Join the free-for-all fun at the public library with these book-loving bats! Shape shadows on walls, frolic in the water fountain, and roam the book-filled halls until it's time for everyone, young and old, to settle down into the enchantment of story time. "As with its predecessor, this book's richly detailed chiaroscuro paintings find considerable humor at the intersection where bat and human behavior meet. But the author/artist outdoes himself: the library-after-dark setting works a magic all its own, taking Lies and his audience to a an intensely personal place."—Publishers Weekly (starred review) "The rhymed narrative serves primarily as the vehicle for the appealing acrylic illustrations that teem with bats so charming they will even win over chiroptophobes."—Booklist "There is enough merriness here to keep the story bubbling . . . Pictures light-handedly capture the Cheshire Bat, Winnie the Bat and Little Red Riding Bat."—Kirkus Reviews

Scripture Study Journal-Shannon Foster 2011-12-02 It is so important to write down what you are learning so you will never forget! This is a study journal to help you study and record what you are learning in your scriptures as you study individual CHAPTERS. Chapter by chapter as you study, there is a basic outline on each page that allows you to write down things such as: words you looked up, significant doctrines and principles you found, people in the chapter, questions you asked, other scriptures you looked up, insights from study guides, and your own personal thoughts and insights. Start now and record all of the amazing things the scriptures are teaching you right now in your life! Plus... what amazing gift to leave your posterity! There is also a companion journal available that helps you focus on individual TOPICS. The two journals are complimentary in nature and organized in a way that you can reference your journals to each other. So if you study a few different chapters about "Faith" and write all about it in your CHAPTER journal (but they are scattered throughout your journal), you can reference them to each other as well as to your page in your TOPIC journal so everything is nicely organized and easy to find! Both types of journals come with a set of instructions and a "Table of Contents" in the front so you can title your pages and find things easily.

Funds of Knowledge-Norma Gonzalez 2006-04-21 The concept of "funds of knowledge" is based on a simple premise: people are competent and have knowledge, and their life experiences have given them that knowledge. The claim in this book is that first-hand research experiences with families allow one to document this competence and knowledge, and that such engagement provides many possibilities for positive pedagogical actions. Drawing from both Vygotskian and neo-sociocultural perspectives in designing a methodology that views the everyday practices of language and action as constructing knowledge, the funds of knowledge approach facilitates a systematic and powerful way to represent communities in terms of the resources they possess and how to harness them for classroom teaching. This book accomplishes three objectives: It gives readers the basic methodology and techniques followed in the contributors' funds of knowledge research; it extends the boundaries of what these researchers have done; and it explores the applications to classroom practice that can result from teachers knowing the communities in which they work. In a time when national educational discourses focus on system reform and wholesale replicability across school sites, this book offers a counter-perspective stating that instruction must be linked to students' lives, and that details of effective pedagogy should be linked to local histories and community contexts. This approach should not be confused with parent participation programs, although that is often a fortuitous consequence of the work described. It is also not an attempt to teach parents "how to do school" although that could certainly be an outcome if the parents so desired. Instead, the funds of knowledge approach attempts to accomplish something that may be even more challenging: to alter the perceptions of working-class or poor communities by viewing their households primarily in terms of their strengths and resources, their defining pedagogical characteristics. Funds of Knowledge: Theorizing Practices in Households, Communities, and Classrooms is a critically important volume for all teachers and teachers-to-be, and for researchers and graduate students of language, culture, and education.
