Marco Polo Blackberry-Ginger Heller 2010-02 --Kirkus Review "Marco is an excellent role model for kids, and this book shows that one person can indeed make a difference in the lives of others. An earnest and sometimes inspiring story of an extraordinary middle schooler.'...A millennial Ferris Bueller.'" Marco Polo Blackberry, a middle school age novel, is a story of a twelve year old boy who earns enormous profits trading stocks and commodities on the Internet. Joined by pen pals from six different continents, he learns of the desperate plight of less fortunate children. Marco finds a way to help, using his wits and new wealth, all the while facing problems of his own: school bullies, authority figures and of course, girls. However it is also a story of children in war torn Africa, of marauding gangs burning and pillaging. It's a story of disease, of the lack of food, clean water and medicine. And yet it is Marco's zany, exotic and delightfully irrepressible Auntie M. who travels the world and guides Marco with her wisdom, providing a moral voice and important principles by which to live. Spanning the globe and dealing with the universal issues of war, poverty, and sickness, Marco Polo Blackberry is a story of hope and most importantly, of the possibility of a boy changing the world, one small step at a time. Winner of two national books awards, BEST in CHILDREN'S LITERATURE-2010, Pinnacle Award and FINALIST for CHILDREN FICTION-2011 Indie Excellence Award

Phytonutrient Gardening-Joe Urbach 2016-01-28 There is a serious problem with our modern fruits and vegetables! The produce we feed our family members is far less healthy now than at any other time in human history! Does that statement bother you? It should! How and why did this happen? What can we do about it? Most importantly, how can you ensure that you are feeding your family the most

healthy, most nutritious fruits and vegetables possible? If you are going to grow a tomato in your garden anyway why not grow the healthiest, most phytonutrient-rich tomato packed with the most lycopene and antioxidants possible? Are you planning to grow lettuce? Why not grow the lettuce that packs the most nutrition into every leaf? These simple questions are at the very heart of the author's concept of "Phytonutrient Gardening." In this first book in a series of three, Joe Urbach, creator and publisher of the popular website www.GardeningAustin.com and creator of The Phytonutrient Blog answers those questions and more while providing gardeners with a wealth of information including which specific varieties of your favorites to grow to get the biggest nutritional bang for your gardening buck! Filled with fascinating details about the state of modern produce and backed by state-of-the-art research and scientific testing, this useful book will change your life by changing how you look at produce. Read just a few pages and you will change the way you garden, the way you buy groceries, the way you store your produce and even the way you cook your meals! Changes all for the better! Leading to a healthier, more active and longer life!
