CS13 Mundane Astrology-C. C. Zain 2014-04-27 This book is Course 13 in the 21 Brotherhood of Light Course series by C. C. Zain on the Hermetic Sciences, Astrology, Alchemy, Tarot, Kabbalah and the Occult. Mundane astrology is the study of how astrological influences affect nations, cities, states, communities, corporations and groups. Local and world trends can be studied through the use of mundane cycle charts of the major planets. This book is one of the rare technical manuals covering the astrology of world affairs. It

teaches the student how to construct and interpret mundane cycle charts. It shows how to determine the timing of the birth of a corporation or nation-state. The book covers the cycles of Mars, Jupiter, Saturn, Uranus, Neptune and Pluto, giving many real-world examples of how aspects in the charts are linked to world events. The book provides examples of planets transiting through a sign and Major (secondary) progressed aspects in the birth charts of nations and cities. It also discusses Sun cycle charts, major conjunctions of the planets, moon cycles and eclipses. Abundant real-world examples of these cycle charts, their aspects and the associated events taken directly from the World Almanac, show how knowledge of astrological trends enable organizations and nation-states to take precautionary actions.
