

# Blank Threads A Lincoln Delabar Science Fiction Adventure Book 2

**Blank**-Richard C. Hale 2015 8 years. A lifetime. For Lincoln Delabar, it had been a lifetime wasted. The teenager he had been was now a grown man. Older. Wiser. But a lesser man just the same. Something was missing and it festered like a splinter in his mind. He had to find her. So, when a part of his past found him—a part he never knew existed—he discovered what he'd been searching for had always been right there. Staring back at him. Like a Blank face. He was propelled into a world that would change his life forever. The violence in him had surfaced again and threatened to rule him. He'd let it in. He had to. He could control it. Or could he?

But a lesser man just the same. Something was missing and it festered like a splinter in his mind. He had to find her. So, when a part of his past found him-a part he never knew existed-he discovered what he'd been searching for had always been right there. Staring back at him. Like a Blank face. He was propelled into a world that would change his life forever. The violence in him had surfaced again and threatened to rule him. He'd let it in. He had to. He could control it. Or could he?

**Blank**-Richard C. Hale 2016 **\*\*This is the third book in the Blank Series\*\***Life or nothing.For Lincoln Delabar, the choice meant more than the words. His life was a wreck. The one thing he held dear, lost from him, and for all he knew, never to be found again.The pain of that loss fed a fever in him that, if allowed to extinguish, would cool to a loneliness that nothing could comfort. He had to try, even if it cost him his life.The Threads of his world led to a place no one else could see. A place filled with darkness and evil.And her.But the fate of many more were tied with thin Threads. Linc's strength, and his weakness, the only thing keeping the balance. A balance threatened by a psychopath all too familiar to him. The one man Linc knew better than any other in his life. The man who was his twin, yet nothing like him.And this twin would bring the Apocalypse. If Linc could not stop him, all he held dear would be lost.Forever.

**Blank**-Richard C. Hale 2016-11-12 Life or nothing. For Lincoln Delabar, the choice meant more than the words. His life was a wreck. The one thing he held dear, lost from him, and for all he knew, never to be found again. The pain of that loss fed a fever in him that, if allowed to extinguish, would cool to a loneliness that nothing could comfort. He had to try, even if it cost him his life. The Threads of his world led to a place no one else could see. A

place filled with darkness and evil. And her. But the fate of many more were tied with thin Threads. Linc's strength, and his weakness, the only thing keeping the balance. A balance threatened by a psychopath all too familiar to him. The one man Linc knew better than any other in his life. The man who was his twin, yet nothing like him. And this twin would bring the Apocalypse. If Linc could not stop him, all he held dear would be lost. Forever.

**Blank**-Richard C. Hale 2014-03-29 There's a violence in me. My name is Lincoln Delabar. I was born without a face. Yes, you heard that right. Smooth, clear skin from my forehead to my chin. I see the world differently, yet it is still a place that holds wonder. At least most of the time. With my uniqueness comes a burden. My mind is powerful. Very powerful. And I have an obligation, a purpose, to see things in my own special way. Some of the things I see are frightening. The evil in this world is beyond anyone's control. Or so you might think. There is a violence in me. I'm not afraid. I can control it. But should I?

**Trends and Advances in Information Systems and Technologies**-Álvaro Rocha 2018-04-21 This book includes a selection of papers from the 2018 World Conference on Information Systems and Technologies (WorldCIST'18), held in Naples, Italy on March 27-29, 2018. WorldCIST is a global forum for researchers and practitioners to present and discuss recent results and innovations, current trends, professional experiences and the challenges of modern information systems and technologies research together with their technological development and applications. The main topics covered are: A) Information and Knowledge Management; B) Organizational Models and Information Systems; C) Software and Systems Modeling; D) Software Systems, Architectures, Applications and Tools; E) Multimedia Systems and Applications; F) Computer Networks, Mobility and Pervasive Systems; G) Intelligent and Decision Support Systems; H) Big Data Analytics and Applications; I) Human-Computer Interaction; J) Ethics, Computers & Security; K) Health Informatics; L) Information Technologies in Education; M) Information Technologies in Radiocommunications; N) Technologies for Biomedical Applications.

**The Diary of Samuel Pepys, Esq., F.R.S., from 1659 to 1669**-Samuel Pepys 1889

**Cache 72**-Richard C. Hale 2013-08-16 72 hours. That's what the note said. 72 hours and the girl would be dead. Jaxon held the paper in one hand and the severed finger in the other. It was not a hoax. A day with his new hobby had turned into something he hadn't seen coming. GeoCaching—a modern scavenger hunt—was now a race against time. A woman he had never met was praying he wouldn't fail. 72 hours. Three days. A life hanging in the balance and the clock ticking. The killer's game deadly. Jaxon Jennings, retired cop and private eye, knew the girl had only one chance...And he was it.

**Diary and Correspondence of Samuel Pepys ...**-Samuel Pepys 1867

**German Novelists of the Weimar Republic**-Karl Leydecker 2006 New essays introducing a broad range of novelists of the Weimar period.

**Frozen Past**-Richard C. Hale 2012-03-14 Luke is only fourteen. Eliana is his whole world and for a fourteen year old, the burden is immense. You see, Eliana is being stalked. Stalked by a madman who wants nothing more than to see her dead. The madman knows things that no one should know and sees things that no one should see. He tells them if they say a word to anyone, they will both die. And Luke can't let that happen. Eliana's past is catching up with her and Luke must do anything to save her. Anything. Praise for Richard C Hale's books: "What a fantastic read. I highly recommend it." "NEAR DEATH is a fast-paced, romance-laced, thought-provoking, and highly entertaining novel with an intriguing premise. Hale doesn't shortchange his readers on character development, either. The characters were well-defined, realistic, and had me simultaneously rooting for and against them. Terrific read!" "Blew me away! An approach that I never saw coming. Well Done!!! I Can't wait to read your next book!" "Wow, what an awesome read. I have not come across a book I could not put down like this since "The Firm" or "A Time to Kill"."

**A History of Women's Writing in Germany, Austria and Switzerland**-Jo Catling 2000-03-23 An introduction to, and overview of, women's writing in German-speaking countries from the Middle Ages to the present day.

**Biochemical Mechanisms in Heart Function**-Ernst-Georg Krause 2011-10-30 This special issue of Molecular and Cellular Biochemistry good source of information in this regard. contains original research papers as well as invited reviews We wish to thank all of the contributors for their help and dedicated, on the occasion of the 40th anniversary of the in cooperation. We also wish to thank Mrs. Verona Kuhle for auguration of the Heart Research Group in Beriin-Buch that her secretarial help. We are grateful to Dr. Naranjan S. Dhalla, today forms a part there of the Max Delbrück Center for Molecular Medicine, to Professor Albert Wollenberger, founder interest and encouragement, and for agreeing to publish this of the Heart Research Group and for 21 years its head. issue in honor of Albert Wollenberger. The papers in this issue are written by researchers working in the field of cardiovascular research who together with ERNST-GEORG KRAUSE and ROLAND VETTER Albert Wollenberger share the belief that an integrative application of advances in molecular and cellular biology will lead to new concepts for treatment and prevention of cardiovascular diseases. We hope that this special will serve as a Gennany ALBERT WOLLENBERGER, Professor, Ph. D. (Harvard), Dr. Sc. Med. (Berlin) The dedication is accorded to Prof.

**Sins of the Daughters**-Richard C. Hale 2016-11-12 Our Sins Define Us. Or do they? Jaxon Jennings, private eye and brand new father, sees the world in a new light. One where he and his wife, Victoria, can raise their young daughter sheltered from the sins of this world, from his own sins and past mistakes. He has responsibilities and priorities. He has a new life. And

his daughter Michelle is the center of it. So, when a prominent local business owner-who had hired Jaxon for his private investigative services-ends up with his throat cut, the victim of a killer whose methods seem familiar to a case Jaxon had put to bed over twenty years ago, Jaxon's past, once again, rears its ugly head to haunt him. Reynolds Maubry, a psychopath who used a short, curved blade to take his victims' lives, was serving a life sentence in Virginia. Jaxon had seen to that as a young homicide detective in Washington DC. Maubry's methods were distinct and the evidence he left behind, unique. So, how could he be in sunny north Florida, taking lives again? A copycat could be the only answer. But when Jaxon discovers that things are not as neat and tidy as they seem, he must face the mounting evidence that he and his family are in danger. And from a place he would never have suspected. Jaxon badly wants to live this new life. But he can't escape his past sins. To keep himself and his family safe, he must sin again. But who will survive?

### **The Turkish Turn in Contemporary German Literature**-L. Adelson 2005-08-19

Challenging the commonplace that suspends migrants between two worlds', this study turns a refreshingly curious eye to complex cultural relations and literary novelties wrought by Turkish migration to Germany. At interpretive and historic crossroads involving dialogue and storytelling, genocide and taboo, and capital and labour in the 1990s. This book illuminates far-reaching imaginative effects that literatures of migration can engender. In critical conversation with Arjun Appadurai, Seyla Benhabib, Homi Bhabha, Rey Chow, Andreas Huyssen, Dominick LaCapra, Doris Sommer, and many others, Adelson probes history and aesthetics as surprisingly twinned indices of national and global transformation at the millennial turn.

**Traffic**-Richard C. Hale 2017-05-26 Family is everything. Would you kill to protect it? When Jaxon Jennings witnesses a woman attack a man and kill him, his only thought is to apprehend the woman and bring her to justice. But when he discovers the mysterious and deadly woman, Adi Jordan, is on a mission to save her kidnapped daughter, he can only imagine doing one thing. He must help her. In a race against the clock and insurmountable odds, Jaxon joins forces with Adi in a desperate battle with the Russian mob to track down her daughter and get her back before the trail grows cold and Adi's daughter is lost to the world of human trafficking. Adi's dark and mysterious past only adds to the pressure as her brutal and ruthless tactics bring Jaxon to a place he's never been before. But will her actions destroy any chance they have of finding her daughter and surviving? Jaxon must walk a thin line between what is right and wrong. Will it be enough? From the first sentence of his latest Jaxon Jennings Thriller, *Traffic*, author Richard C Hale piles on the suspense and kicks it into high gear. A pulse-pounding, thrill ride that pulls you in and never lets up, *Traffic* will keep you on the edge until the surprising end.

**Near Death**-Richard C Hale 2011-11 For Jake Townsend, the loss was shattering. And every night for the past two years, he has relived the horror of what happened. The moonless night. The piercing screams. The horrific crash. The night his wife was taken from him. The last time he saw her alive. Everyone tells him to move on. But for Jake, there can be no closure. A message appears in his dreams-a warning he is reluctant to heed. The omens

ignored, Jake finds himself caught between the desire to see his beloved wife again and disrupting the delicate balance of life and death. The technology he developed has shown him the path, and others will do anything to use it, but at what price? He must choose, and the consequences may ultimately shatter his world.

**Dragon Greed**-Kelly Armenta 2019-11-29 Visit the Sidhe Gardens they said. It will be worth it they said. That's all well and good, but what they failed to mention was that a harmless conversation might lead to scary red eyes and soul separation. But hey it's just another day in the life of Lexi Helyanwe. So if I've got to drag a reluctant man around the Everlasting by his hair to find my way back to my men, so be it. I know I'm a girl on a mission, I just can't seem to remember what that mission might be. Join Lexi on her fourth adventure as she gets caught up in the moment and ends up paying for it in the end. Lucky her, sexy Drakes just keep falling at her feet. And what else is a girl do, but bring them all home and have a little naughty fun.

**For the Sake of Learning (2 vols)**-Ann Blair 2016-06-09 In this tribute to Anthony Grafton, fifty-eight contributors present new research across the many areas in which Grafton has been active in the history of scholarship and learned culture.

**Germany**-Laurence a Laurence 2015-03-01 In I THINK I AM: PHILIP K. DICK, Laurence A. Rickels investigated the renowned science fiction author's collected work by way of its relationship to the concept and condition of schizophrenia. In GERMANY: A SCIENCE FICTION, he focuses on psychopathy as the undeclared diagnosis implied in flunking the empathy test. The switch from psychosis to psychopathy as an organizing limit opens the prospect of a genealogy of the Cold War era, which Rickels begins by examining Dick's THE SIMULACRA and follows out with readings of SIMULACRON 3, FAHRENHEIT 451, THE DAY OF THE TRIFFIDS, THIS ISLAND EARTH and GRAVITY'S RAINBOW, among many other genealogical stations. Nazi Germany hosted the first season of the realization of science fantasy with the rocket at the top of this arc. After World War II, the genre had to delete the recent past and start again within the new Cold War opposition. Certainly the ancestral prehistory was still intact (in the works of, for instance, Jules Verne and H. G. Wells). At the bulk rate of its generic line of production, however, science fiction would thereafter become a native to the Cold War habitat. This study addresses the syndications of the missing era in the science fiction mainstream, the phantasmagoria of its returns, and the extent of the integration of all the above since some point in the 1980s. Rickels works through the preliminaries of repair that must be met in a world devastated by psychopathic violence before mourning can even be a need. While I THINK I AM was the endopsychic allegory of Dick's corpus, GERMANY takes the corpus as a point of context for the endopsychic genealogy of the post-WWII containment and integration of psychopathy.

**Dead Last**-Richard C Hale 2020-01-20 After decades as a police detective, Jaxon Jennings has seen it all: murder, bank robbery, the Russian Mafia-you name it. So, the veteran cop and part-time private eye barely blinks when a distraught man hires him to catch his

cheating wife in the act. Jaxon knows he can do this job in his sleep-and soon learns the husband is cheating, too. But what starts as a routine case of infidelity quickly snowballs into a killing spree. Someone-obviously a pro-murders the husband, his wife, both of their lovers, and a growing list of victims who don't seem connected to the case at all. Jaxon has no idea why they're dead, who killed them, or how he can stop the bloodshed. And new bodies are piling up every day. Together with his longtime partner, a couple of hard-charging rookie detectives, and a shadowy figure from his past, Jaxon must race against time and a trained killer who's now targeting his own family, including his four-year-old daughter. In this, his latest nail-biting thriller, author Richard C Hale returns with Jaxon Jennings's toughest case yet. Jaxon might be getting older, but he'll use all his experience, his instinct, and guts to make sure the killer's latest victim is his Dead Last.

**Mawonero**-Raphael Chikukwa 2016-02-24 Mawonero / Umbono is a publication that sheds a bright light for the first time on modern and contemporary African art in Zimbabwe. From the Shona language, the word 'Mawonero' means 'way of seeing'. This unique survey is devoted not only to present-day ar

**The Arts of Influence**-Hugh MacDonald 2008 Effective working relationships depend on our ability to go beyond our own interests and consider the needs of others. Despite this, the simple reality is that our needs must be met. Relationship management is not a feel-good exercise. It's not about taking a client to a ball game or having lunch at a trendy restaurant. It certainly is not about having a group hug every time there is a challenge. It's about keeping distance and perspective. It's about being professional and working with others to satisfy our first priority - getting what we need and advancing our interests. This is a highly practical book written by a former VP of Strategic Alliance Management for one of Canada's largest financial institutions who has managed workplace relationships for more than thirty years. It provides a wealth of principles, ideas and techniques to help establish an effective and professionally distant relationship based on soft power - our ability to influence others. "Having sat at the opposite end of a negotiation table from Hugh MacDonald, I can attest to his skillful ability to deal with tenuous issues in a diplomatic and direct way. He is a true master of the art of relationship management and I am delighted he is now sharing his knowledge and experience with others." — Robert Hakeem, Relationship Executive, Boston

**The Great Fire of London**-Samuel Pepys 2015-03-19 'With one's face in the wind you were almost burned with a shower of Firedrops' A selection from Pepys' startlingly vivid and candid diary, including his famous account of the Great Fire Introducing Little Black Classics: 80 books for Penguin's 80th birthday. Little Black Classics celebrate the huge range and diversity of Penguin Classics, with books from around the world and across many centuries. They take us from a balloon ride over Victorian London to a garden of blossom in Japan, from Tierra del Fuego to 16th century California and the Russian steppe. Here are stories lyrical and savage; poems epic and intimate; essays satirical and inspirational; and ideas that have shaped the lives of millions. Samuel Pepys (1633-1703). The Diary of Samuel Pepys: A Selection is available in Penguin Classics

## **The Essex Antiquarian**-Sidney Perley 1908

**Calliope Jones and the Last World Diver**-Haylie Machado Hanson 2017-01-16 Babysitter. Peacekeeper. Middle child. Ignored. That's sixteen-year-old Calliope Jones, the oddball "average" kid in a family of ultra-talented siblings. Being ordinary is just fine by Callie, who prefers to spend her days surfing the waters of California and trying to survive the dramas of high school. But when a rogue storm washes a mysterious, glowing object into the surf, she begins to discover she isn't as ordinary as she thought. Callie is drawn into the fantastical world of Dr. Ormonde and the giant World Diver, filled with stories of Navigators, Seers, living robots, gateways to other worlds, and ominous, deadly Shadowmancers. Callie is skeptical of Dr. Ormonde's strange theories, until a dark presence comes hunting her, threatening to hurt those she holds dear. She must decide if she is truly the ordinary teenager she thought she was, or if she and the World Diver share a destiny greater than she can imagine.

**No One Ever Asked Me That**-Catherine Levison 2012-04 What are the purposes of imagination? Catherine Levison was intrigued by topics like this from an early age. Seeking more meaningful conversations, she developed a series of questions to bypass small talk and enable others to speak comfortably on deep issues. Not only did her approach generate unforgettable conversations, it had a profound effect on those she spoke with. This book compiles interviews, held over the course of more than a decade with a diverse group of people, from monks, to teachers, to dish washers. The results are thought-provoking, often surprising and you will find yourself wondering why no one ever asked you that.

## **The Agnews of Lochnaw**-sir Andrew Agnew (8th bart.) 1864

**Dragon Pride**-Kelly Armenta 2019-11-25 Men, men and more men! What I needed was a break from all this testosterone. Having a custom made beach hidden away in the tunnels behind my closet seemed the perfect spot for a little rest and relaxation. For a time it was perfect, nothing but sun and sand and all my pretty baubles. I thought my little sojourn might go undiscovered, but I was so obviously wrong. If not for the King's machinations, I might have kept at least a few secrets. But a girl can only hide for so long before her absence is noted, and the perfect hideaway goes from a party of one, to an overcrowded nightmare. Surprises abound as Lexi takes a vacation, slays a rival, and ends up rescuing the wrong guy. But that's our girl, saving worlds with magic, one dragon at a time.

**Ronald Reagan and Margaret Thatcher**-Nicholas Wapshott 2007-11-08 New details of the remarkable relationship between two leaders who teamed up to change history. It's well known that Ronald Reagan and Margaret Thatcher were close allies and kindred political spirits. During their eight overlapping years as U.S. president and UK prime minister, they stood united for free markets, low taxes, and a strong defense against communism. But just how close they really were will surprise you. Nicholas Wapshott finds that the Reagan-

Thatcher relationship was much deeper than an alliance of mutual interests. Drawing on extensive interviews and hundreds of recently declassified private letters and telephone calls, he depicts a more complex, intimate, and occasionally combative relationship than has previously been revealed.

**Fictive Theories**-S. McManus 2005-06-03 *Fictive Theories* is a significant and innovative intervention in key debates in political theory concerning the ways theory should be philosophically grounded, and the task that political theory should set itself. Susan McManus argues that political theory has been grounded in controlling fictions (from fictions of human nature, to morals laws) that function to close possibility. Starting by interrogating the often hidden work of fictions in political theories, she argues that all theorizing is a form of world-creating. Rather than hiding the fictions at work in political theory, McManus argues that theory should become self-consciously fictive, and that there are political and ethical advantages to so doing. She then develops a uniquely deconstructive and utopian understanding of the project of political theory grounded in the 'fictive': a creative and future-oriented imagination. Rather than seeking to provide blueprints of how a polity should be organized, fictive theories seek to fabricate futures through the anticipatory articulation of possibility. Drawing on a rich range of thinkers from the traditions of political theory (Hobbes, Rousseau, Kant), deconstructive theory (Roland Barthes, Jacques Derrida) and utopian studies (Ernst Bloch), this book will be of interest to researchers, teachers and students in the fields of political theory, utopian studies, literary theory and cultural studies.

**Fascism and Neofascism**-E. Weitz 2016-09-27 The dramatic transformations of the the 1990s - the end of the Cold War, the establishment of political liberties and market economies in Eastern Europe, German unification - quickly led commentators to proclaim the end of all ideologies and the complete triumph of liberal capitalism. Just as quickly, however, right-wing extremism began a surge in Europe that has not significantly abated to this day. *Fascism and Neofascism* is a collection of essays that is distinctive in two important ways. First, unlike most volumes, which cover either historical fascism or the recent radical right, *Fascism and Neofascism* spans both periods. Secondly, this volume also aims to bring newer modes of inquiry, rooted in cultural studies, into dialogue with more 'traditional' ways of viewing fascism. The editors' approach is deliberately interdisciplinary, even eclectic.

**The Fourth Prophecy**-Ernest Dempsey 2017-10-18 Washington is at a standstill, but it's not political gridlock that's paralyzed the nation's capital this time. A ruthless killer is assassinating members of Congress, leaving authorities with neither clues nor hope to stop the slaughter. Fear grips the city as the federal government grinds to a halt. So, where are former government agent Sean Wyatt and his sidekick, Tommy Schultz? They're thousands of miles away in the middle of the Mexican rain forest, leading a private mission for one of the congresswomen targeted by the murderer. The congresswoman is convinced ancient documents in her possession hold the keys to a new world-a golden age without murder, scandal, or lust for power. Sean and Tommy should be so lucky. In their quest to solve

another ancient, deadly series of riddles, Sean and Tommy take on Mexican drug cartels, counterrevolutionary guerrillas, and shady mercenaries—and learn that, yet again, nothing in either the modern or the ancient world is what it appears to be. In his grittiest thriller yet, Ernest Dempsey again thrusts readers into the heart of the global criminal underworld. Swarmed by spies, shysters, and professional slayers, Dempsey's vision of international treasure hunting would send even Indiana Jones running for retirement.

**My Incredible Adventures**- 2017-03-04 Mary was an ordinary schoolgirl who never thought about having crazy adventures. One day, she was captured by an alien and sent to another planet for an experiment, but it was a failure. When the experiment failed, she was sent back to Earth by a UFO. Then she experienced another adventure, going back to her past life as a queen who was a fish. Will she be able to return to her present life? Age Range: 8-10 (Third/Fourth/Fifth grade)

**The Assumptions Economists Make**-Jonathan Schlefer 2012-04-04 Economists make confident assertions in op-ed columns and on cable news—so why are their explanations at odds with equally confident assertions from other economists? And why are all economic predictions so rarely borne out? Harnessing his frustration with this contradiction, Schlefer set out to investigate how economists arrive at their opinions.

**All the Single Ladies**-Dorothea Benton Frank 2015-06-09 The perennial New York Times bestselling author returns with an emotionally resonant novel that illuminates the power of friendship in women's lives, and is filled with her trademark wit, poignant and timely themes, sassy, flesh-and-blood characters, and the steamy Southern atmosphere and beauty of her beloved Carolina Lowcountry. Few writers capture the complexities, pain, and joy of relationships—between friends, family members, husbands and wives, or lovers—as beloved New York Times bestselling author Dorothea Benton Frank. In this charming, evocative, soul-touching novel, she once again takes us deep into the heart of the magical Lowcountry where three amazing middle-aged women are bonded by another amazing woman's death. Through their shared loss they forge a deep friendship, asking critical questions. Who was their friend and what did her life mean? Are they living the lives they imagined for themselves? Will they ever be able to afford to retire? How will they maximize their happiness? Security? Health? And ultimately, their own legacies? A plan is conceived and unfurls with each turn of the tide during one sweltering summer on the Isle of Palms. Without ever fully realizing how close they were to the edge, they finally triumph amid laughter and maybe even newfound love.

**The British Medical Association Guide to Medicines & Drugs**-British medical association 1988

**The Toymaker**-Chuck Barrett 2012 Former NTSB Investigator Jake Pendleton faces a dilemma as the line blurs between right and wrong. After his judgment comes into question,

Jake's first assignment reunites him with Gregg Kaplan in a daredevil mission to rescue a fellow agent held captive in Yemen. He risks his life to stop the first attack of an al Qaeda mastermind. But now, with no one to trust but himself, can Jake stop the terrorist from destroying what is most precious to the free world?

**Illinois-A.** Doyne Horsley 1986-10-20

**Playa Giron/Bay of Pigs**-Fidel Castro 2001 In fewer than 72 hours of combat in April 1961, Cuba's revolutionary armed forces defeated a U.S.-organized invasion by 1,500 mercenaries. In the process, the Cuban people set an example for workers, farmers, and youth the world over that with political consciousness, class solidarity, courage, and revolutionary leadership, one can stand up to enormous might and seemingly insurmountable odds-and win. "Includes translations of a dozen Cuban primary source documents on the U.S.-backed invasion at the Bay of Pigs.... The documents ... tell a familiar story, but they tell it well. Also contains José Ramón Fernández Alvarez's 1999 testimony about his role leading Cuban troops against the invaders at Playa Girón. Photographs, maps, and charts throughout the book provide a useful supplement to the text."-Hispanic American Historical Review "A varied collection of speeches, communiqués and testimonies from the time, by those such as Fidel Castro and Che Guevara, are presented. These well catch the knife-edged political tension and subsequent triumph of the momentous days in April 1961. Using fascinating military maps, photographs and a full chronology of the time, the book provides previously unpublished details surrounding the CIA-backed invasion and the subsequent defeat of the 1,500 US mercenaries at the Bay of Pigs.... [Gives] a real feel for the bravery and conviction of the revolutionary Cuban forces, and their willingness to defend the socialist principles of the Revolution at any cost.... Provides invaluable inspiration."-An Phoblacht/Republican News Foreword by Jack Barnes, 20-page photo section and other photos, maps, charts, chronology, glossary, further reading, index.
