Democracy and Education-John Dewey 1916 . Renewal of Life by Transmission. The most notable distinction between living and inanimate things is that the former maintain themselves by renewal. A stone when struck resists. If its resistance is greater than the force of the blow struck, it remains outwardly unchanged. Otherwise, it is shattered into smaller bits. Never does the stone attempt to react in such a way that it may maintain itself against the blow, much less so as to render the blow a contributing factor to its own continued action. While the living thing may easily be crushed by superior force, it none the less tries to turn the energies which act upon it into means of its own further existence. If it cannot do so, it does not just split into smaller pieces (at least in the higher forms of life), but loses its identity as a living thing. As long as it endures, it struggles to use surrounding energies in its own behalf. It uses light, air, moisture, and the material of soil. To say that it uses them is to say that it turns them into means of its own conservation. As long as it is growing, the energy it expends in thus turning the environment to account is more than compensated for by the return it gets: it grows. Understanding the word "control" in this sense, it may be said that a living being is one that subjugates and controls for its own continued activity the energies that would otherwise use it up. Life is a self-renewing process through action upon the environment.

Actual Air-David Berman 2003 Released in paperback in 1999 by the now-defunct Open City and praised everywhere in the then-ascendant print press industry (including names that still make waves today like The New Yorker and GQ), David Berman's first (and only) book of poetry was and is a journey through shared and unreliable memory. Uncannily inspired, Berman's poems walk through doors into rooms where where one might hear "I can't remember being born / and no one else can either / even the doctor who I met years later / at a cocktail party" (from "Self-Portrait at 28"), or praise "the interval called hangover / a sadness not co-terminous with hopelessness" (from "Cassette Country") and "that moment when you take off your sunglasses / after a long drive and realize it's earlier / and lighter out than you had accounted for" ("The Charm of 5:30"). At that time, Berman was called a modern-day Wallace Stevens and a next-wave John Ashberry, with his own logic, awareness of pop culture and sensitivity to the details of the post-postmodern world in his poems. Alongside his lyrics to a half-dozen infamous Silver Jews records, Actual Air endeared Berman to lovers of poetry, prose, and music alike. Poet James Tate said it best: "It is a book for everyone." And poet laureate Billy Collins could only add, "This is the voice I've waited so long to hear." The second edition of the hardcover version of Actual Air is limited to 1000 copies. Features of the second edition are: new larger dimensions and enlarged typeface, new dustjacket artwork variant, deluxe cloth boards, updated full-color endpapers, dust-jacket featuring a photo of the artist around the time of publication, and of course the poems that inspired all this fuss in the first place.
