As a feline, Jim becomes the inadvertent confessor for his boss's lonely son, Tony, a victim of schoolyard bullying. As a human, he feels drawn to Andrew, a man he wanted to resent. Finding love was never part of Jim's plan for the future-not with his bizarre secret-yet suddenly he finds himself navigating that minefield anyway. Mollie Chau's Illustrations-Mollie Chau 2020-09-05 Mollie Chau's illustration medium is colour pencils. This is a collection of soft-tone artworks in which the author has imagined a fantasy quite distinct from the real world: an expression in forms, lines, shapes and abstractions. A picture can paint a thousand words; this is why the author loves art. It makes her feel happily centred and organized. Chau worships the sun, the moon and the clouds. Happy flowers, dolls, fish and houses are always her content. Anything that surrounds her can become a feature of her illustration.

The Book of L-G. Rozenberg 2012-12-06 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major

typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Ephesians: Evangelical Exegetical Commentary-S. M. Baugh 2016-05-03 In his letter to the Ephesians, Paul emphasizes the unity of believers in the inaugurated new creation. He first sets before his audience the salvation freely offered to us through faith in Christ, then applies this truth to their lives, calling them to live lives of love. In this volume, S. M. Baugh

approaches this important letter from a first-century perspective, examining ancient sources to determine what Paul's words meant in their ancient context, while also interacting with recent scholarship. The result is a commentary that is academically rigorous and at the same time presents Ephesians as the good news it was meant to be. About the Evangelical Exegetical Commentary Series: The Evangelical Exegetical Commentary series incorporates the latest in critical biblical scholarship and is written from a distinctly evangelical perspective. Each comprehensive volume combines historical and literary explanations with insights for understanding the text within the Bible's larger story and applying it to everyday life.

Ozu-Donald Richie 1977-03-15 "Substantially the book that devotees of the director have been waiting for: a full-length critical work about Ozu's life, career and working methods, buttressed with reproductions of pages from his notebooks and shooting scripts, numerous quotes from co-workers and Japanese critics, a great many stills and an unusually detailed filmography."—Sight and Sound Yasujiro Ozu, the man whom his kinsmen consider the most Japanese for all film directors, had but one major subject, the Japanese family, and but one major theme, its dissolution. The Japanese family in dissolution figures in every one of his fifty-three films. In his later pictures, the whole world exists in one family, the characters are family members rather than members of a society, and the ends of the earth seem no

more distant than the outside of the house.

A Lifetime to Die-P.S. Meronek 2013-08-15 The darkest of secrets sometimes linger for a

lifetime. When they are finally exposed they can be like the discovery of an ancient tomb, perhaps better left alone, although never ignored. Aristotle Mercury's father knew too much, so he was silenced. With the help of his friends in the Russian mob, Aristotle's Uncle Jacob is able to move in and take over as the new head of the now successful factory that his own brother created. The year is 1968. As the Red Army's tanks roll into Wenceslas Square in the very heart of Prague, a seventeen year old Aristotle learns the horrible truth about his father. Five years ago someone else was murdered in his place to make it appear as if he was accidentally crushed under a factory press. Since then his father has been alive and imprisoned in the notorious Prague Institute for the Criminally Insane. In a daring rescue Aristotle retrieves his barely alive father from the bowels of the terrible prison. After a short time his father succumbs to the ravages of his imprisonment, but not before he divulges the location of the evidence which proves he owned the now thriving factory, and of Uncle Jake's murderous duplicity in stealing it from them. With the Russians taking over the country, and the mob closing in to eliminate the only living heir to a burgeoning fortune, Aristotle flees Czechoslovakia and makes his way to America, vowing to one day go back and even the score. He settles in New York, in Greenwich Village. He's honest and works hard to learn the new ways of a strange land. Soon he befriends his eccentric landlord, the elderly Mrs. Schroeder. Telly, as his new friends in America like to call him, ignites a withered spirit of adventure in the lady who still believes in the good in people. She owns some property, and Telly has a talent for building. They both learn Telly also has an eye for

the deal. Together they first develop her land, and then other land in the exploding New York real estate market. Telly's ambitions lead him from the posh boardrooms of New York to the lucrative shores of New Jersey, where he's almost killed as he constructs the world's largest casino. Never too far from his mind, always there to haunt and motivate him, Telly dreams of the day he will finally return to his homeland and exact vengeance on his Uncle Jake. In a sweeping saga of familial betrayal spanning three decades of intertwining lives, Telly Mercury finally gets his chance for justice. But does righting of wrongs of a demon filled closet come with a price too high? Secrets are sometimes better left untold, in spite of their screams from across the years to be heard. His own salvation hanging in the balance, Telly must somehow accept that forgiveness trumps retribution, and money truly can't buy happiness. And just maybe, as it is with Uncle Jacob, forgiveness is the worst possible epithet for a life lived in the accompaniment of the unquenchable thirst of greed and murder.
