Cost Management: A Strategic Emphasis-Edward Blocher 2012-09-06 Cost Management: A Strategic Emphasis, by Blocher/Stout/Juras/Cokins is dedicated to answering the question: Why Cost Management? Blocher et al. provide the cost-management tools and techniques needed to support an organisation's competitiveness, improve its performance, and help the organisation accomplish its strategy. The text is written to help students understand the broader role of cost accounting in helping an organisation succeed - and not just the measurement of costs. While the text does include coverage of traditional costing topics (e.g., job-order costing, process costing, service-department cost allocations, and accounting for joint and by-products), its primary strength is the linkage of these topics, as well as more contemporary topics, to an organisation's strategy. This message is reinforced by a dynamic author team, all four of whom have close ties to current cost management practice.

Garrison is your guide through the challenging waters of managerial accounting. It identifies the three functions managers must perform within their organizations—plan operations, control activities, and make decisions—and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. Managerial Accounting 8e focuses, now as in the past, on three qualities: Relevance, Balance and Clarity. The authors' steady focus on these core elements has led to tremendous results! As seafarers look to the lighthouse for direction along unfamiliar shore, so too can Garrison act as a compass for students seeking to master this course.
