**Star Sojourner Two**-Jean Kilczer 2014-10-25 Book Four: The Blood of Denebria, pits our hero, Jules Rammis, astrobiologist, telepath, and all-around adorable but reckless nice guy, and his team, against General Rowdinth, the crazed ruler of planet Fartherland, who vows to destroy Earth and all Terrans with his planet-killing weapon. Book Five: Satan's Forge, sees Jules kidnapped by a ruthless Altairian overlord who wants to use his telepathic powers to keep the slave miners under his boot. Well, Jules isn't about to let that happen. In fact, at the risk of life and limb, he is determined to shut down the slave mine. Book Six: TangleRoot, has Jules fighting some Mafia bad guys and an alien race that doesn't like to share. If that isn't enough to keep our hero busy, there's a plant/animal that relishes humans for lunch. But not to worry, his ever-faithful team is by his side. Come along for the wild ride in these action adventure science fiction stories.

**Blood of Denebria**-Jean Kilczer 2013-10 Jules Rammis, telepath, astrobiologist, and reluctant hero, has faced a lot of nasty aliens and Terrans in his adventures. But never a race so sinister, so cruel, that it invades the peaceful planet of Denebria specifically to use its people as a food supply. Jules is drawn into the fray when his former father-in-law and team leader, retired W-CIA Counter Terrorist captain Joe Hatch, convinces Jules to accompany his team to Denebria as one more undercover agent posing as a consultant. Jules must attempt to discover the BEMs' homeworld in a mindlink with a BEM leader, and allow the Worlds Alliance forces to engage the brutal race on their own turf. It should be an easy walk in the park, but the BEMs show a little more resourcefulness than anyone expected, and Jules and the team find themselves in a fight for their own lives. Jules is compelled to increase his powerful tel abilities even further. But is it enough to vanquish the BEMs' All Mother, giant producer of thousands of eggs and a powerful telepath in her own right, or has Jules finally met his match?

**Scar**-Michael Cole 2020-10-26 Scar is a killing machine. Born from DNA spliced between the extinct Megalodon and modern day Great White, he has a viciousness that transcends time. His evil is reflected in his eyes, his savagery in his two-inch serrated teeth, his ruthlessness in his trail of death. After escaping captivity, the killer shark travels to the island community Cross Point, where prey is in abundance. With an insatiable appetite, heightened senses, and skin impervious to bullets, Scar kills everything that crosses his path. His reign of terror puts him at war with the island sheriff, Nick Piatt. With the body count rising, Nick vows to protect his island community from the vicious threat. With the aid of a marine biologist, a rookie deputy, and a bad-tempered fisherman, Nick leads a crusade against Scar, as well as the ruthless scientist who created him.

**Sam's Song**-Hannah Howe 2014-11-05 Love Hurts. For Derwena de Caro, songstress, female icon, teenage dream, success brought drugs, alcohol and a philandering boyfriend. It also brought wealth, fame and a stalker, or so she claimed. And that's where I came in, to investigate the identity of the stalker, little realising that the trail would lead to murder and a scandal that would make the newspaper headlines for months on end. Love Hurts. For me, Samantha Smith, Enquiry Agent, love arrived at the end of a fist. First, I had to contend with an alcoholic mother, who took her frustrations out on me throughout my childhood, then my husband, Dan, who regarded domestic violence as an integral part of marriage. But I survived. I obtained a divorce, kept my sense of humour and retained an air of optimism. I established my business and gained the respect of my peers. However, I was not prepared for Dan when he re-entered my life, or for the affection showered on me by Dr Alan Storey, a compassionate and rather handsome psychologist. Sam's Song. This is the story of a week that changed my life forever.

**Deep Madness: Shattered Seas**-Byron Leavitt 2020-12-15 Minds. Seas. Dimensions. All will shatter like glass.His muscles elastic and his mind fragmented, Connor Durham awakens on an unknown beach. In the distance before him is a black tower whose peak rises to meet the clouds. In the water behind him are beings who used to be human, their bodies warping and twisting into horrific new configurations. With nowhere else to turn, Connor runs for the tower. In the Kadath deep-sea mining facility, Lucas Kane feels haunted. He dreams of lives he never lived and hears whispers from people who don't exist. During his days, four grey figures vibrate in and out of focus behind him, their words mostly unintelligible mutters. But there's something else, too, which he sees while both awake and asleep: a sphere, massive, metallic, and beautiful, which awaits him outside Kadath's walls at the bottom of the ocean. Separated by dimensions, these two men - and their unfolding stories - are intrinsically linked. As they descend deeper into the dark terrors of the unknown, they will draw inextricably closer together until, at last, both men find themselves trapped in the very depths of otherworldly madness. Welcome to Shattered Seas.

**Multi-Scale Integrated Analysis of Agroecosystems**-Mario Giampietro 2003-11-24 Ecologists, agronomists, and others who may question the validity of current models for determining sustainable growth of agroecosystems, need a new set of analytical tools that more effectively address the complex nature of related processes. Those who challenge traditional assumptions of optimization and static factors in agricultural modeling demand new methods beyond differential equations and traditional statistical tests. Multi-Scale Integrated Analysis of Agroecosystems explores alternative ways to study agricultural sustainability, presenting new approaches to organizing data and applying complex systems theory to actual cases. This innovative text recognizes the changing dynamics of the multiple processes and cross-relations within an environment, proposing a clearer analysis of agroecosystems than that which can be provided by rigid, reductionist methods. Main concepts, new vocabulary and narratives, and practical examples open the book, followed by technical chapters that provide a more detailed explanation of concepts. The final section of the book presents a tool kit based on these concepts, resulting in strong support of empirical observations that challenge traditional notions regarding the sustainability of farming systems, food systems, and agroecosystems.
