Your Model Horse Collection Reference Guide 2017-Kristin Chernoff 2017-07-04 Breyerfest 2017 Edition. When I had 100 models I could still remember what I owned. When I had 300 models I computerized my records - and crated the first version of this list. That was years ago. Breyer had added thousands of new models and hundreds of new molds. New (and old) companies have come and gone, or changed names. I'm always looking for more information, especially for companies and models not listed in this book. Detail start to escape me - was that the bay with 3 socks and black hooves, or the bay with 3 socks and pink hooves, of the bay with 4 socks version? There is just too much information to remember. I'm an avid collector. When I first started in the hobby, there were no books available, just box catalogs. This book is meant to be a record of YOUR collection. It is meant to be written in. You can mark if you own it or just want it. You can even write in a name for your model under the notes section. See you at Breyerfest!

Excelling in College-Jeffrey Kottler 2011-01-01 There is a difference between surviving in college and thriving in college, especially when considering the change in environment for first-year students. They are expected to take on new roles and responsibilities such as speaking up in class, approaching instructors, making new friends, performing under pressure, dealing with financial struggles, and making healthy lifestyle choices on their own. With so many changes and challenges to deal with at once, it often results in a stressed-out student. In fact, persuasive evidence shows stress is the single most reported obstacle to academic success in college (CHRONICLE OF HIGHER EDUCATION, 2009). This is especially true of first-year students. In surveys conducted by the American College Health Association (2009) and the Cooperative Institutional Research Program (2009), half of all students reported feeling plagued by stress in the previous year. One-third found that there were times they were so overwhelmed that they could barely function on a daily basis. EXCELLING IN COLLEGE encourages students to perform their best using critical-thinking skills and stress management. By using exercises, in-class activities, and videos, readers learn how to manage these challenges in order to better maintain relationships with family and friends.
