Contending for Our All-John Piper 2006-01-20 Athanasius. John Owen. J. Gresham Machen. Each of these men stood for the truth of God's Word in the face of opposition-all out of a deep love for Christ and a desire for people to know God in his fullness. Popularity was not a concern, and they took no joy in controversy for argument's sake. However, these men were willing to suffer for the sake of guarding the sanctity of the gospel. Many threats, years of exile, deaths of loved ones, opposition from friends and authorities, sickness and pain-none of these setbacks could keep these three from maintaining their efforts for the furthering of Christ's Kingdom or quench their zeal for Christ himself. In his fourth book of The Swans Are Not Silent series, Contending for Our All, John Piper has given us biographies of Athanasius, John Owen, and J. Gresham Machen-bishop, pastor, and seminary founder. In the life of each one, personal holiness was emphasized publicly and privately despite suffering. They were true soldiers for the sake of the cross, and each man offers life lessons for Christians today. Athanasius The deity of Christ and all its worth consumed Athanasius. He devoted his life to defending it. The great adversary was the Arian heresy. Athanasius would be banished by the emperor five times. He was contending for his all-the essential, life-giving truth of Christ and his gospel. John Owen Communion with Christ was the focus of John Owen's vast intellect and expansive heart. He battled Christ-belittling errors of the mind and heart with passion and skill. Going deeper in the understanding of Christ was for him the key to going deeper in fellowship with him. J. Gresham Machen Representing Christ in all his fullness with all of Scripture drove J. Gresham Machen. He saw in the liberal Christianity of the early twentieth century another religion. His exposure of its subtleties and his emphasis on the facts of history are astonishingly relevant for our time in the early twenty-first century. The Swans Are Not Silent When Augustine handed over the leadership of his church in A.D. 426, his successor was so overwhelmed by a sense of inadequacy that he declared, "The swan is silent," fearing the spiritual giant's voice would be lost to time. But for 1,600 years Augustine has not been silent-and neither have those who faithfully trumpeted the cause of Christ after him. Their lives have inspired every generation of believers and should compel us to a greater passion for God. Part of the The Swans Are Not Silent series.

Pompeii and Herculaneum-Alison E. Cooley 2013-10-01 The original edition of Pompeii: A Sourcebook was a crucial resource for students of the site. Now updated to include material from Herculaneum, the neighbouring town also buried in the eruption of Vesuvius, Pompeii and Herculaneum: A Sourcebook allows readers to form a richer and more diverse picture of urban life on the Bay of Naples. Focusing upon inscriptions and ancient texts, it translates and sets into context a representative sample of the huge range of source material uncovered in these towns. From the labels on wine jars to scribbled insults, and from advertisements for gladiatorial contests to love poetry, the individual chapters explore the early history of Pompeii and Herculaneum, their destruction, leisure pursuits, politics, commerce, religion, the family and society. Information about Pompeii and Herculaneum from authors based in Rome is included, but the great majority of sources come from the

cities themselves, written by their ordinary inhabitants - men and women, citizens and slaves. Incorporating the latest research and finds from the two cities and enhanced with more photographs, maps, and plans, Pompeii and Herculaneum: A Sourcebook offers an invaluable resource for anyone studying or visiting the sites.

Piloting Palm-Andrea Butter 2002-03-04 The definitive behind-the-scenes story of the visionary team that launched the handheld industry. Palm insider Andrea Butter and New York Times columnist David Pogue -- with full, exclusive cooperation of the company's founders and more than fifty key Palm and Handspring executives -- tell the riveting tale of the start of an industry constantly in the headlines. The origins of this volatile industry began with the tiny team who beat staggering odds to turn the PalmPilot into a billion-dollar market and later took their ultimate vision to Handspring, now Palm's most powerful rival. Many of today's current events relating to the competition in this industry are forecasted in this important business drama. The authors take an unprecedented look at how the visionary founders of the industry led one of the most successful startups in history to succeed against all odds-including a shoestring budget, shortsighted corporate partners, and competition from Microsoft. The roller-coaster ride is full of insight into the bumbles of venture capitalists, the allure and pitfalls of partnerships with giant corporations, and the steely determination needed to maintain entrepreneurial and visionary independence. With gripping accounts of the last-minute crises that almost torpedoed the PalmPilot on the eve of its unveiling, and the triumphant, unprecedented reception of Palm in the marketplace, as well as the glimpses into the future of this industry, this book is as entertaining as it is instructional. Key revelations include: * The principles of business, economy, and product design that led Palm to succeed where billion-dollar corporations like Apple, Motorola, and Casio had failed. * Important moments in technological development of the handheld such as the secret "Easter egg," a software surprise planted in the Palm software that nearly sank launch plans. * Unique insight into the showdown with Microsoft, and 3Com's tragic decision not to make Palm independent that led Palm's founder Jeff Hanwkins and CEO Donna Dubinsky to take their vision elsewhere. * The ongoing competition between Palm and Handspring. The new rivals to contend with including Sony.

Natural History of the White-Inyo Range, Eastern California-Clarence A. Hall 1991-01-01 The White-Inyo Range--rising sharply from the eastern edge of Owens Valley--is one of the most extraordinary landscapes in the world. High, dry, and amazingly diverse, it boasts an expansive alpine tundra and features the oldest living species on earth--the 4,000-year-old Bristlecone Pines. This colorful and authoritative volume assembles a wealth of information of deep interest to the hikers and scientists attracted to White-Inyo's altitude and isolation. The nearly two dozen contributors to the volume are leading experts on the flora and fauna, the geology, geomorphology, meteorology, anthropology, and archaeology of the area. The book offers descriptions of more than 650 kinds of living organisms, from the handful of fish to the abundance of reptile, amphibian, bird and plant species. (It provides descriptions of hundreds of flowering plants.) It contains an 8-color geologic map and a roadside guide that enables the visitor to make sense of the area's complex geological history. Readers will also learn about air currents that make the range a delight for sailplane pilots and create strange cloud formations. And a special chapter tells what is known of the Native Americans who moved up and down the mountain slopes in response to seasonal changes. For anyone who wishes to visit this astonishing area or to do research there, this volume will be a unique, comprehensive resource. The Thought Readers (Mind Dimensions Book 1)-Dima Zales 2014-10-02 A new series about mind readers from a New York Times and USA Today bestselling author... Everyone thinks I'm a genius. Everyone is wrong. Sure, I finished Harvard at eighteen and now make crazy money at a hedge fund. But that's not because I'm unusually smart or hard-working. It's because I cheat. You see, I have a unique ability. I can go outside time into my own personal version of reality—the place I call “the Quiet”—where I can explore my surroundings while the rest of the world stands still. I thought I was the only one who could do this—until I met her. My name is Darren, and this is how I became entangled with all the Russians and learned that I'm a Reader.

Advanced BlackBerry Development-Chris King 2010-02-15 BlackBerry devices and applications are selling by the millions. As a BlackBerry developer, you need an advanced skill set to successfully exploit the most compelling features of the platform. This book will help you develop that skill set and teach you how to create the most sophisticated BlackBerry programs possible. With Advanced BlackBerry Development, you'll learn you how to take advantage of BlackBerry media capabilities, including the camera and video playback. The book also shows you how to send and receive text and multimedia messages, use powerful cryptography libraries, and connect with the user's personal and business contacts and calendar. Not only will you be learning how to use these application programming interfaces, but you'll also be building a program that takes full advantage of them: a wireless media-sharing app. Each chapter's lessons will be applied by enhancing the app from a prototype to a fully polished program. Along the way, yo'll learn how to differentiate your product from other downloads by fully integrating with the operating system. Your app will run in the browser and within device menus, just like software that comes with the phone. Once you are comfortable with writing apps, this book will show you how to take them to the next level. You'll learn how to move from running on one phone to running on all phones, and from one country to all countries. You'll additionally learn how to support your users with updates. No other resource compares for mastering the techniques needed for expert development on this mobile platform.

Botulinum Toxin in Painful Diseases-Wolfgang H. Jost 2003-01-01 The exceptionally successful history of botulinum toxin and its likely future has hardly an equivalent. Initially, it was used in strabismus, blepharospasm and hemifacial spasm, later also in focal dystonia and spasticity and it has been shown to effectively treat wrinkles, hyperhidrosis and a great number of ensuing indications. By treating symptoms or disorders associated with pain, its analgesic effect was first noticed. The efficacy and reasons for this side effect have since been investigated and a number of models explaining the mode of action have been presented. However, even if we know that botulinum toxin undoubtedly helps in certain pain syndromes, there is still much work to do to identify the major ones, define the optimum dose and the preferred site of injection. Indicating current positions and kindling the growing interest in this extraordinary therapeutic agent this book presents a timely overview on pain management with botulinum toxin. Thus, it will be of great interest especially for anesthesiologists and neurologists in their clinical work and medical research.

Murder at the Breakers-Alyssa Maxwell 2014-03-25 In a historical mystery for Downton Abbey fans, a society reporter covers a killer party in Gilded Age Newport. Newport, Rhode Island, August 1895: She may be a less well-heeled relation, but as second cousin to millionaire patriarch Cornelius Vanderbilt, twenty-one-year-old Emma Cross is on the guest list for a grand ball at the Breakers, the Vanderbilts' summer home. She also has a job to do—report on the event for the society page of the Newport Observer. But Emma observes much more than glitz and gaiety when she witnesses a murder. The victim is Cornelius Vanderbilt's financial secretary, who plunges off a balcony faster than falling stock prices. Emma's black sheep brother Brady is found in Cornelius's bedroom passed out next to a bottle of bourbon and stolen plans for a new railroad line. Brady has barely come to before the police have arrested him for the murder. But Emma is sure someone is trying to railroad her brother and resolves to find the real killer at any cost . . . “Sorry to see the conclusion of Downton Abbey? Well, here is a morsel to get you through a long afternoon. Brew some Earl Grey and settle down with a scone with this one.” —Washington Independent Review of Books “Emma's ebullience and the glittering details of Newport's gilded age past give the novel a brisk energy.” —Publishers Weekly “A great effort with intriguing characters and a solid murder mystery . . . Maxwell has written a delightfully complex tale.” —RT Book Reviews

Fitzgerald and Hemingway-Scott Donaldson 2009-07-22 F. Scott Fitzgerald and Ernest Hemingway might have been contemporaries, but our understanding of their work often rests on simple differences. Hemingway wrestled with war, fraternity, and the violence of nature. Fitzgerald satirized money and class and the never-ending pursuit of a material tomorrow. Through the provocative arguments of Scott Donaldson, however, the affinities between these two authors become brilliantly clear. The result is a reorientation of how we read twentieth-century American literature. Known for his penetrating studies of Fitzgerald and Hemingway, Donaldson traces the creative genius of these authors and the surprising overlaps among their works. Fitzgerald and Hemingway both wrote fiction out of their experiences rather than about them. Therefore Donaldson pursues both biography and criticism in these essays, with a deep commitment to close reading. He traces the influence of celebrity culture on the legacies of both writers, matches an analysis of Hemingway's Spanish Civil War writings to a treatment of Fitzgerald's left-leaning tendencies, and contrasts the averted gaze in Hemingway's fiction with the role of possessions in *The Great Gatsby*. He devotes several essays to four novels, *Gatsby*, *Tender Is the Night*, *The Sun Also Rises*, and *A Farewell to Arms*, and others to lesser-known short stories. Based on years of research in the Fitzgerald and Hemingway archives and brimming with Donaldson's trademark wit and insight, this irresistible anthology moves the study of American literature in bold new directions.
