Measuring & Monitoring Plant Populations-Caryl L. Elzinga 1998

Final environmental impact statement supplement for the Federal Coal Management Program- 1985

A Review of the Unsuitability Criteria in Federal Coal Leasing- 1985

Final Environmental Impact Statement Supplement for the Federal Coal Management Program: Appendixes, glossary, and references-United States. Bureau of Land Management. Division of EIS Services 1985

Federal Coal Management Program- 1979

Bairoil/Dakota Carbon Dioxide Projects (WY,MT,ND,SD)- 1986

Final Environmental Impact Statement on the Bairoil/Dakota Carbon Dioxide Projects-United States. Bureau of Land Management. Wyoming State Office 1986

Challis Resource Area, Upper Columbia - Salmon Clearwater Districts- 1998

Resource Management Plan, Billings Resource Area-United States. Bureau of Land Management. Billings Resource Area 1984

Billings Resource Area Rangeland Management Plan and Wilderness Designation- 1988

Draft Environmental Impact Statement on the Bairoil/Dakota Carbon Dioxide Projects- 1985

Rio Puerco Resource(s) Management Plan (RMP)- 1985

Alturas Field Office- 2007

Northern Spotted Owl Management Plan in the National Forests (CA,OR,WA)- 1992

Upper Deschutes Resource Management Plan- 2005

Proposed Resource Management Plan and Final Environmental Impact Statement for the Redding Resource Area-United States. Bureau of Land Management. Redding Area Office 1992

Draft environmental statement on grazing management in the mountain foothills of Montana-United States. Bureau of Land Management 1980

Redding Resource Area Resource(s) Management Plan (RMP)- 1992

Klamath Falls Resource Area Resource(s) Management Plan (RMP)-United States. Bureau of Land Management. Klamath Falls Resource Area Office 1994

Best Management Practices and Guidance Manual : Desert Renewable Energy Projects- 2009

Measuring and Monitoring Plant Populations-Caryl Elzinga 2015-01-02 This technical reference applies to monitoring situations involving a single plant species, such as an indicator species, key species, or weed. It was originally developed for monitoring special status plants, which have some recognized status at the Federal, State, or agency level because of their rarity or vulnerability. Most examples and discussions in this technical reference focus on these special status species, but the methods described are also applicable to any single-species monitoring and even some community monitoring situations.We thus hope wildlife biologists, range conservationists, botanists, and ecologists will all find this technical reference helpful.

Federal Register- 1977

Two Rivers Resource(s) Management Plan (RMP), Proposed- 1985

Handbook of Occupational Groups and Families- 1998

Lakeview Grazing Management Plan- 1981

Lakeview Grazing Management Program- 1981

Utah Combined Hydrocarbon Leasing Regional- 1984

Utah combined hydrocarbon leasing regional EIS- 1983

Jonah Field II Natural Gas Development Project, Sublette County,- 1998

Southwestern Wyoming Coal Resources Development- 1978

The TULEC Manual for Trade Union Organisers- 1998

Vegetation Monitoring-Caryl L. Elzinga 1998-05 This annotated bibliography documents literature addressing the design and implementation of vegetation monitoring. It provides resources managers, ecologists, and scientists access to the great volume of literature addressing many aspects of vegetation monitoring: planning and objective setting, choosing vegetation attributes to measure, sampling design, sampling methods, statistical and graphical analysis, and communication of results. Over half of the 1400 references have been annotated. Keywords pertaining to the type of monitoring or method are included with each bibliographic entry. Keyword index.

Public Land Statistics- 1974

The Bureau of Land Management-Marion Clawson 1971

Federal Wildland Fire Management-DIANE Publishing Company 1995-08-01 Managing wildland fire in the U.S. is a challenge increasing in complexity & magnitude. The goals & actions presented in this report encourage a proactive approach to wildland fire to reduce its threat. Five major topic areas on the subject are addressed: the role of wildland fire in resource management; the use of wildland fire; preparedness & suppression; wildland/urban interface protection; & coordinated program management. Also presented are the guiding principle that are fundamental to wildland fire management & recommendations for fire management policies. Photos, graphs, & references.

Resource Management Plan Amendment-United States. Bureau of Land Management. Caballo Resource Area 1990

Monthly Catalog of United States Government Publications- 1981

Access to Public Lands-United States. Congress. Senate. Committee on Interior and Insular Affairs 1960

The Governance of Rangelands-Pedro M. Herrera 2014-10-10 Rangelands are large natural landscapes that can include grasslands, shrublands, savannahs and woodlands. They are greatly influenced by, and often dependent on, the action of herbivores. In the majority of rangelands the dominant herbivores are found in domestic herds that are managed by mobile pastoralists. Most pastoralists manage their rangelands communally, benefitting from the greater flexibility and seasonal resource access that common property regimes can offer. As this book shows, this creates a major challenge for governance and institutions. This work improves our understanding of the importance of governance, how it can be strengthened and the principles that underpin good governance, in order to prevent degradation of rangelands and ensure their sustainability. It describes the nature of governance at different levels: community governance, state governance, international governance, and the unique features of rangelands that demand collective action (issues of scale, ecological disequilibrium and seasonality). A series of country case studies is presented, drawn from a wide spectrum of examples from Africa, the Middle East, Central Asia, Europe and North America. These provide contrasting lessons which are summarised to promote improved governance of rangelands and pastoralist livelihoods.
