There, Draconos, a dragon, befriends the boy, training him in the art of warfare. From this day forward, the young boy finds himself in awe at the wonders the world holds for him. Not only has Draig become a man, but he is living like a dragon and learning their mystical powers. "From the time Man first crawled upon this earth...we found him worthy to take his rightful place among the creatures that walk upon the earth. While hiding in the shadows, we have protected him. We have nurtured him all these many ages. But now man grows in great numbers and makes war on everything he sees." **SHAN HAI JING—A BOOK COVERED WITH BLOOD**-Kate Bazilevsky 2014-08-22 In essence, this story is about how a certain person was searching his bookshelf for something to read and in the end found a book, which turned out to be the source, from which it is possible to obtain absolutely any kind of information about absolutely any person. Meaning, information to the smallest particulars and details about what his or her qualities of personality are, how he or she lives, what he or she really wants to achieve, what he or she hides, and much more. And, it does not matter, if the subject is some person, who lived in the distant past or lives in the present or someone, who will live in the future. Since, as it turned out later on, this literary monument is nothing other than the Catalog of human population. In other words, the encyclopedia of Homo sapiens; in essence, the same as encyclopedias, reference books for specialists, which contain complete information about representatives of a particular subspecies of animals, plants, etc. Although at some point, the course of this story turned banal: "bad guys" from security services, intelligence services, politics decided to not only use this source of knowledge for their dirty deeds, but also to appropriate it solely for their personal use. And, the way they tried to do this is also banal: by physically destroying the author of discovery of the Catalog of human population and all of his colleagues. However, the ending of this story makes it stand out from the category of ordinary spy stories. At least because the main characters of this story managed to survive not due to favorable concatenation of circumstances or someone’s help, but thanks to that knowledge, which they discovered in the ancient text, which turned out to be the Catalog of human population. Of course, such an outcome upset and continues to upset not only the Russian special services, but also all those people in whose way developers of the Catalog of human population got. And, in this civilization, there are countless numbers of such people: from psychologists (who become no longer needed by anyone) to organizers of this civilization themselves. Since from the standpoint of the Catalog of human population—technogenic civilization without a human, which they lovingly built for many centuries, is simply trash, to put it mildly, and beneath all criticism. And, they themselves are also trash. However, regular people, who (thanks to the scientific discovery made by Andrey Davydov) got the source with answers to all of their questions and individual recipes, now no longer need to pay "experts on the human soul" for being shamelessly fooled. Therefore, whoever tries to kill developers of the Catalog of human population in the future must know that it is no longer possible, as they already became part of history of humanity. After all, at the current stage of development, a Homo sapiens has only one possibility to continue to live after death, to live through the ages: in the product that he/she created. And, those, who tried and continue to try to kill them, were nobodies and will remain nobodies, who one day will cease to exist without leaving a trace. As for organizers of this "civilization"—maybe instead of trying to find new recipes to destroy "excess billions" and trying to examine human potential using Neanderthal methods, it would be more reasonable not only to find out the recipe of how to make Homo sapiens a 100% controllable producer and consumer from the source (which, by the way, seems to have been left to humanity by creators of nature and a human on this planet), but also how to build a civilization without quotes? After all, it only seems to them that they are the main deceivers, while in reality they were fooled, and fooled majorly.

**Dragon Keeper**-Robin Hobb 2010-01-26 Trader's wife Alise and 16-year-old Thymara must join the caravan traveling up the toxic and inhospitable Rain Wild River, with the aim of relocating weakened dragons from outside their home town of Cassarick to the long-lost city of Kelsingra. 75,000 first printing.

**Dragon Haven**-Robin Hobb 2010-05-11 The acclaimed New York Times bestselling author of Dragon Keeper returns with a second enthralling tale of dragons and humans, adventure and discovery, love and freedom Centuries had passed since dragons last roamed the war-torn world of the Rain Wild River. But as peace once again settled upon the land, a lost generation of sea serpents—ancient, half-starved, and weary—returned to cocoon, certain that they would be reborn as the beautiful and powerful dragons of legend. But their arduous journey exacted a heavy toll, and the proud serpents emerged as sickly, half-formed beasts, unable to fly or hunt . . . or thrive. For years now they have been trapped on a swampy riverbank between forest and river, hungry and barely alive, reliant on humans to provide for them. With their survival at stake, fifteen dragons—among them the wise golden Mercor, the haughty and dazzling silver-blue queen Sintara, and the delicate copper beauty Relpda—have set off on a dangerous trek into the unknown, up the Rain Wild River, in hopes of rediscovering the ancient Elderling city of Kelsingra, the lost haven for dragons and Elderlings alike. The dragons are accompanied by a disparate group of human keepers, rejects from Rain Wild society. They, too, yearn to find Kelsingra and create a home of their own, one in which they may make their own rules and decide their own fate. But is Kelsingra real or merely a fragment of a glorified past buried deep in the dragons' shared memories? No map exists to guide them, and the noble creatures find their ancient recollections of little use in a land changed by generations of flooding and seismic chaos. As the dragons, the humans—including the strong and defiant Rain Wild girl Thymara; the wealthy dragon scholar and Trader's wife, Alise; and her companion, the urbane Sedic—and their magical supply barge, captained by the gruff Leftrin, forge their way ever deeper into uncharted wilderness, human and beast alike discover they are changing in mysterious and dangerous ways. While the bonds between them solidify, starvation, flashfloods, and predators will imperil them all. But dragons and humans soon learn that the most savage threats come from within their own company . . . and not all of them may survive. Returning to the territory of her beloved Liveship Traders and Tawny Man trilogies, New York Times bestselling author Robin Hobb creates a lush and ultimately triumphant tale set in an imaginative world of magic and wonder as compelling and emotionally resonant as our own.
