Nothing Feels Good-Andy Greenwald 2003-11-15 Nothing Feels Good: Punk Rock, Teenagers, and Emo tells the story of a cultural moment that's happening right now-the nexus point where teen culture, music, and the web converge to create something new. While shallow celebrities dominate the headlines, pundits bemoan the death of the music industry, and the government decries teenagers for their morals (or lack thereof) earnest, heartfelt bands like Dashboard Confessional, Jimmy Eat World, and Thursday are quietly selling hundreds of thousands of albums through dedication, relentless touring and respect for their fans. This relationship - between young people and the empathetic music that sets them off down a road of self-discovery and self-definition - is emo, a much-maligned, mocked, and misunderstood term that has existed for nearly two decades, but has flourished only recently. In Nothing Feels Good, Andy Greenwald makes the case for emo as more than a genre - it's an essential rite of teenagehood. From the '80s to the '00s, from the basement to the stadium, from tour buses to chat rooms, and from the diary to the computer screen, Nothing Feels Good narrates the story of emo from the inside out and explores the way this movement is taking shape in real time and with real hearts on the line. Nothing Feels Good is the first book to explore this exciting moment in music history and Greenwald has been given unprecedented access to the bands and to their fans. He captures a place in time and a moment on the stage in a way only a true music fan can.

Algeria-Martin Evans 2008-01-14 After liberating itself from French colonial rule in one of the twentieth century's most brutal wars of independence, Algeria became a standard-bearer for the non-aligned movement. By the 1990s, however, its revolutionary political model had collapsed, degenerating into a savage conflict between the military and Islamist guerrillas that killed some 200,000 citizens. In this lucid and gripping account, Martin Evans and John Phillips explore Algeria's recent and very bloody history, demonstrating how the high hopes of independence turned into anger as young Algerians grew increasingly alienated. Unemployed, frustrated by the corrupt military regime, and excluded by the West, the post-independence generation needed new heroes, and some found them in Osama bin Laden and the rising Islamist movement. Evans and Phillips trace the complex roots of this alienation, arguing that Algeria's predicament-political instability, pressing economic and social problems, bad governance, a disenfranchised youth-is emblematic of an arc of insecurity stretching from Morocco to Indonesia. Looking back at the pre-colonial and colonial periods, they place Algeria's complex present into historical context, demonstrating how successive governments have manipulated the past for their own ends. The result is a fractured society with a complicated and bitter relationship with the Western powers-and an increasing tendency to export terrorism to France, America, and beyond.
