as a profession during the first half of the twentieth century. Hare & Hare provides a unique and valuable parallel to studies of prominent East and West Coast landscape architecture firms--one that expands the reader's understanding of the history of American landscape architecture practice.

Firearms: An Illustrated History-DK 2014-03-17 This fascinating visual account of firearms shows everything from the earliest cannons to modern weapons of war. It also highlights how gun technology and military tactics developed in tandem over time. Centuries ago, the Chinese discovered that if they put gunpowder and a projectile into a metal tube and ignited it, they could fire the projectile with enormous force. The first guns were born. *Firearms: An Illustrated History* showcases over 300 firearms including pistols, revolvers, rifles, shotguns, machine-guns, and artillery, each with annotated close-up photographs and details of their origins, barrel, and caliber. It details the use of the firearms, not just in the military but for sport, hunting, and law enforcement. This comprehensive volume traces the history of firearms, highlighting "turning points" such as the rifle with its parallel spiraled grooves that could impart a spin to bullets making them fly straighter. It also showcases iconic firearms such as the Walther PPK self-loading pistol popularised in James Bond films. With information on the great gunsmiths including Beretta and Kalashnikov and a detailed guide to how guns work, *Firearms: An Illustrated History* is an essential purchase for everyone interested in guns and military history.

Waste Management and Sustainable Consumption-Karin M. Ekström 2014-12-17 The accelerated pace of global consumption over the past decades has meant that governments across the world are now faced with significant challenges in dealing with the dramatically increased volume of waste. While research on waste management has previously focused on finding technological solutions to the problem, this book uniquely examines the social and cultural views of waste, shedding new light on the topic by emphasising the consumer perspective throughout. Drawing on a wide variety of disciplines including environmental, economic, social and cultural theories, the book presents philosophical reflections, practical examples and potential solutions to the problem of increasing waste. It analyses and compares case studies from countries such as Sweden, Japan, the USA, India, Nigeria and Qatar, bringing out valuable insights for the international community and generating a critical discussion on how we can move towards a more sustainable society. This book will be of great interest to post-graduate students and researchers in environmental policy, waste management, social marketing and consumer behaviour, as well as policymakers and practitioners in consumer issues and business.

Long Summer Day-R. F. Delderfield 2014-07-22 A great read for fans of PBS's Poldark and Downton Abbey—first in the saga of a man returning from battle to an estate in the pre-WWI English countryside. After serving his country in the Boer War, injured Lieutenant Paul Craddock returns to England to resume civilian life. But things have changed since he joined the Imperial Yeomanry three years ago. His father has died, leaving Paul as heir to a scrap metal business he has no intention of continuing. Instead, he purchases an auctioned-off thirteen-hundred-acre estate in a secluded corner of Devon. Neglected and overgrown, Shallowford becomes the symbol of all that Paul has lost—and a reminder of the gentle place his homeland once was. And here, on this sprawling stretch of land, he will be changed by his love for two women: fiercely independent Grace Lovell, and lovely, demure Claire Derwent. Set in the English countryside in the first part of the previous century—from the long “Edwardian afternoon” following the death of Queen Victoria, to the gathering storm of World War I—Long Summer Day is the story of a man, his family, and a people struggling to adapt to life in a new world. Long Summer Day is the first novel in R. F. Delderfield's saga A Horseman Riding By, which continues with Post of Honour and The Green Gauntlet.

Towards Sustainable Consumption-Jennifer Kent 2000 An understanding of the patterns and driving forces of consumption will lead to strategies to improve resource efficiency. This work looks at how Europe is moving to sustainable consumption. The contributions come from the InterAcademy Panel conference on science's role in formulating policy.

Regulating Lifestyle Risks-Alberto Alemanno 2015-01-01 This collection of essays looks at the role the European Union could and should play in promoting healthier lifestyle, in light of the moral, philosophical, legal and political challenges associated with the regulation of individual choices. By tackling the main non-communicable diseases (NCD) risk factors (tobacco consumption, harmful use of alcohol, unhealthy diets and lack of physical activity), the contributors endeavour to identify common themes and determine whether and, if so, to what extent the lessons learned in relation to each area of EU intervention could be transposed to the others. By focusing on the European Union legal order, the book highlights both the opportunities that legal instruments offer for NCD prevention and control agenda in Europe, as well as the constraints that the law imposes on policy-makers.

Minnesota Legal Ethics-William J. Wernz 2019-07-15 William J. Wernz is one of the nation's foremost authorities on legal ethics. Formerly ethics counsel for Dorsey & Whitney LLP in Minneapolis, he served first as a staff attorney and later as director of the Office of Lawyers Professional Responsibility, where he prosecuted attorney discipline cases. From the author: Minnesota Legal Ethics is the culmination of my life's work. My practice of law has centered on legal ethics since 1981. Before becoming a lawyer in 1977, I was a professor and student of religious studies and philosophy, including ethics. I have approached legal ethics, especially the Rules of Professional Conduct, from every angle: investigation, prosecution, defense, advice, administration, drafting, writing, and teaching. Writing this treatise is an opportunity to bring together the thoughts and work of a professional lifetime. In May 2014 this treatise reached its first complete form. A new edition of the treatise appears annually, with updates from the preceding year and the first few months of the current year. For example, the eighth edition appears in the summer of 2018, with updates of cases and other sources from approximately March 2017 through approximately March 2018. I have worked steadily on the treatise since 2009. The core of this treatise is a commentary on applications of the Rules of Professional Conduct in Minnesota. The applications are manifold, including lawyer discipline, disqualification, law firm administration, policies, and advisory opinions. In addition to case law and personal experience, articles published by Office of Lawyers Professional Responsibility (OLPR) lawyers are an important source. The treatise also regularly refers to two national authorities: The Restatement (Third) of the Law Governing Lawyers (2000) and Formal Opinions of the ABA Standing Committee on Ethics and Professional Responsibility. OLPR and the Lawyers Board frequently cite these authorities.

Lover of Light-Mel Bossa 2016-01-26 It only takes a touch to shatter the line between hate and love. Andy genuinely tried to be happy when his best friend, Dimitry, decided to marry his on-again-off-again Bulgarian boyfriend, Alexei-a beautiful problem case who's obviously using Dimitry to get a green card. When Dimitry admits only days later that it's over between him and the little gypsy jerk, Andy can barely contain his pleasure. Then Andy's boss announces he's hired a new waiter. A real firecracker. When Alexei walks through the club's door, Andy is completely unprepared to work with the man he blames for Dimitry's broken heart. In spite of himself, Andy becomes captivated by Alexei the musician, the singer-the man who still carries a light inside him despite his dark past. But Alexei's time is quickly running out, and his health is fading fast. Though the love growing between them gets brighter every day, Alexei will soon have no choice but to return home to Bulgaria. Unless Andy can convince him that home is waiting for him-right here in his arms. Warning: Contains a bartender who thinks he's got his enemy categorized as neatly as a row of shot glasses...until his heart is straight-up shaken and stirred by love.
