Dynamics of Globalization and Development-Satya Dev Gupta 2012-12-06 Dynamics of Globalization and Development debates the role of structural adjustment programs and policies, the implication of financial liberalization for growth and stability, the effects of foreign direct investment and the associated behavior of multinationals in terms of intellectual property rights, the diffusion of technology, growth and development. Many contributors offer innovative insights into the complexities of the process in terms of its micro foundations, and propose efficiency-based multinational policy frameworks. A general thrust of most of the studies in this volume is that the market-driven process of globalization alone will not lead to stable and equitable economic growth. Consequently, several contributors recommend a set of proactive policies to promote greater stability in the system and a more equitable distribution of the benefits of globalization. This anthology will provide valuable insights and important background analysis for scholars working in the field of globalization as well as senior undergraduate and graduate students in a variety of curricula, including economics, finance, development studies, and international studies.

Ingredient Branding-Philip Kotler 2010-05-17 An Ingredient Brand is exactly what the name implies: an ingredient or component of a product that has its own brand identity. This is the first comprehensive book that explains how Ingredient Branding works and how brand managers can successfully improve the performance of component marketing. The authors

have examined more than one hundred examples, analyzed four industries and developed nine detailed case studies to demonstrate the viability of this marketing innovation. The new concepts and principles can easily be applied by professionals. In the light of the success stories of Intel, GoreTex, Dolby, TetraPak, Shimano, and Teflon it can be expected that component suppliers will increasingly use Ingredient Branding strategies in the future.

Atomic Ranch-Jim Brown 2006-08-29 Atomic Ranch is an in-depth exploration of post-World War II residential architecture in America. Mid-century ranches (1946-1970) range from the decidedly modern gable-roofed Joseph Eichler tracts in the San Francisco Bay area and butterfly wing houses in Palm Springs, Florida, to the unassuming brick or stucco L-

shaped ranches and split-levels so common throughout the United States. Authors Michelle Gringeri-Brown and Jim Brown, founders and publishers of the popular quarterly Atomic Ranch magazine, extol the virtues of the tract, split-level, rambler home and its many unique qualities: private front facades, open floor plans, secluded bedroom wings, walls of glass, and an easy-living lifestyle. From updated homes with high-end Italian kitchens, terrazzo floors, and modern furniture to affordable homeowner renovations with eclectic thrift-store furnishings, Atomic Ranch presents twenty-five homes showcasing inspiring examples of stylish living through beautiful color photographs, including before and after shots, design-tip sidebars, and a thorough resource index. Atomic Ranch reveals: Hallmarks of the ranch style Inspiring original ranch homes Ranch house transformations and makeovers Preservation of mid-century neighborhoods Adding personality to a ranch home Yards and landscaping Plus, a helpful resource section and index!

Shatterday-Harlan Ellison 2014-04-01 "One of the great . . . American short-story writers" exposes the darkness of the human heart in these speculative tales of terror and tragedy (George R. R. Martin). A five-year-old boy never ages, living as an immortal in a past that no longer exists while the world encroaches upon his innocence, in the Hugo and Nebula Award-winning "Jeffy Is Five." An alien attack leaves Earth on the brink of Armageddon, as humans find themselves unable to resist the sexual allure of their invaders in "How's the Night Life on Cissalda?" In the Nebula Award-nominated "Shatterday" (subsequently adapted into the pilot episode of the second Twilight Zone series), a man fights for his life against a relentless enemy who knows his darkest secrets—his own doppelganger. In these and other thought-provoking stories, legendary author Harlan Ellison dissects the primal fears and inherent frailties common to all people and gives voice to the thoughts and feelings human beings bury deep within their souls. Unflinching and unapologetic, Ellison depicts men and women in all their ugliness and beauty, and humanity in all its fury and glory. Stories include "Introduction: Mortal Dreads," "Jeffy Is Five," "How's the Night Life

on Cissalda?," "Flop Sweat," "Would You Do it For a Penny?" (written in collaboration with Haskell Barkin), "The Man Who Was Heavily Into Revenge," "Shoppe Keeper," "All the Lies That Are My Life," "Django," "Count the Clock That Tells the Time," "In the Fourth Year of the War," "Alive and Well on a Friendless Voyage," "All the Birds Come Home to Roost," "Opium," "The Other Eye of Polyphemus," "The Executioner of the Malformed Children," and "Shatterday."
