The Video Game Theory Reader-Mark J.P. Wolf 2013-10-08 In the early days of Pong and Pac Man, video games appeared to be little more than an idle pastime. Today, video games make up a multi-billion dollar industry that rivals television and film. The Video Game Theory Reader brings together exciting new work on the many ways video games are reshaping the face of entertainment and our relationship with technology. Drawing upon examples from widely popular games ranging from Space Invaders to Final Fantasy IX and Combat Flight Simulator 2, the contributors discuss the relationship between video games and other media; the shift from third- to first-person games; gamers and the gaming community; and the important sociological, cultural, industrial, and economic issues that surround gaming. The Video Game Theory Reader is the essential introduction to a fascinating and rapidly expanding new field of media studies.

Voices from the Underground- 2019-10-01 In 1987, the apartheid minister of law and order boasted that the security forces had crushed Umkhonto we Sizwe in the Western Cape. He could not have been more wrong. The Ashley Kriel Detachment, named after one of their slain comrades, conducted over thirty operations between late 1987 and early 1990, playing a crucial role in the defeat of an unjust system. In Voices from the Underground, eighteen members of the AKD give accounts of their involvement in the armed struggle. The book traces their varying journeys into MK, via student activism, trade unions, religious organisations and UDF politics. It details their training in Angola, Botswana, Tanzania, Cuba and South Africa, and their experiences of detention and interrogation. Members recall the stresses of couriering arms and explosives across police roadblocks, hiding in safe houses and evading capture. They talk about the operations they executed, the measures they took to avoid civilian casualties, and their responses to security breaches and the deaths of comrades in the line of duty. Above all, this is a book about people, showing the effects of apartheid on their lives, their reasons for joining the armed struggle, the challenges of surviving in the underground while raising children, and their experiences of returning to civilian life or, in some cases, integrating into the SANDF. Voices from the Underground gives a human face to ordinary people who took up arms to fight a violent state for the freedom of all South Africans.

Butterflies in November-Auður Ava Ólafsdóttir 2014-12-09 A novel of love, friendship, and self-reinvention: “I can’t remember the last time I was so enchanted . . . zany, surprising, full of twists and turns” (Ann Hood, author of The Knitting Circle and Something Blue). A translator of Icelandic, the unnamed young woman who narrates Butterflies in November is perhaps more at home in the world of language than the actual world. After a day of being dumped—twice—and accidentally killing a goose, she yearns to escape from the chaos of her life. Instead, her best friend’s four-year-old deaf-mute son is unexpectedly left in her care. But when the boy chooses the winning numbers for a lottery ticket, the two set off from Reykjavik along Iceland’s Ring Road on a journey of discovery. Along the way, they encounter black sand beaches, cucumber farms, lava fields, flocks of sheep, an Estonian choir, a falconer, a hitchhiker, and both of her exes desperate for another chance. What begins as a spontaneous adventure will unexpectedly and profoundly change the way she views her past and charts her future. Longlisted for the Independent Foreign Fiction Prize.

Rocking Toward a Free World-András Simonyi 2019-06-04 From renowned diplomat and musician András Simonyi -- whom Stephen Colbert calls "the only ambassador I know who can shred a mean guitar!" -- comes a timely and revealing memoir about growing up behind the Iron Curtain and longing for freedom while chasing the great power of rock and roll. In ROCKING TOWARD A FREE WORLD, Simonyi charts the struggle of growing up in 1960s Hungary, a world in which listening to his favorite music was a powerful but furtive endeavor: records were black-market bootlegs; concerts were held under strict control, even banned; protests were folded into song lyrics. Get caught listening to Western radio could mean punishment, maybe prison. That didn't matter to Simonyi, who from an early age felt the tremendous pull of rock and roll, the lure of American popular culture, and a burning desire to buck the system. Inspired by the protest music coming out of the West, he formed a band and became part of Hungary's burgeoning rock scene. Then came the setbacks: tightening of control by the state, the seemingly inescapable weight of an authoritarian system, and the collapse of Simonyi's own dreams of stardom. A story of youth, rebellion, and hope, ROCKING TOWARD A FREE WORLD sheds new light on two of the most powerful forces of the modern age: global democracy and rock and roll. Deeply vital and compelling, Simonyi's memoir chronicles how one man's tremendous connection to American and British popular music inspired him to make a difference in his country and, eventually, the world. It tells the story of a generation, as played out in song lyrics and guitar riffs.

Feet of the Chameleon-Ian Hawkey 2012-11-30 Feet of the Chameleon is a comprehensive study of African football, tracing the development of the worlds favourite sport through the tangled history and complex social and political life of this fascinating continent.

Chasing My Dreams-Fritz Lang 2018-01-09 These are stories about the dreams of a German boy named Fritz and his family living in fear and anguish in the City of Wiesbaden Germany during World War II. Night after night, they would run to safety to the nearby air-raid shelter until one day when their mother took the family into the country to Bavaria to wait out the war. In 1945, the mother and children walked for twelve days from Bavaria back to their home in Wiesbaden. They continued to live in an American militaristic zone for several years until the new German currency arrived and their lives took a turn for the better. In 1952, Fritz began his apprenticeship and completed it in 1955. In 1962, after years of working several different jobs, he decided to make the journey to the promised land, the United States of America.

Stolen-Lucy Christopher 2014-01-07 A stunning debut novel with an intriguing literary hook: written in part as a letter from a victim to her abductor. Sensitive, sharp, captivating! Gemma, 16, is on layover at Bangkok Airport, en route with her parents to a vacation in Vietnam. She steps away for just a second, to get a cup of coffee. Ty--rugged, tan, too old, oddly familiar--pays for Gemma's drink. And drugs it. They talk. Their hands touch. And before Gemma knows what's happening, Ty takes her. Steals her away. The unknowing object of a long obsession, Gemma has been kidnapped by her stalker and brought to the desolate Australian Outback. STOLEN is her gripping story of survival, of how she has to come to terms with her living nightmare--or die trying to fight it.

The Pigs' Slaughter-Florin Grancea 2010-11-23 San Francisco Book Review: "1989 was a chaotic time. There were earthquakes, massive revolutions, and Seinfeld premiered. The Pigs' Slaughter is a book about the revolution in Romania. Written by Florin Grancea, he gives us a window into the world of Romania during those last days of the communist dictator Nicolae Ceausescu. It is a hybrid story about a boy becoming a man and a country learning to walk. While “freedom” runs rampant, all Florin can wish for are new shoes. The book makes strong comparisons to many different themes. Topics ranged from the French Revolution, to horrors of World War 2, to the War on Terror. Each small snippet helps create, and explain, Grancea's life and philosophy. The plot centers around a poor Romanian family, as they celebrate Christmas, and are ecstatic for change in their government. Grancea is almost nostalgic about how life was back during Ceausescu's reign. He remembers that people were suffering, but they were more self-sufficient. At one point, he recalls a time when pork tasted like pork and not the slated industrialize meat that he came to know later on. The book's best qualities are that it is both emotional and informative. Grancea makes you care about every single person in that book, and they feel real. Grancea masterly jumps from time period to time period, to give the reader a greater view of independent events. It creates a great flow, and it keeps the reader fascinated. I feel that this book knows no boundaries. It is more than a biography, it is a prestigious piece of history, but overall, it is a seriously outstanding book. The events of that Christmas in 1989 will forever be etched into Florin Grancea's mind. Now, thanks to this unforgettable book, the world will never forget it as well". Pacific Book Review: "The Pig's Slaughter reveals history in a truly unique way. Unforgettable in its realism and humanism, this book will be etched indelibly into your memory and pondered often when some of the circumstances of history are brought to mind. Florin Grancea gives us all a gift with his fine work, as his book is destined to seek critical acclaim and many reader accolades (...)One could sense English is not Florin Grancea's native language as his well written first person autobiographical narrative takes the reader deep into the historical Communist mindset in The Pigs' Slaughter. Grancea uses many short sentences, mostly factual statements without embellished adjectives; nothing more - nothing less than necessary, analogous to the subsistence of the Romanian population back in the latter part of the 1900's". Author review: Undoubtedly, "The Revolution WILL be televised" was the main players' motto. Most Romanians only saw their revolution on their small black and white televisions while others were the actors, willing and uninformed.... The Revolution ruthlessly took more than it gave - beautiful bodies, healthy food, cultivated culture, tested tradition. In the end, communism's empty materialism was simply traded for western society's empty materialism, which happily did away with what the Eastern Block years had inefficiently leftover. The hungry people of before 1989 have been transformed into obese people. Instead of queuing for meagrely rationed bread they now queue to buy imported foods in overpriced hypermarkets. It's time the world heard this true story of Romania's Revolution, because most Romanians took only a couple of years to realize how little western culture had to offer.
