

Blackfive The Milblog Conference Flash Report

Twelve Years a Slave-Solomon Northup 101-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Within Our Reach-Rosalynn Carter 2010-04-27 In *Within Our Reach*, Rosalynn Carter and coauthors Susan K. Golant and Kathryn E. Cade render an insightful, unsparing assessment of the state of mental health. Mrs. Carter has been deeply invested in this issue since her husband, former President Jimmy Carter, campaigned for governor of Georgia, when she saw firsthand the horrific, dehumanizing treatment of people with mental illnesses. Using stories from her 35 years of advocacy to springboard into a discussion of the larger issues at hand, Carter crafts an intimate and powerful account of a subject previously shrouded in stigma and shadow, surveying the dimensions of an issue that has affected us all. She describes a system that continues to fail those in need, even though recent scientific breakthroughs with mental illness have potential to help most people lead more normal lives. *Within Our Reach* is a seminal, searing, and ultimately optimistic look at how far we've come since Jimmy Carter's days on the campaign trail and how far we have yet to go.

Against All Enemies-Richard A. Clarke 2008-12-09 Richard Clarke has been one of America's foremost experts on counterterrorism measures for more than two decades. He has served under four presidents from both parties, beginning in Ronald Reagan's State Department becoming America's first Counter-terrorism Czar under Bill Clinton and remaining for the first two years of George W. Bush's administration. He has seen every piece of intelligence on Al-Qaeda from the beginning; he was in the Situation Room on September 11th and he knows exactly what has taken place under the United State's new Department of Homeland Security. Through gripping, thriller-like scenes, he tells the full story for the first time and explains what the Bush Administration are doing.

Paco's Story-Larry Heinemann 2010-05-05 Paco Sullivan is the only man in Alpha Company to survive a cataclysmic Viet Cong attack on Fire Base Harriette in Vietnam. Everyone else is annihilated. When a medic finally rescues Paco almost two days later, he is waiting to die, flies and maggots covering his burnt, shattered body. He winds up back in the US with his legs full of pins, daily rations of Librium and Valium, and no sense of what to do next. One evening, on the tail of a rainstorm, he limps off the bus and into the small town of Boone, determined to find a real job and a real bed—but no matter how hard he works, nothing muffles the anguish in his mind and body. Brilliantly and vividly written, *Paco's Story*-winner of a National Book Award-plunges you into the violence and casual cruelty of the Vietnam War, and the ghostly aftermath that often dealt the harshest blows.

The Nag Hammadi Scriptures-Marvin W. Meyer 2010-09-14 *The Nag Hammadi Scriptures*, edited by Marvin Meyer, is the most complete, up-to-date, one-volume, English-language edition of the renowned library of Gnostic manuscripts discovered in Egypt in 1945, which rivaled the Dead Sea Scrolls find in significance. It includes the Gospel of Thomas, the Gospel of Mary, and the recently discovered Gospel of Judas, as well as other Gnostic gospels and sacred texts. This volume also includes introductory essays, notes, tables, glossary, index, etc. to help the reader understand the context and contemporary significance of these texts which have shed new light on early Christianity and ancient thought. The compilation of ancient manuscripts that constitute *The Nag Hammadi Scriptures* is a discovery that challenges everything we thought we knew about the early Christian church, ancient Judaism, and Greco-Roman religions.

Seriously Not All Right-Ron Capps 2014-05-01 For more than a decade, Ron Capps, serving as both a senior military intelligence officer and as a Foreign Service officer for the U.S. Department of State, was witness to war crimes, ethnic cleansing, and genocide. From government atrocities in Kosovo, to the brutal cruelties perpetrated in several conflicts in central Africa, the wars in both Afghanistan and Iraq, and culminating in genocide in Darfur, Ron acted as an intelligence collector and reporter but was diplomatically restrained from taking preventative action in these conflicts. The cumulative effect of these experiences, combined with the helplessness of his role as an observer, propelled him into a deep depression and a long bout with PTSD, which nearly caused him to take his own life. *Seriously Not All Right* is a memoir that provides a unique perspective of a professional military officer and diplomat who suffered (and continues to suffer) from PTSD. His story, and that of his recovery and his newfound role as founder and teacher of the Veterans Writing Project, is an inspiration and a sobering reminder of the cost of all wars, particularly those that appeared in the media and to the general public as merely sidelines in the unfolding drama of world events.

Blood Sacrifice and the Nation-Carolyn Marvin 1999-03-11 A groundbreaking study of American patriotism and the symbolic power of the national flag.

Crashing the Gate-Jerome Armstrong 2006 Details how the Bush administration is stuffing up America, and exposes the real tensions in the coalition of the religious right or old school libertarians, who make up the republican activist support base.

The Practice Test-Edwin Leap 2010 *The Practice Test* is a book of questions written in a sometimes humorous imitation of medical board exams. However, rather than addressing the science of medicine, *The Practice Test* asks (and answers) questions about life as a physician. It is a book written to help future and current physicians to develop, or rediscover, balance, perspective and joy in their lives and in the practice of their chosen profession.

Film Technique and Film Acting-P. J. O'Rourke 2003-10 The author of *Parliament of Whores* takes a look at freedom around the world, discussing the Gorbachev-Reagan summit, the Berlin Wall, elections in Paraguay and Nicaragua, Russia after the aborted coup, Saddam Hussein, liberals, and more. Reprint.

A Handbook of Gods and Goddesses of the Ancient Near East-Douglas R. Frayne 2021-03-01 From the tragic young Adonis to Zašhapuna, first among goddesses, this handbook provides the most complete information available on deities from the cultures and religions of the ancient Near East, including Anatolia, Syria, Israel, Sumer, Babylonia, Assyria, and Elam. The result of nearly fifteen years of research, this handbook is more expansive and covers a wider range of sources and civilizations than any previous reference works on the topic. Arranged alphabetically, the entries range from multiple pages of information to a single line—sometimes all that we know about a given deity. Where possible, each record discusses the deity's symbolism and imagery, connecting it to the myths, rituals, and festivals described in ancient sources. Many of the entries are accompanied by illustrations that aid in understanding the iconography, and they all include references to texts in which the god or goddess is mentioned. Appropriate for both trained scholars and nonacademic readers, this book collects centuries of Near Eastern mythology into one volume. It will be an especially valuable resource for anyone interested in Assyriology, ancient religion, and the ancient Near East.

Civil Air Patrol-United States. Air Force Department 1972

American Original-Joan Biskupic 2009-11-10 The first full-scale biography of the Supreme Court's most provocative—and influential—justice If the U.S. Supreme Court teaches us anything, it is that almost everything is open to interpretation. Almost. But what's inarguable is that, while the Court has witnessed a succession of larger-than-life jurists in its two-hundred-year-plus history, it has never seen the likes of Supreme Court Justice Antonin Scalia. Combative yet captivating, infuriating yet charming, the outspoken jurist remains a source of curiosity to observers across the political spectrum and on both sides of the ideological divide. And after nearly a quarter century on the bench, Scalia may be at the apex of his power. Agree with him or not, Scalia is "the justice who has had the most important impact over the years on how we think and talk about the law," as the Harvard law dean Elena Kagan, now U.S. Solicitor General, once put it. Scalia electrifies audiences: to hear him speak is to remember him; to read his writing is to find his phrases permanently affixed in one's mind. But for all his public grandstanding, Scalia has managed to elude biographers—until now. In *American Original: The Life and Constitution of Supreme Court Justice Antonin Scalia*, the veteran Washington journalist Joan Biskupic presents for the first time a detailed portrait of this complicated figure and provides a comprehensive narrative that will engage Scalia's adherents and critics alike. Drawing on her long tenure covering the Court, and on unprecedented access to the justice, Biskupic delves into the circumstances of his rise and the formation of his rigorous approach to the bench. Beginning with the influence of Scalia's childhood in a first-generation Italian American home, *American Original* takes us through his formative years, his role in the Nixon-Ford administrations, and his trajectory through the Reagan revolution. Biskupic's careful reporting culminates with the tumult of the contemporary Supreme Court—where it was and where it's going, with Scalia helping to lead the charge. Even as Democrats control the current executive and legislative branches, the judicial branch remains rooted in conservatism. President Obama will likely appoint several new justices to the Court—but it could be years before those appointees change the tenor of the law. With his keen mind, authoritarian bent, and contentious rhetorical style, Scalia is a distinct and persuasive presence, and his tenure is far from over. This new book shows us the man in power: his world, his journey, and the far-reaching consequences of the transformed legal landscape.

Stand Firm-Paul Gould 2018-11 In an age of skepticism and disenchantment, people long for something that satisfies our mind's search for truth and our heart's desire for beauty and meaning. *Stand Firm: Apologetics and the Brilliance of the Gospel* argues that the gospel satisfies both of these needs. It is true and rational, but it is also inherently attractive and provides meaning and purpose. In short, the gospel is brilliant. It is brilliant, in one sense, because of the broad variety of evidences for its truth. But it is also brilliant given its beauty, goodness and the meaningful life it offers. The book provides up to date responses to questions about the existence of God, the reliability of the Bible, Jesus and the resurrection, and the problem of evil. It also treats unique topics such as understanding truth, knowledge and faith, the claims of alternate faiths, religious disagreement, etc. Each chapter attempts to connect these considerations with the gospel so that we may stand firm in our faith.

The Militant Church-Lester Sumrall 1995-07-01 Warfare strategies for today's Christians by a militant man - a recognized leader in combating the demonic forces at work in the world today.

Research Companion to Corruption in Organizations-Ronald J. Burke 2009-01-01 This is a very timely book. The coverage it gives to the topic is superb. The individual, organisational and institutional causes of corruption are laid out along with analyses of the choices that we all have to make to deal with its consequences. In these times of increased scouting of corporate behaviour, there is something to learn here for policy makers, corporate leaders and researchers alike. Paul Sparrow, Lancaster University, UK Ronald Burke and Cary Cooper have assembled the most comprehensive volume of work available today on the topic of organizational corruption. However, the volume is far-reaching in more than just its content. In addition to attracting some of the most widely-read scholars in the area, Burke and Cooper have found space for a number of bright new voices and thus, insights as well. This makes for a volume that is as vibrant and exciting as it is complete. Scholars not only should read it, they will enjoy doing so. Marshall Schminke, University of Central Florida, US Corruption in organizations is creating an increasing number of victims and causing huge costs. This timely book brings together international researchers who address the causes and consequences of corruption in organizations and the action needed to reduce levels of corruption worldwide. Corruption is a worldwide problem and is likely to increase as a result of the current economic meltdown. Specific attention is devoted to causes of corruption such as individual levels of moral development, moral disengagement, greed, the routinisation of corruption, and organizational factors such as conflicts of interest, reward systems and organizational cultural values. The Companion suggests methods and examples to reduce levels of corruption that include education and training, whistleblowing, the increase of organizational controls through rules and structure, and developing an ethical organizational culture. Academics and postgraduate students interested in both crime and corruption in organizations will warmly welcome the Companion. Policymakers in government, those involved in professional services such as accountants and lawyers, as well as managers of any organization interested in conducting ethical business will find the Companion invaluable.

Beautiful Data-Toby Segaran 2009-07-14 In this insightful book, you'll learn from the best data practitioners in the field just how wide-ranging -- and beautiful -- working with data can be. Join 39 contributors as they explain how they developed simple and elegant solutions on projects ranging from the Mars lander to a Radiohead video. With Beautiful Data, you will: Explore the opportunities and challenges involved in working with the vast number of datasets made available by the Web Learn how to visualize trends in urban crime, using maps and data mashups Discover the challenges of designing a data processing system that works within the constraints of space travel Learn how crowdsourcing and transparency have combined to advance the state of drug research Understand how new data can automatically trigger alerts when it matches or overlaps pre-existing data Learn about the massive infrastructure required to create, capture, and process DNA data That's only small sample of what you'll find in Beautiful Data. For anyone who handles data, this is a truly fascinating book. Contributors include: Nathan Yau Jonathan Follett and Matt Holm J.M. Hughes Raghu Ramakrishnan, Brian Cooper, and Utkarsh Srivastava Jeff Hammerbacher Jason Dykes and Jo Wood Jeff Jonas and Lisa Sokol Jud Valeski Alon Halevy and Jayant Madhavan Aaron Koblin with Valdean Klump Michal Migurski Jeff Heer Coco Krumme Peter Norvig Matt Wood and Ben Blackburne Jean-Claude Bradley, Rajarshi Guha, Andrew Lang, Pierre Lindenbaum, Cameron Neylon, Antony Williams, and Egon Willighagen Lukas Biewald and Brendan O'Connor Hadley Wickham, Deborah Swayne, and David Poole Andrew Gelman, Jonathan P. Kestellec, and Yair Ghitza Toby Segaran

Lost Subs-Spencer Dunmore 2010-08-01 Through gripping text and powerful images, this chronicle traces the evolution of the submarine and the history of under-the-seas warfare. Harrowing tales of a submerged death and eerie images of ghost ships are haunting, yet the daring stories of the vessels and their inhabitants invoke a nostalgic courage, allowing the reader to reflect on a sunken, dark fate that is rarely mentioned. State-of-the-art underwater photographs, accompanied by archival images and cutaway diagrams, answer many questions about why each submarine sank and make this the definitive illustrated history.

Competency Management in the Public Sector-European Group of Public Administration 2002 Designed for both practitioners and academics, this work seeks to inform the reader about the practice of competency management services in the public sector. It throws light on the origins and meanings of the concept and traces the competency movement from the 1980s in the UK and USA.

Andorra Sector-Year Zombie 2020-01-07 Katriana Cardona My life ended the moment the X-Clan found me. Bitten.Turned.And claimed by him. My genetic markers label me as a rare Omega. But inside, I'm all female alpha. And I will not heel. Not even to the Alpha of Andorra Sector. Ander Cain promises me protection.A new world of pleasure and pain.But he wants all of me in return.Even if it means taking me by force. I'll be damned if I give up my inner fight. I spent the last twenty-one years battling the walking dead. These wolves won't know what hit them when I'm through. Ander Cain My life began the moment I found her, my darling little mate. She's the force of nature Andorra Sector needs to give us hope for a future. A reason to keep going and to protect our lands from the zombie infestation beyond. Yet she refuses to play by our rules. Born in a time where humans will do anything to survive, she's not used to the pack hierarchy or the laws our kind abides by. Oh, but she'll learn. And I'll thoroughly enjoy being the one to train her. Katriana Cardona can fight me all she wants, but in the end, she will be mine. Whether she submits or not. Note: This is a standalone shifter romance with omegaverse and dystopian elements. There will be three main novels in the X-Clan series, all featuring different couples. Novellas may appear in between about side characters as well.

Authors Take Sides on Iraq and the Gulf War-Jean Moorcroft Wilson 2004

War and Decision-Douglas J. Feith 2009-10-13 In the years since the attacks of September 11, 2001, journalists, commentators, and others have published accounts of the Bush Administration's war on terrorism. But no senior Pentagon official has offered an inside view of those years, or has challenged the prevailing narrative of that war—until now. Douglas J. Feith, the head of the Pentagon's Policy organization, was a key member of Donald Rumsfeld's inner circle as the Administration weighed how to protect the nation from another 9/11. In War and Decision, he puts readers in the room with President Bush, Vice President Cheney, Rumsfeld, Paul Wolfowitz, Condoleezza Rice, Colin Powell, General Tommy Franks, and other key players as the Administration devised its strategy and war plans. Drawing on thousands of previously undisclosed documents, notes, and other written sources, Feith details how the Administration launched a global effort to attack and disrupt terrorist networks; how it decided to overthrow the Saddam Hussein regime; how it came to impose an occupation on Iraq even though it had avoided one in Afghanistan; how some officials postponed or impeded important early steps that could have averted major problems in Iraq's post-Saddam period; and how the Administration's errors in war-related communications undermined the nation's credibility and put U.S. war efforts at risk. Even close followers of reporting on the Iraq war will be surprised at the new information Feith provides—presented here with balance and rigorous attention to detail. Among other revelations, War and Decision demonstrates that the most far-reaching warning of danger in Iraq was produced not by State or by the CIA, but by the Pentagon. It reveals the actual story behind the allegations that the Pentagon wanted to "anoint" Ahmad Chalabi as ruler of Iraq, and what really happened when the Pentagon challenged the CIA's work on the Iraq-al Qaida relationship. It offers the first accurate account of Iraq postwar planning—a topic widely misreported to date. And it presents surprising new portraits of Rumsfeld, Rice, Powell, Richard Armitage, L. Paul Bremer, and others—revealing how differences among them shaped U.S. policy. With its blend of vivid narrative, frank analysis, and elegant writing, War and Decision is like no other book on the Iraq war. It will interest those who have been troubled by conflicting accounts of the planning of the war, frustrated by the lack of firsthand insight into the decision-making process, or skeptical of conventional wisdom about Operation Iraqi Freedom and the global war on terrorism—efforts the author continues to support.

Unearthing the Bible-Titus M Kennedy 2020-06-02 "A much-needed resource for those serious about biblical studies." —Mark M. Yarbrough, president, Dallas Theological Seminary The Bible has long been dismissed as a book of myths, legends, fairy tales, and propaganda. Yet when we examine the archaeological evidence, its accuracy comes to light. In Unearthing the Bible, Dr. Titus M. Kennedy presents 101 objects that provide compelling evidence for the historical reliability of Scripture from the dawn of civilization through the early church. Gathered from more than 50 museums, private collections, and archaeological sites, these pieces not only reinforce the reliability of the biblical narratives, but also provide rich cultural insights into the ancient world. Using this visual guide, you can find context for your faith as you make your way through the Bible. Dr. Kennedy's photographs and detailed descriptions enable you to examine each piece of fascinating evidence for yourself. From the earliest tablets of creation to artifacts connected with the life and resurrection of Jesus, Unearthing the Bible shows you can be confident there is an abundance of archaeological support for the history told in the Scriptures.

An Army of Davids-Glenn Reynolds 2007-02-04 There was a time in the not-too-distant past when large companies and powerful governments reigned supreme over the little guy. But new technologies are empowering individuals like never before, and the Davids of the world—the amateur journalists, musicians, and small businessmen and women—are suddenly making a huge economic and social impact. In Army of Davids, author Glenn Reynolds, the man behind the immensely popular Instapundit.com, provides an in-depth, big-picture point-of-view for a world where the small guys matter more and more. Reynolds explores the birth and growth of the individual's surprisingly strong influence in: arts and entertainment, anti-terrorism, nanotech and space research, and much more. The balance of power between the individual and the organization is finally evening out. And it's high time the Goliaths of the world pay attention, because, as this book proves, an army of Davids is on the rise. Endorsements: "George Orwell feared that technology would enable dictators to enslave the masses. Glenn Reynolds shows that technology can empower individuals to determine their own futures and to defeat those who would enslave us. This is a book of profound importance—and also a darn good read." -MICHAEL BARONE, senior writer at U.S. News & World Report and author of Hard America, Soft America "Blogger extraordinaire Glenn Reynolds shows how average Americans can use new technologies to overcome the twin demons of corporate greed and incompetent government. Reynolds is a compelling evangelist for the power of the individual to change our world." -ARIANNA HUFFINGTON, author of Pigs at the Trough and Fanatics and Fools "A smart, fun tour of a major social and economic trend. From home-brewed beer to blogging, Glenn Reynolds is an engaging, uniquely qualified guide to the do-it-yourself movements transforming business, politics, and media." -VIRGINIA POSTREL, Forbes columnist and author of The Future and its Enemies and The Substance of Style "A student in her dorm room now commands the resources of a multi-million dollar music recording or movie editing studio of not so many years ago. The tools of creativity have been democratized and the tools of production are not far behind (Karl Marx take note). Glenn Reynolds's beguiling new book tells the insightful story of how an 'army of Davids' is inheriting the Earth, leaving a trail of obsolete business models not to mention cultural, economic, and political institutions in its wake." -RAY KURZWEIL, scientist, inventor, and author of several books including The Singularity is Near 'Must-read,' 'gotta have,' 'culture-changing' . . . I am suspicious of blurbs with such overused plugs. But Glenn Reynolds's An Army of Davids is in fact a must-read new book that you gotta have if you are going to understand the culture-changing forces that are unleashed and at work across the globe. -HUGH HEWITT, syndicated talk radio host and author of Blog and Painting the Map Red "Glenn Reynolds has written an essential book for understanding how technology and markets are creating a bottom-up shift in power to ordinary people that is changing business, government, and our world. Packed with fresh ideas and adorned with graceful prose, An Army of Davids is a masterpiece." -JOE TRIPPI, author of The Revolution Will Not Be Televised

Saving Afghanistan-V. Krishnappa 2009 Contributed articles presented at the conference at the Institute for Defence Studies and Analyses in February 2008.

Great Presidential Wit-Robert J. Dole 2001-01-01 The senator and former presidential candidate collects bipartisan presidential humor from famous, and not-so-famous, chief executives, from Washington to Clinton. 125,000 first printing.

King's College Cambridge-Alan MacFarlane 2018-07-02 This refreshing guide has been written by Alan Macfarlane, a Fellow of King's College for over forty years and currently a Life Fellow and Emeritus Professor of Anthropology. It is written in collaboration with Patricia McGuire, the King's College Archivist, illustrated by Bridget Strevens Marzo who studied at King's, and assisted by the Fellow Librarian Peter Jones.

Progress in Iraq-Shawn R. Murray 2010 Since 2001, Congress has appropriated about \$640 billion for the global war on terrorism, the majority of this for operations in Iraq. In January 2007, President Bush announced "The New Way Forward" to stem violence in Iraq and enable the Iraqi government to foster national reconciliation. This new strategy established goals and objectives to achieve over 12 to 18 months. This book explores the post-Saddam governance and security in Iraq, the large-scale reconstruction assistance program undertaken by the U.S. in Iraq, the results of a U.S. supported election process designed to produce democracy and Iraq after the "surge".

Adam Smith's Lost Legacy-G. Kennedy 2005-02-21 In this accessible book, Gavin Kennedy takes a fresh look at Adam Smith's moral philosophy and its links to his political economy and his lectures on Jurisprudence. The book provides a new analysis of Wealth of Nations, and argues that Adam Smith's intellectual legacy was completely transformed in the Nineteenth and Twentieth centuries by economists pursuing different agendas, to create ideas and policies that Smith did not advocate. It also provides a new explanation for the main mysteries about Smith's later life.

The Zeit-Geist-L. Dougall 2020-07-29 Reproduction of the original: The Zeit-Geist by L. Dougall

Blogwars-David D. Perlmutter 2008-03-07 Political blogs have grown astronomically in the last half-decade. In just one month in 2005, for example, popular blog DailyKos received more unique visitors than the population of Iowa and New Hampshire combined. But how much political impact do bloggers really have? In Blogwars, David D. Perlmutter examines this rapidly burgeoning phenomenon, exploring the degree to which blogs influence--or fail to influence--American political life. Challenging the hype, Perlmutter points out that blogs are not that powerful by traditional political measures: while bloggers can offer cogent and convincing arguments and bring before their readers information not readily available elsewhere, they have no financial, moral, social, or cultural leverage to compel readers to engage in any particular political behavior. Indeed, blogs have scored mixed results in their past political crusades. But in the end, Perlmutter argues that blogs, in their wide dissemination of information and opinions, actually serve to improve democracy and enrich political culture. He highlights a number of the particularly noteworthy blogs from the specialty to the superblogger--including popular sites such as Daily Kos, The Huffington Post, Powerlineblog, Instapundit, and Talking Points Memo--and shows how blogs are becoming part of the tool kit of political professionals, from presidential candidates to advertising consultants. While the political future may be uncertain, it will not be unblogged. For many Internet users, blogs are the news and editorial sites of record, replacing traditional newspapers, magazines, and television news programs. Blogwars offers the first full examination of this new and controversial force on America's political landscape.

Lexham Geographic Commentary on the Gospels-Barry Beitzel 2018-04-18 Many familiar Gospel narratives are filled with geographic details that we gloss over because of our distance from the Holy Land. Yet climate, landscape, natural resources, and other features of geography leave a lasting mark on the societies and cultures that have developed within them. In a world of dirt roads and dry riverbeds, where shepherds watch their flocks in the hills and fishermen mend their nets by the sea, Jesus taught from hill and plain, using the surrounding landscape as the backdrop for his teaching. Jesus' parables and illustrations are often brimming with geographic clues, but the significance of these distinctive details is often lost on us today. The Lexham Geographic Commentary on the Gospels puts readers in the sandals of the disciples as they travel throughout Israel with Jesus, explaining the significance of geography for mining the riches of the biblical text.

Citizens for Trump-Jack Posobiec 2017-06-11 Citizens for Trump takes you behind-the-scenes of the people's movement throughout 2016 that elected Donald Trump to office, over the wishes of Hillary Clinton, the establishment of both Republican and Democrat parties, and the mainstream media. Witness how social media was weaponized to cut through the narrative-driven news cycle. Hear never-before-heard stories from the front lines of the Trump revolution from someone who lived it across the country, and maybe learn a little meme magic along the way.

Ordinary Jerusalem, 1840-1940-Angelos Dalachanis 2018-08-30 In Ordinary Jerusalem, 1840-1940, Angelos Dalachanis, Vincent Lemire and thirty-five scholars, mostly young academics, utilize new archives to revisit the global, extraordinary city of Jerusalem in the late Ottoman and Mandate periods.

The Nine Laws-Ivan Throne 2016-11-17 For men of action who demand performance, the nine laws reveal the simple but often hidden core principles that form the living frame of fulfilled relationships, power and wealth.

Replacing Americans-Dave Gibson 2010-01-08

Thank You, President Bush-Aman Verjee 2004 Thank You, President Bush brings together the nation's leading conservative and libertarian policy makers and scholars to analyze every aspect of George W. Bush's presidency and to make the compelling case that he will be seen as one of the nation's great Presidents. This landmark anthology features contributions from George Shultz, Phyllis Schlafly, James Dobson, Art Laffer, William Bennett, Edwin Meese III, Gov. Mike Huckabee, Stephen Moore and Grover Norquist, and serves as a strong rebuttal to the legion of Bush-haters who seek nothing but to distort his ongoing record of achievement under trying conditions.
