Blood and Iron-Hugh Montagu Butterworth 2011-01-01 Until now Hugh Butterworth was just one of the millions of lost soldiers of the Great War, and the extraordinary letters he sent home from the Western Front have been forgotten. But after more than ninety years of obscurity, these letters, which describe his experience of war in poignant detail, have been rediscovered, and they are published here in full. They are a moving, intensely personal and beautifully written record by an articulate and observant man who witnessed at first hand one of the darkest episodes in European history. In civilian life Butterworth was a dedicated and much-loved schoolmaster and a gifted cricketer, who served with distinction as an officer in the Rifle Brigade from the spring of 1915. His letters give us a telling insight into the thoughts and reactions of a highly educated, sensitive and perceptive individual confronted by the horrors of modern warfare. He was killed on the Bellewaarde ridge near Ypres on 25 September 1915, and his last letter was written on the eve of the action in which he died. REVIEWS Jon Cooksey has produced a splendid work and produced a detailed account of the build up to the attack, the assault itself and the aftermath. The Long, Long Trail 7/2015

Blood-Soaked & Invaded-James Crawford 2012-02-14 With the zombie apocalypse taking its toll on his mind, one man faces a greater threat from above in this sequel to Blood Soaked and Contagious. Zombies were bad enough, but now we’re being invaded from all sides. Up to our necks in blood, body parts, and unanswerable questions As soon as the realization hit me, I lost my cool. I curled into the fetal position in a pile of blood, offal, and body parts, and froze there. What in the Hell was I becoming that killing was entertaining and satisfying? I don’t know how long I was on my side in the remains of my opponents, but the mess was coagulating and getting cold . . . to say nothing of the smell of sliced-open bowels. There were periodic noises suggesting violence around and about where I was glued to the ground by noxious goop, but I couldn’t

even raise my face to take a look around. My brain spun around and around, propelled by unanswered questions and abject horror. The person I thought I was—a guy who does what he has to do when the chips are down—had been replaced by someone I didn’t know and it made me terribly afraid . . . The Torment of Others-Val McDermid 2006-08-29 Dr. Tony Hill and Detective Chief Inspector Carol Jordan return in the award-winning series that is the basis for the BBC television show. In a small grim room, the body of a woman is discovered, panic and pain etched in her face. The scene matches in every detail a series of murders two years ago-murders that ended when irrefutable forensic evidence secured the conviction of a deeply disturbed young man named Derek Tyler. But there's no way Tyler could have killed the latest victim. He's been locked up in a mental institution since his trial, barely speaking a word. So is there a copycat? All his years of experience tell top criminal psychologist Dr. Tony Hill that there isn't-but that would make the murders literally impossible. While Hill tries to crack Tyler, DCI Carol Jordan and her team must mount a desperate undercover operation to trap the murderer-a decision that will have terrible consequences. In The Torment of Others, Val McDermid keeps the tension mounting, as a mixture of psychological insight and dogged detective work leads inexorably to a terrifying climax where Tony faces one of the most perverse killers he has ever encountered.

After-Bruce Greyson 2021-03-02 The world's leading expert on near-death experiences reveals his journey toward rethinking the nature of death, life, and the continuity of consciousness. Cases of remarkable experiences on the threshold of death have been reported since ancient times, and are described today by 10% of people whose hearts stop. The medical world has generally ignored these “near-death experiences,” dismissing them as “tricks of the brain” or wishful thinking. But after his patients started describing events that he could not just sweep under the rug, Dr. Bruce Greyson began to investigate. As a physician without a religious belief system, he approached near-death experiences from a scientific perspective. In After, he shares the transformative lessons he has learned over four decades of research. Our culture has tended to view dying as the end of our consciousness, the end of our existence—a dreaded prospect that for many people evokes fear and anxiety. But Dr. Greyson shows how scientific revelations about the dying process can support an alternative theory. Dying could be the threshold between one form of consciousness and another, not an ending but a transition. This new perspective on the nature of death can transform the fear of dying that pervades our culture into a healthy view of it as one more milestone in the course of our lives. After challenges us to open our minds to these experiences and to what they can teach us, and in so doing, expand our understanding of consciousness and of what it means to be human.

Life & Duty-Les Joslin 2014-06-04 "The fact of being a citizen of the United States of America offers the opportunity--not the guarantee, but the opportunity--to live an extraordinary life," Les Joslin writes in the introduction to *Life & Duty*, an autobiography in which he proves his thesis as the relives the first seventy years of his American adventure. He shares these years in twenty chapters that comprise this three-part volume. Part I covers his family heritage and early years from 1943 to 1967, Part II his U.S. Navy career from 1967 to 1988, and Part III his life in Oregon from 1988. from Part I, Chapter 5, Summer 1965 on the Toiyabe National Forest... That wasn't the first time I'd dealt with an armed citizen, and it wouldn't be the last. Some of the challenges of my fire prevention job had nothing to do with wildfire prevention but everything to do with the fact I was sometimes the only public servant around to handle a situation. It had to do with that sometimes gray area between official duty and moral obligation. the previous summer, on my way to Twin Lakes, I detoured to check the dump I'd burned a few days before. Suddenly, I heard shots, just as the Lone Ranger and Tonto did in the opening scene of almost every episode, and what I saw as I neared the dump scared me. A big, beefy, fortyish man standing next to a late-model Cadillac sedan was firing a high-powerd rifle.... He'd heard me coming, and turned as I stopped the patrol truck. He didn't look particularly threatening. But there were serious unknowns. I didn't know him. I didn't know what he might shoot at. I didn't know he wouldn't shoot at me. from Part II, Chapter 10, November 1979 aboard USS Kitty Hawk... on November 28, I got up, showered and shaved, put on clean khakis as usual, and started toward the wardroom for breakfast. the usual scent of salt and jet fuel was in the air, and I had a lot on my mind. I descended two ladders to the hangar bay, only to be brought up short by bumping my head on a helicopter that wasn't supposed to be there. A quick look around revealed seven more RH-53D Sea Stallion helicopters that their HM-16 markings told me belonged to Helicopter Mine Countermeasures Squadron Sixteen, not part of the ship's air wing. So that's why the swing south to Diego Garcia! They'd been flown there, probably in C-5As, and had flown aboard last night. Had I actually slept through flight quarters? I forgot about breakfast, climbed the ladders back to the 02 level, and knocked on the door of the flag N-2's office. "This isn't going to work," I said as he opened the door. "We can't fly those helicopters into a city of five million hostiles and rescue fifty hostages." "They don't want to hear that," he replied, and closed the door. from Part III, Chapter 15, Summer 1992 on the Deschutes National Forest As I walked toward the fire, I began to think. Am I doing the right thing? After all, I'm just a contract wilderness information specialist, not part of the fire organization. I hadn't been to the Deschutes National Forest's fire school. I didn't have fire clothing. I didn't have a fire shelter. Except for a canteen, I didn't have any water. and I'd turned in my last red card--the fire qualification card that rated me as a crew boss--in 1966 when I'd left the Toiyabe National Forest to go on active duty in the Navy. That was twenty-six years ago! Should I be doing this? Sure, I answered my own question. I'd started out in the "old Forest Service" where everybody did everything. I'd done this many times before, in the days before fire shirts and Nomex britches and fire shelters. I'd had five fire seasons on the Toiyabe, been on a couple big fires. ... I knew this business. I knew how to keep out of trouble. About the time I resolved that little issue, I was at the fire....

The Preacher's Daughter-Kendra Dunn 2010-03-01 My father's church was on one end of the block and Slay conducted his business on the other. It was a street that, depending on which direction you were going, led you to heaven or to hell. At the time, I didn't have the fortitude to tell that as a disciple of the Lord, down on the corner is exactly where he needed to be - slinging scriptures as the dope boys slung rocks. I disobeyed my father's commandment and followed my heart... a decision that, indeed, led me to hell.

96 TEARS-Robert Monti 2013-03 96 TEARS is tribute to the human spirit. When all seems bleak and the mind sinks to lows it thinks impossible to handle, the heart and soul remain the substance of true character. Being destitute broke, down-and-out; having near-death experiences; and having been used and abused would lead many to give up. It is only after such experiences do the magical, mystical forces of faith come into play. Faith is the driving force that lifts us up from the depths of our darkest despair. This is a story of never-ending perseverance, the song the heart and soul sing to never, ever give up!

Lives of Hitler's Jewish Soldiers-Bryan Mark Rigg 2022-11-20 They were foot soldiers and officers. They served in the regular army and the Waffen-SS. And, remarkably, they were also Jewish, at least as defined by Hitler's infamous race laws. Pursuing the thread he first unraveled in Hitler's Jewish Soldiers, Bryan Rigg takes a closer look at the experiences of Wehrmacht soldiers who were classified as Jewish. In this long-awaited companion volume, he presents interviews with twenty-one of these men, whose stories are both fascinating and disturbing. As many as 150,000 Jews and partial-Jews (or Mischlinge) served, often with distinction, in the German military during World War II. The men interviewed for this volume portray a wide range of experiences-some came from military families, some had been raised Christian—revealing in vivid detail how they fought for a government that robbed them of their rights and sent their relatives to extermination camps. Yet most continued to serve, since resistance would have cost them their lives and they mistakenly hoped that by their service they could protect themselves and their families. The interviews recount the nature and extent of their dilemma, the divided loyalties under which many toiled during the Nazi years and afterward, and their sobering reflections on religion and the Holocaust, including what they knew about it at the time. Rigg relates each individual's experiences following the establishment of Hitler's race laws, shifting between vivid scenes of combat and the increasingly threatening situation on the home front for these men and their family members. Their stories reveal the constant tension in their lives: how some tried to hide their identities, and how a few were even "Aryanized" as part of Hitler's effort to retain reliable soldiers—including Field Marshal Erhard Milch, three-star general Helmut Wilberg, and naval commander Bernhard Rogge. Chilling, compelling, almost beyond belief, these stories depict crises of conscience under the most stressful circumstances. Lives of Hitler's Jewish Soldiers deepens our understanding of the complex intersection of Nazi race laws and German military service both before and during World War II.
