Blood Ties-Ben Crane 2020 "Raised in rural England before the internet era, Ben Crane grew up in the midst of wild things, with hawks and other predatory birds alive in his mind (and woods and fields) as symbols of a kind of self-possessed, solitary power. He spent time

with them, knew them, and loved them. But as he grew into adulthood, situations that may seem to us natural, or even comforting, were for him challenging: he found it difficult to be around other people and to read social cues, sometimes retreating in fear or lashing out in misunderstanding. He was recognized as autistic. When Crane became a father, these challenges became unbearable, and he fled to isolation. Birds--specifically hawks--brought him back. In this artfully written memoir, we learn first about the history and practice of falconry, a beautiful and brutal partnership between humans and birds that goes back thousands of years. As the chapters unfold, the details of Crane's personal story are revealed, and we begin to understand how Crane found solace and insight via his relationships with these animals. "I saw that my feelings towards nature, and birds of prey in particular, ran in parallel with my feelings for my son," Crane writes. "I worked out that they were, in fact, two sides of the same coin--the deep love of one could, with gentle observation, inform and unlock the deep love for the other...Perhaps this then is the central theme of my story."--

How does one become the leader of the world's newest superpower? And who holds the real power in the Chinese system? In *The New Emperors*, the noted China expert Kerry Brown journeys deep into the heart of the secretive Communist Party. China's system might have its roots in peasant rebellion but it is now firmly under the control of a power-conscious Beijing elite, almost half of whose members are related directly to former senior Party leaders. Brown reveals the intrigue and scandal surrounding the internal battle raging between two China's: one founded by Mao on Communist principles, and a modern China in which 'to get rich is glorious'. At the centre of it all sits the latest Party Secretary, Xi Jinping - the son of a revolutionary, with links both to big business and to the People's Liberation Army. His rise to power is symbolic of the new emperors leading the world's next superpower.

Irish Women Writers and the Modern Short Story-Elke D'hoker 2016-07-28 This book traces the development of the modern short story in the hands of Irish women writers from the 1890s to the present. George Egerton, Somerville and Ross, Elizabeth Bowen, Mary Lavin, Edna O'Brien, Anne Enright and Claire Keegan are only some of the many Irish women writers who have made lasting contributions to the genre of the modern short story - yet their achievements have often been marginalized in literary histories, which typically define the Irish short story in terms of its oral heritage, nationalist concerns, rural realism and outsider-hero. Through a detailed investigation of the short fiction of fifteen prominent writers, this study aims to open up this critical conceptualization of the Irish short story to the formal properties and thematic concerns women writers bring to the genre. What stands out in thematic terms is an abiding interest in human relations, whether of love, the family or the larger community. In formal terms, this book traces the overall development of the Irish short story, highlighting both the lines of influence that connect these writers and the specific use each individual author makes of the short story form.

Making Families-Jane Ribbens McCarthy 2017-09-08 This book goes to the heart of academic, political and popular debates, as well as professional concerns, about the nature of contemporary family life and parenting. Families are widely discussed in western societies as breaking down or as radically changing, with step-families in particular seen as evidence of such trends. In one of the first British in-depth sociological research studies for over two decades, this book provide evidence of parents' and step-parents' own understandings and experiences of their parenting in step-families. It addresses questions such as: What does it mean to be a family? Do people in step-families see themselves as making a different kind of family? Is individual happiness in a couple relationship prioritised at the expense of responsibilities towards children? Can a step-parent ever be regarded as the same as a biological mother or father? What do people in step-families do to try to make step-family life work? The book looks at how people create, understand and experience their parenting and family lives. It reveals how these understandings are rooted in a strong sense of moral responsibility, but that what such responsibility constitutes varies according to gender and social class. In particular, it draws out key theoretical implications for understanding the nature of morality, fairness and justice, and questions ideas about individualisation and the democratisation of family life. This book will be essential reading for those concerned with the study of contemporary family lives, including sociologists, social policy analysts, family therapists, professionals and practitioners. It is also relevant to those interested in contemporary morality and everyday experiences.

Ties that Bind-Sarah Schulman 2009 Although acceptance of difference is on the rise in America, it's the rare gay or lesbian person who has not been demeaned because of his or her sexual orientation, and this experience usually starts at home, among family members. Whether they are excluded from family love and approval, expected to accept second-class status for life, ignored by mainstream arts and entertainment, or abandoned when intervention would make all the difference, gay people are routinely subjected to forms of psychological and physical abuse unknown to many straight Americans. "Familial homophobia," as prizewinning writer and professor Sarah Schulman calls it, is a phenomenon that until now has not had a name but that is very much a part of life for the LGBT community.

In the same way that Susan Brownmiller's *Against Our Will* transformed our understanding of rape by moving the stigma from the victim to the perpetrator, Schulman's *Ties That Bind* calls on us to recognize familial homophobia. She invites us to understand it not as a personal problem but a widespread cultural crisis. She challenges us to take up our responsibilities to intervene without violating families, community, and the state. With devastating examples, Schulman clarifies how abusive treatment of homosexuals at home enables abusive treatment of homosexuals in other relationships as well as in society at large. Ambitious, original, and deeply important, Schulman's book draws on her own experiences, her research, and her activism to probe this complex issue—still very much with us at the start of the twenty-first century—and to articulate a vision for a more accepting world.

Sophocles: Antigone-Douglas Cairns 2016-08-25 *Antigone* is Sophocles' masterpiece, a seminal influence on a wide range of theatrical, literary, and intellectual traditions. This volume sets the play in the contexts of its mythical background, its performance, its relation to contemporary culture and thought, and its rich reception history. But its main aim is to encourage first-hand engagement with the complexities of interpretation that make the play so enduringly thought-provoking and rewarding. Though Creon's actions prove disastrous and Antigone's are vindicated, the *Antigone* is no simple study in the excesses of tyranny or the virtues of heroic resistance, but a more nuanced exploration of conflicting views of right and wrong and of the conditions that constrain human beings' efforts to control their destinies and secure their happiness. The book's chapters consider the extent of the original audience's acquaintance with earlier versions of the legends of Antigone's family, the structure of the plot as it unfolds in theatrical performance, the presentation of the characters and the motivations that drive them, the major political, social, and ethical themes that the play raises, and the resonance

of those themes in the ways that the play has been interpreted, adapted, performed, and appropriated in later periods.

Blood Ties-Pamela Freeman 2008-04-07 A thousand years ago, the Eleven Domains were invaded and the original inhabitants forced on the road as Travelers, belonging nowhere, welcomed by no-one. Now the Domains are governed with an iron fist by the Warlords, but there are wilder elements to the landscape which cannot be controlled and which may prove their undoing. Some are spirits of place, of water and air and fire and earth. Some are greater than these. And some are human. Bramble: a village girl, whom no-one living can tame ... forced to flee from her home for a crime she did not commit. Ash: apprentice to a safeguarder, forced to kill for an employer he cannot escape. Saker: an enchanter, who will not rest until the land is returned to his people. As their three stories unfold, along with the stories of those whose lives they touch, it becomes clear that they are bound together in ways that not even a stonemason could foresee - bound by their past, their future, and their blood.

Musorgsky-Richard Taruskin 2021-01-12 "It is [a] fully illuminated story that Richard Taruskin, in the path-breaking essays collected here, unfolds around Modest Musorgsky, Russia's greatest national composer.... [Taruskin's] tour de force comes with a frontal attack on all the Soviet-bred truisms that for a century have refashioned Musorgsky from what the evidence suggests he was--an aristocrat with an early clinical interest in true-to-life musical portraiture and a later penchant for drinking partners who were both folklore buffs and political reactionaries democrat."--From the foreword Incorporating both new and now-classic essays, this book for the first time sets the vocal works of Modest Musorgsky in a fully detailed cultural, political, and historical context. From this perspective Richard Taruskin revises fundamentally the composer's historical and artistic image, in particular debunking the century-old dogmas of Vladimir Stasov, Musorgsky's first biographer. Here the author offers the most complete explanation of the revision of the opera Boris Godunov, compares it to contemporaneous operas by Chaikovsky and Rimsky-Korsakov, advances a revisionary characterization of Khovanshchina as an aristocratic tragedy informed by a pessimistic view of history, discusses Musorgsky's use of folklore, and, focusing on Sorochintsi Fair, brings to a climax his refutation of Musorgsky as a protorevolutionary populist. The epilogue is a survey of revisionary productions

of Musorgsky's works at home during the Gorbachev era.

Transnational Organized Crime and Drug Trafficking in the Second Decade of the 21st Century in The Dominican Republic, Suriname, Venezuela, French Guiana, Martinique and Guadeloupe. The Hegemony of the Mexican Transnational Trafficking Organizations Affirmed Pax Mexicana!-Daurius Figueira 2020-10-03

This work is an analysis of the power relations between Transnational Organized Crime (TOC) and the apex trafficking States of the Dominican Republic, Suriname, Venezuela, French Guiana, Martinique and Guadeloupe in the second decade of the 21st Century. This analysis focuses on the business models of TOC groups involved in these apex trafficking states of the Caribbean Basin, their trafficking methodology and the response of the State in their war on drugs to the operational presence of these TOC groups. What is apparent is the inability, the complicity and the unwillingness of the ruling elites and the agents of the State to grapple with the threat posed by TOC to these apex trafficking States. The war on drugs is then a lie, an instrument of power to effect social control in favour of the ruling oligarchs and a geopolitical instrument which indicates your subservience to the USA and the rest of the North Atlantic. The war on drugs is then an instrument to effect white power/hegemony over the neo-colonial world, the South. In these States studied the reality of the North Atlantic's war on drugs being joined at the head with TOC, hence inseparable, is affirmed with evidence, for as you beget the war on drugs TOC exploits your geographic position to transship drugs to the North Atlantic, but you are unable to resist materially and at the level of the idea, given your state of economic and mental subservience arising from white supremacist colonial/neo-colonial imperial domination. Transnational Organized Crime then in these States have already or are aggressively moving to capture the State. The wages of embracing the white supremacist war on drugs is TOC exerting hegemony over our social order.

Just Breathe Normally-Peggy Shumaker 2007-01-01 Just Breathe Normally opens with a traumatic accident. Shattered perceptions and shards of narrative recount the events, from wreck through recovery and beyond. In lyric prose, the stories spiral back through

generations to touch on questions of mortality and family, immigration and migration, legacies intended or inflicted. ø In the wake of her near-fatal cycling collision, Peggy Shumaker searches for meaning within extremity. Through a long convalescence, she reevaluates her family's past, treating us to a meditation on the meaning of justice and the role of love in the grueling process of healing. Her book, a moving memoir of childhood and family, testifies to the power of collective empathy in the transformations that make and remake us throughout our lives. ø We all live with injury and loss. This book transforms injury, transforms loss. Shumaker crafts language unlike anyone else, language at once poetic and profound. Her memoir enacts our human desire to understand the fragmented self. We see in practice the power of words to restore what medical science cannot: the fragile human psyche and its immense capacity for forgiveness.

Blood Ties and Fictive Ties-Kristin Elizabeth Gager 2014-07-14 In Paris during the sixteenth and seventeenth centuries, the practice of adopting children was strongly discouraged by cultural, religious, and legal authorities on the grounds that it disrupted family blood lines. In fact, historians have assumed that adoption had generally not been practiced in France or in the rest of Europe since late antiquity. Challenging this view, Kristin Gager brings to light evidence showing how married couples and single men and women from the artisan neighborhoods in early modern Paris did manage to adopt children as their legal heirs. In so doing, she offers a new, richly detailed portrait of family life, civil law, and public assistance in Paris, and reveals how citizens forged a wide variety of family forms in defiance of social, cultural, and legal norms. Gager bases her work on documents ranging from previously unexplored notarized contracts of adoption to court cases, theological treatises, and literary texts. She examines two main patterns of adoption: those privately arranged between households and those of destitute children from the Parisian foundling hospice and the Hôtel-Dieu. Gager argues that although customary law rejected adoption and promoted an exclusively biological model of the family, there existed an alternative

domestic culture based on a variety of "fictive" ties. Gager connects her arguments to current debates about adoption and the nature of the family in Europe and the United States. Understanding Effective and Personal Deliverance-Marie S. Buntje 2014-03-11 As children of God, we are called into prosperity

and a successful life here on earth. Nevertheless, we cannot ignore the presence of the prince of this world who, from the very beginning deceived our first father and mother Adam and Eve in the Garden of Eden. We cannot therefore ignore the evil activities of the Devil against our very success and prosperity after he and his entire kingdom of darkness have been exposed to us. We cannot stay on the sideline with evil foundations and suffering without any answer or initiative after the spirit realm and the mystery of the kingdom of darkness have been revealed to us through our Lord Jesus Christ. Understanding effective and personal deliverance is one of the important tools to help us discover the hidden treasures the bible has for us.

I believe the world is full of wisdom, and if we are smart enough and pay attention, we can acquire some part of it. I know you may not agree with everything I have written, and that is all right. I believe the message you need will hit like an electric current. It will be the message that the universe has sent to you at this very time.

Ties that Bind-Tiya Miles 2006 "In this lyrical narrative about Shoebots, Doll, and their descendants, Tiya Miles explores the constant push and tug between family connections and racial divides. Building on meticulous and inspired historical detective work, Miles shows what it might have felt like to be a slave and reassesses the convoluted ideas about race that slavery generated and left as a legacy."-- Nancy Shoemaker, author of *A Strange Likeness: Becoming Red and White in Eighteenth-Century North America* "Ties That Bind is a haunting and innovative book. Tiya Miles refuses to avoid or cover over the most painful aspects of the shared stories of Indians and African Americans. Instead, Miles passionately defends the need to explore history, even when the facts provided by history are not those that contemporary people want to hear."--Peggy Pascoe, author of *Relations of Rescue: The Search for Female Moral Authority in the American West, 1874-1939*
