Blood In The Water

**Blood in the Water**-Jack Flynn 2019-09-24 Jack Flynn's Blood in the Water is an edge-of-the-seat ride in a roller coaster, action-packed thriller with international terrorism at its core and family at its heart. Boston is in the grip of the coldest winter on record, but in its criminal underworld the temperature is rising. Harbor chief Cormack O'Connell has lived his life close to the wire - above and below the law. He knows every movement on his waterfront, and that's why someone wants him out of the way, fast. Homeland security agent Kit Steele is committed to avenge terrorism. Also known as The Hunter, she's got her eye on the prize. This time it's personal, and she has nothing left to lose. Her prey is Vicente Carpio, one of the world's most dangerous criminals. He is clever, calculating and he's biding his time. Diamond O'Connell is a daughter, a lover and a fighter. She's seen things most nineteen-year-old girls couldn't even begin to imagine. And she's about to become a pawn in a deadly game of cat and mouse. Everyone has their part to play, but now it seems that there are much darker, far-reaching forces at work which look to be preparing for the international stage.

Blood Water Paint

**Blood Water Paint**-Joy McCullough 2019-03-05 "When I finished this novel, I knew I would be haunted and empowered by Artemisia Gentileschi's story for the rest of my life."--Amanda Lovelace, bestselling author of the princess saves herself in this one A William C. Morris Debut Award Finalist 2018 National Book Award Longlist Her mother died when she was twelve, and suddenly Artemisia Gentileschi had a stark choice: a life as a nun in a convent or a life grinding pigment for her father's paint. She chose paint. By the time she was seventeen, Artemisia did more than grind pigment. She was one of Rome's most talented painters, even if no one knew her name. But Rome in 1610 was a city where men took what they wanted from women, and in the aftermath of rape Artemisia faced another terrible choice: a life of silence or a life of truth, no matter the cost. He will not consume my every thought. I am a painter. I will paint. Joy McCullough's bold novel in verse is a portrait of an artist as a young woman, filled with the soaring highs of creative inspiration and the devastating setbacks of a system built to break her. McCullough weaves Artemisia's heartbreaking story with the stories of the ancient heroines, Susanna and Judith, who become not only the subjects of two of Artemisia's most famous paintings but sources of strength as she battles to paint a woman's timeless truth in the face of unspeakable and all-too-familiar violence. I will show you what a woman can do. Blood Water

**Blood Water**-Dean Vincent Carter 2009-10-06 They're all dead now. I am the last one. Dr Morrow can't identify the 'thing' he found living in the lake but he knows it's dangerous . . . then it goes missing . . . Caught in the flood that is devastating the town, brothers Sean and James stumble across Morrow and the carnage left at his lab. The missing specimen is some kind of deadly parasite that moves from person to person, destroying its hosts in disgusting, gory ways. The death toll will rise along with the waters unless the brothers can track down the homicidal specimen and find a way to destroy it.

Blood and Water

**Blood and Water**-Briana Morgan 2017-03-04 Seventeen-year-old Jay Harris lives in a world struck down by a deadly virus. His parents are dead, along with half the planet. When Jay's sister Maia falls ill, he must find a cure before he loses her, too. But unbekownst to Maia, Jay is also sick... and he's running out of time to save them both. When Jay's friends tell him there might be a cure for him in France, he must decide whether to pursue it. The journey will be difficult and dangerous, especially in his weakened state, but with little time left-for himself and for Maia-it soon becomes clear there's no other choice. Jay leaves the relative comfort of London to search for help, knowing he may never find it. Along the way, he experiences the effects of disaster on the bonds of friendship and fluctuating notions of family. These teens, decimated by a dangerous plague, face stark choices in their search for help, not knowing if their efforts will end in loss and pain. Will Jay and Maia find a cure before the virus takes them?

Blood in the Water

**Blood in the Water**-Silver Donald Cameron 2020-08-11 A brutal murder in a small Maritime fishing community raises urgent questions of right and wrong, and even the nature of good and evil, in this masterfully told true story. In June 2013, three upstanding citizens of a small Cape Breton town cold-bloodedly murdered their neighbour, Phillip Boudreau, at sea. While out checking their lobster traps, two Landry cousins and skipper Dwayne Samson saw Boudreau in his boat, the Midnight Slider, about to vandalize their lobster traps. Like so many times before, Boudreau was about to cost them thousands of dollars out of their seasonal livelihood. One man took out a rifle and fired four shots at Boudreau and his boat. To finish the job, they rammed their own larger boat over the top of his speedbat. Boudreau's body was never found. Then they completed the day's fishing and went home to Petit de Grat on Isle Madame. Boudreau was a Cape Breton original--an inventive small-time criminal who had terrorized and entertained Petit de Grat for two decades. He had been in prison for nearly half his adult life. He was funny and frightening, loathed, loved, and feared. One neighbour says he would "steal the beads off Christ's moccasins"--then give the booty away to someone in need. He would taunt his victims, and threaten them with arson if they reported him. He was accused of one attempted rape. Meanwhile the police and the Fisheries officers were frustrated, cowed, and hobbled by shrinking budgets. Boudreau seemed invincible, a miscreant who would plague the village forever. Cameron, a resident of the area since 1971, argues that the Boudreau killing was a direct reaction to credible and dire threats that the authorities were powerless to neutralize. As many local people have said, if those fellows hadn't killed him, someone else would have. Like Say Nothing, The Perfect Storm, The Golden Spruce, and Into Thin Air, this book offers a dramatic narrative set in a unique, lovingly drawn setting, where a story about one small community has universal resonance. This is a story not about lobster, but about the grand themes of power and law, security and self-respect. It raises a disturbing question: Are there times when taking the law into your own hands is not only understandable but the responsible thing to do?

Blood in the Water

**Blood in the Water**-Heather Ann Thompson 2017-08 "Historian Heather Ann Thompson offers the first definitive telling of the Attica prison uprising, the state's violent response, and the victims' decades-long quest for justice--in time for the forty-fifth anniversary of the events"--

Blood on the Water

**Blood on the Water**-Anne Perry 2015-09-15 On a summer afternoon, the pleasure boat Princess Mary explodes on the Thames, sending nearly two hundred merrymakers to their death. But the tragedy is no accident. As public outrage grows, William Monk, Commander of the River Police, presents evidence that the quickly apprehended suspect was elsewhere at the time of the blast.

Blood, Salt, Water

**Blood, Salt, Water**-Denise Mina 2015-12-01 Detective Alex Morrow discovers that the darkest secrets never stay buried as she investigates the criminal underbelly of a seemingly tranquil seaside town. For reasons she can't quite explain, Alex Morrow is addicted to watching surveillance footage of Roxanna Fuentecilla--a gorgeous Spanish mother of two, in a tempestuous relationship with her boyfriend, who recently relocated to Glasgow under mysterious circumstances. She is also Morrow's prime suspect in an investigation that resembles a soap opera, filled with glamorous jetsetters and enough money to interest the highest levels of law enforcement. Until Roxanna vanishes. Morrow traces Roxanna's steps to Helensburgh, a sleepy, picturesque seaside community. But behind the idyllic Victorian homes and quaint storefronts, darkness lurks. Home to a man with blood on his hands who is haunted by guilt, a mysterious woman with ulterior motives back in town for the first time in decades, a sexually frustrated restaurateur looking to blow off steam, and a crew of vicious small-time gangsters blindly following orders, it's a town ruled by base instincts where no one is quite what they seem. And it's the perfect place to get rid of someone. When she uncovers an unsettling connection to Roxanna's job back in Glasgow, Morrow suspects that her missing person is more than a white-collar criminal on the lam--she may also be a victim caught up in a sophisticated conspiracy that stretches far beyond Helensburgh and is more personal than Morrow ever imagined. As the truth rises to the surface and the conflicts that lie beneath Helensburgh's calm waters threaten to explode, Morrow must find Roxanna before any hope of solving the case disappears with her. A gripping tale of greed, power, and vengeance, Blood, Salt, Water is a masterful crime novel from Denise Mina that confirms her reputation as "one of the genre's brights stars" (George Pelecanos).

And the Waters Turned to Blood

**And the Waters Turned to Blood**-Rodney Barker 2013-12-03 In this account, Rodney Barker tells the full and terrifying story of a microorganism popping up along the Eastern seaboard--far closer to home than the Ebola virus and equally frightening. In the coastal waters of North Carolina--and now extending as far north as the Chesapeake Bay area--a mysterious and deadly aquatic organism named Pfiesteria piscicida threatens to unleash an environmental nightmare and human tragedy of catastrophic proportions. At the very center of this narrative is the heroic effort of Dr. JoAnn Burkholder and her colleagues, embattled and dedicated scientists confronting medical, political, and corporate powers to understand and conquer this new scourge before it claims more victims.

Blood and Water

**Blood and Water**-Gary C. Hassmann M.D. 2018-08-07 The sacrificial death of Jesus Christ is the most important and cherished event in human history. Still, the accurate cause of how Jesus died remains a mystery to this day. Dr. Gary Hassmann relies on his years of experience as a physician and surgeon to utilize his findings gathered from three decades of extensive scriptural studies, medical research, and pilgrimages to the Holy Land and Rome to unravel and solve the mystery of how Jesus died. By shining a fresh light on the prophetic scriptures, the transcendence of blood and water, the effects of the Christ event such as redemption and reconciliation, and a new perspective collected from the twenty-first century medical sciences, Dr. Hassmann invites others to contemplate a fascinating theory about Christ's death and ultimately glean more robust spiritual truths about God's meaning and prophetic messages. Blood and Water presents original research of the sacred scriptures and the modern medical sciences that faithfully and thoughtfully deciphers and solves the mystery of how Jesus died.

Blood in the Water

**Blood in the Water**-Joan Mellen 2018-12-11 Presents evidence suggesting collusion between US and Israeli intelligence in the attack on a US naval surveillance vessel during the Six-Day War and the more than fifty-year long cover-up. On June 8, 1967, the USS Liberty, an unarmed intelligence ship reporting to the Joint Chiefs of Staff under the auspices of the National Security Agency, was positioned in international waters off the coast of Egypt when it was attacked with deadly violence by unmarked jet planes firing rockets and machine guns and throwing napalm onto its deck. This ambush was followed by a torpedo strike that blew a forty-foot hole in the starboard side of the ship. Lacking the capacity to defend themselves, thirty-four sailors were killed and 174 wounded, many for life. By the end of the day, Israel had confessed to having been the aggressor, simultaneously arguing that the attack had been an "accident" and a "mistake." The facts said otherwise. So intense and sustained was the attack - it lasted for nearly an hour and a half - so specific was the aiming for the antennae and satellite dish on deck, that it was scarcely credible that Israel's aggression was not deliberate; such was the view of Marshall Carter, the director of the National Security Agency, his deputy director Louis Tordella, and Richard Helms, the Director of Central Intelligence. Based on interviews with more than forty survivors, knowledgeable political insiders, and Soviet archives of the period, investigative writer Joan Mellen presents evidence suggesting complicity between US and Israeli intelligence in the attack on Liberty and the more than fifty-year long cover-up. What were the underlying motives? Was this a false flag operation conducted in the midst of the Six-Day War? Was it conceivable that Israel would have initiated such an operation without a green light from the United States? For the sake of justice, truth and the murdered and surviving sailors, this is a story demanding to be told.

Blood and Water

**Blood and Water**-David Gilmartin 2020-04-14 The Indus basin was once an arid pastoral watershed, but by the second half of the twentieth century, it had become one of the world's most heavily irrigated and populated river basins. Launched under British colonial rule in the nineteenth century, this irrigation project spurred political, social, and environmental transformations that continued after the 1947 creation of the new states of India and Pakistan. In this first large-scale environmental history of the region, David Gilmartin focuses on the changes that occurred in the basin as a result of the implementation of the world's largest modern integrated irrigation system. This masterful work of scholarship explores how environmental transformation is tied to the creation of communities and nations, focusing on the intersection of politics, statecraft, and the environment.

The Water and the Blood

**The Water and the Blood**-Nancy E. Turner 2009-10-13 I turned and faced the road we'd come down, my face hard and set. The kids moved on without me. I could still see a slight glow and the murky, gray smoke reaching above the trees, where it spread to the south.... When I thought they were out of earshot, I took a deep breath. "You lied to me," I whispered toward the building, to all the people it represented, to the hours I'd spent on those hard, split-log seats, and to my childish epiphanies born there .... "You lied," I said. "These are my best friends now." Rare is the gift of a writer who is able to conjure up the voices of very different worlds, to give them heat and power and make them sing. Such is the talent of Nancy E. Turner. Her beloved first novel, These Is My Words, opened readers to the challenges of a woman's life in the nineteenth-century Southwest. Now this extraordinary writer shifts her gaze to a very different world -- East Texas in the years of the Second World War -- and to the life of a young woman named Philadelphia Summers, known against her will as Frosty. From the novel's harrowing opening scene, Frosty's eyes survey the landscape around her -- white rural America -- with the awestruck clarity of an innocent burned by sin. In her mother and sisters she sees fear and small-mindedness; in the eyes of local boys she sees racial hatred and hunger for war. When that war finally comes, it offers her a chance for escape -to California, and the caring arms of Gordon Benally a Native-American soldier. But when she returns to Texas she must face the rejection of a town still gripped by suspicion -- and confront the memory of the crime that has marked her soul since adolescence. Propelled by the quiet power of one woman's voice, The Water and the Blood is a moving and unforgettable portrait of an America of haunted women and dangerous fools -- an America at once long perished and with us still.

Water Is Thicker than Blood

**Water Is Thicker than Blood**-Jana Marguerite Bennett 2008-03-04 This book considers how homes, households, and domestic life are related to the Church. Early theologies glorified the monastic lifestyle as a way to transcend earthly attachments in favor of supernatural goods. Contemporary thinkers have seen that functioning marriages and families themselves can lead us toward a more righteous society. Jana Bennett insists that both marriage and singleness must be placed in the context of the Christian story of redemption for the questions and problems at stake to be fully understood. She finds that Augustine of Hippo, maligned by modern theologians, is the source of very fruitful reflection on these topics. Most scholars today would agree that Augustine's works have exerted great influence on Western views of marriage, family, and sex. But many would argue that this influence has been detrimental to a healthy understanding of these topics. However, using Augustine's writing, Bennett shows that marriage and singleness cannot be considered separately, that gender issues are important to considering these states correctly and, most important, that the marriage between Christ and the Church is the first consideration in understanding and living these states of life. The water of baptism, Christians' first birth and initiation into the life of Christ, is the primary standard for relationships, rather than familial ties.

Blood and Water and Other Tales

**Blood and Water and Other Tales**-Patrick McGrath 1988 Severed hands, dead monkeys, swarming insects, pickled body parts and menacing pygmies proliferate in this collection of short stories. They also feature ancient Southern plantations, isolated manor houses, places where ghosts like to lurk and places where spiritual and physical decay presides.

One Thousand Wells

**One Thousand Wells**-Jena Lee Nardella 2015-08-25 Jena Nardella, cofounder of Blood:Water and one of Christianity Today's 33 Under 33, shares how her passion for saving the world grew into a humbler long-term calling of loving the world in all its brokenness in this beautifully written memoir. Over the years, I have discovered that we are not called to change the world. We are called to love the world. And to love the world, we are the ones who must change. Ten years ago, Jena Lee Nardella was a fresh-out-of-college, twenty-something with the lofty goal of truly changing the world. Armed with a diploma, a thousand dollars, and a dream to build one thousand wells in Africa, she joined forces with Grammy Award-winning band Jars of Clay to found Blood:Water and begin her mission. Jena's dream for her nonprofit turned that initial \$1 into \$20, and then \$100, and today into more than a \$30 million. Working throughout eleven countries in Africa, Blood:Water has served over 50,000 people with HIV/AIDS and has partnered with communities to provide clean water for nearly one million Africans. But along the way she faced many harsh realities that have tested her faith, encountered corruption and brokenness nearly destroy everything she'd fought for, and taught her that wishful thinking will not get you very far. Jena discovered that true change comes only when you stop trying save the world and allow yourself to love it, even when it breaks your heart. With a fresh, intelligent, and winsome voice, Jena Nardella weaves an evocative personal narrative filled with honest and hard-won lessons that demonstrate the amazing things that can happen when you fight for your dreams. \*A portion of the proceeds from this book will support Blood:Water.

FIASCO

**FIASCO**-Frank Partnow 2009-04-06 A paperback edition of a best-selling tour of the cutthroat world of Wall Street derivatives in the 1990s features a new epilogue and tracks the author's experiences as a successful young Morgan Stanley employee, in an account that traces the period's speculative frenzies and the ways in which they directly contributed to highly publicized losses. Reprint.

WATER: The Blood of the Earth

**WATER: The Blood of the Earth**-Allerd Stikker 2007-10-01 "Allerd Stikker has always reminded me of Alexis de Tocqueville, who would have chosen to study the problem surrounding water rather than the American democracy. He has the same insatiable curiosity, the same energy, same passion, same ease in mixing analysis with intuition, the capacity to draw together different cultures, the same capacity to listen and to dialogue with those who reason from different starting blocks. "Water, the Blood of the Earth is the outcome of reflection and action of a cosmopolitan who has remained loyal to his native land, mixing some European thinking of the Age of Enlightenment with some futuristic viewpoints." -Charles Louis de Maudhuy, advisor to the chairman, Veolia Water "Lack of access to clean and sufficient water in many parts of the world, especially in Asia and Africa, will be a major issue in the coming decades. "This book presents an overall view on the diversity of problems and solutions, based on the author's involvement in water-related projects. Over the course of the years I have followed some of these projects with interest; they inspire us to take concrete actions." -Antony Burgmans, former chairman, Unilever "In this book Allerd describes his convincing views on desalination solutions for local and urban clean water shortages as well as his deeply felt findings on the spiritual meanings of water, all assembled on a 20 years' journey on which I was lucky to travel along." -Leonor Lindner

Blood and Water

**Blood and Water**-Dan Kurzman 1997-01-15 The story of how a desperate clandestine mission in Norway ended the Nazi dream of building the atomic bomb.

Creed City Chronicles: Blood in the Water

**Creed City Chronicles: Blood in the Water**-Duncan W. Lievi 2018-02-08 In search for the truth about the death of his parents, Edward Banes goes after the patriarch of the menacing Anvil crime family, Derek Anvil. Unbeknownst to them, the long-forgotten heir to a rival dynasty of Creed City enters the fold to take back what is rightfully his. With righteousness tested at every turn, in the midst of blood, terror, pride and betrayal, here is a tale of heartbreak, vengeance, love and loss, guided by the fundamental nature of choice. An ambitious daughter looking to carve a new path; the prodigal son of a forgotten clan; a mysterious figure operating from the shadows; a loyal protector struggling not to break his oath; an assassin with a checkered past - these are but a few of the many pillars that carry this saga of alliances, affection, loyalty and conflict. In pursuit of purpose that often dilutes the dichotomy between good and bad, right and wrong, this tale is about select people and their motivations, decisions and actions as they try to survive in the ever-lively locale known to man as Creed City, Provenance.

Blood in the Water

**Blood in the Water**-Walter Champion 2021-05 This book looks at the phenomenon of mass tort litigation in the light of corporate greed.

**The Blood of the Covenant is Thicker Than the Water of the Womb**-Shema B 2019-11-08 The Blood of the Covenant is Thicker than the Water of the Womb is the original saying of the idiom Blood is Thicker than Water. It means that people who have shed blood together in the battlefield (blood of the covenant) have a stronger bond than familial ties (water of the womb) which is quite the opposite of the latter - more popular saying.

**Blood in the Water**-M a Kersh 2019-05-17 In this thrilling debut novel from writer M.A Kersh, the true events of the famous childhood story about the much loved Peter Pan, and the villainous pirate known as Captain Hook is finally revealed for the very first time.James Hook's story began in Wales, where he was left on the steps of the Moore Orphanage as a baby. James is bullied by Peter and his followers, leaving him a lonely outcast who dreams of a life out on the sea. After a Scarlet Fairy visits James, he discovers the frightening side of magic. He resists her charms, but after being nearly beaten to death by Peter and his friends, the Scarlet Fairy torments his dreams as he lay broken in the hospital wing. However, James finds he is not alone as one of the nuns within the orphanage comes to comfort and aid him with a mother's love. But when her efforts fail him, she decides to sacrifice her own soul for the protection from all fae magic for James. When James wakes the following morning, his heart is broken to find the woman he had come to love is dead. He vows revenge upon the Scarlet Fairy and the very boy who put him in her view in the first place, Peter. James plans to make Peter the fae's new target, but everything goes wrong as the clever Peter concocts an unusual deal with a Green Fairy. Instead of sacrificing his own soul, he offers to spend his immortal life collecting children's souls in exchange for all the powers of the fae. The Green Fairy accepts the deal, and the two new friends fly away to their new home Neverland.Unsure of Peter's fate, James leaves the orphanage to board Blackbeard's ship under the alias name, Hook. Years go by, but Hook's bitterness only continues to grow. Then one night, Peter, now known as Pan, confronts him. When Hook learns that the fault of so many stolen souls was his own, with guilt and rage, Hook wages war upon his former childhood foe. He would have to sail the famed Jolly Roger through into the Nine Realms beyond the hidden veils to exact his revenge and set all of the lost souls on the island free. The journey is one of magic, true love, darkness, lore, and redemption. Like Serena Valentino's Fairest of All, Blood in the Water offers an entirely new version of the beloved classic, bringing each reader a touch a grim, dark, twisted retelling of the story of Neverland. The characters that come along for the enchanted journey includes, Blackbeard, The Blue Fairy, Wendy Darling, Tiger Lily, Mr. Smee, Catcher, and of course, Tinker Bell. In this story of heroes and villains, you may find that what you have formally believed was a lie, but fear not my darlings, for there is always a wish that can grant you your second chance.

**Blood in the Water**-Silver Donald Cameron 2021-05-06 ‘Fascinating’ Margaret Atwood Can taking the law into your own hands be the right thing to do? **Regulation of Tissue Oxygenation, Second Edition**-Roland N. Pittman 2016-08-18 This presentation describes various aspects of the regulation of tissue oxygenation, including the roles of the circulatory system, respiratory system, and blood, the carrier of oxygen within these components of the cardiorespiratory system. The respiratory system takes oxygen from the atmosphere and transports it by diffusion from the air in the alveoli to the blood flowing through the pulmonary capillaries. The cardiovascular system then moves the oxygenated blood from the heart to the microcirculation of the various organs by convection, where oxygen is released from hemoglobin in the red blood cells and moves to the parenchymal cells of each tissue by diffusion. Oxygen that has diffused into cells is then utilized in the mitochondria to produce adenosine triphosphate (ATP), the energy currency of all cells. The mitochondria are able to produce ATP until the oxygen tension or PO2 on the cell surface falls to a critical level of about 4-5 mm Hg. Thus, in order to meet the energetic needs of cells, it is important to maintain a continuous supply of oxygen to the mitochondria at or above the critical PO2 . In order to accomplish this desired outcome, the cardiorespiratory system, including the blood, must be capable of regulation to ensure survival of all tissues under a wide range of circumstances. The purpose of this presentation is to provide basic information about the operation and regulation of the cardiovascular and respiratory systems, as well as the properties of the blood and parenchymal cells, so that a fundamental understanding of the regulation of tissue oxygenation is achieved.

It was a simple calculation; at best, a lifetime in prison, at worst he'd be killed by the police while attempting to complete his self-appointed task . . . Introducing Alice Rice, Edinburgh detective. Smart and capable, but battling disillusionment and loneliness, she races against time and an implacable killer to solve a series of grisly murders among Edinburgh's professional elite in the well-to-do New Town. Praise for Blood in the Water “With this highly readable debut novel, Gillian Galbraith establishes what one hopes will be a long-running presence. This is a vivid and exciting story, set against the background of Edinburgh's legal and medical circles. There is not a dull page from start to finish.” —Alexander McCall Smith “Chilling realism.” —Edinburgh Evening News (UK)

**Blood Into Water**-R. P. Clair 2020-11-12 "Blood into Water: A Case of Social Justice is a novel that weaves together the past and the present, from Mayan legends to contemporary stories of corporate greed. The story connects a mother and son, Sofia and Miguel Rodríguez, to a corporate scheme of exploitation uncovered by reporter Caleb Barthes. Barthes is sent to Nicaragua on an investigative assignment to look into water privatization plans. He learns far more than he expects about the environmental, political, and cultural issues surrounding 'water.' Perhaps more importantly, he learns about postcolonial exploitation and his own complicity, as well as the loss that can follow, not only for himself, but others. This novel, inspired by the Bolivian Water Wars, offers students a creative text dealing with an environmental issue that leads to a social movement. Anthropologists, archaeologists, historians, rhetoricians, sociologists, psychologists, political scientists, as well as scholars of business, organizational communication, interpersonal communication, cultural studies and environmental studies will easily find a place in the curriculum for this novel. It is both a stand-alone novel and a sequel to the popular novel, Zombie Seed and the Butterfly Blues: A Case of Social Justice (2013)"--
