As a manufacture on-demand company, we produce units only as they're ordered, which reduces excess production. Our ink is chlorine-free, and our acid-free interior paper stock is supplied by a Forest Stewardship Council-certified provider. We currently offer a cream paper for black and white book interiors that is made from 30% post-consumer waste recycled material. We also maintain a commitment to recycling waste materials resulting from the printing process and from daily office operations, and we will continue to review our practices to ensure we are doing our part to protect the environment." All of our products are made in the country where the order is placed and delivered - including U.S.A., Japan, Britain, Germany, Spain, France, Italy and more! We do not use real leather but we do appreciate the aesthetics - you will find that the dark strip printed on the side of most notebooks mimics leather pattern so that you may enjoy the look without harming animals. Hard, plastic, leather and synthetic covers put unnecessary strain on the environment. We use sturdy paperbacks with a layer of protective surface that cause less pollution and are easily recycled. As a paper products company that prints books for children we cannot compromise on these distinctive features as we work to preserve the planet for future generations.

Get Graphic!-Mark Thurman 2010 "This lively new book introduces the power of the storyboard in the creative process -- from brainstorming ideas to developing, revising, and finalizing stories. It describes an eight-stage process that shows, step-by-step, how students can create unique, action-filled pages for their stories and books. Planning suggestions, glossaries of visual terms, and ready-to-copy storyboards are all a part of the active process described."--Publisher.

Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods.
