Praying in Color-Sybil MacBeth 2009 Kids will learn how to draw prayers and then keep the visual memories throughout the day.

The Season of the Nativity-Sybil MacBeth 2014-11-01 Sybil MacBeth writes that Advent and Epiphany are the often-neglected parentheses around Christmas. And they deserve more attention and better publicity. This Season of the Nativity sets the stage the liturgical year, our yearlong journey through Scripture and salvation history. Sybil MacBeth's memoir, front-porch theology, and pages of practices and activities invite individuals and families to enjoy this season in a way that has more peace and more Christ and less chaos and guilt. She offers simple tools for busy people - perhaps to reclaim a joyful and yes, serious nativity season for the first time. Sybil MacBeth is a dancer, a doodler, and a former community college mathematics professor. Her books include *Praying in Color: Drawing a New Path to God*, *Praying in Color: Kids' Edition*, and *Praying in Color--Portable Edition*. Learn more about Sybil and her work at prayingincolor.com. "This gorgeous book is going to remain at my reading chair, dog-eared and bookmarked, all through the Yuletide season. It will also be under the tree of just about everyone on my gift list. We will all have more interesting winters, and greater intimacy with Jesus, because of it." —Lauren F. Winner, author of *Still and Mudhouse Sabbath* "This beautifully designed book caters to those of us for whom waiting for Christmas is the very best part about the holidays. With activities like Advent calendars, games, doodles, carols, and my personal favorite—"flaunting the color purple"—Sybil MacBeth helps us see the Nativity as an entire season stretching from Advent through Epiphany, each day an opportunity for Technicolor grace." —Jana Riess, author of *Flunking Sainthood and Flunking Sainthood Every Day* If you think you're already familiar with Advent, Christmas, and Epiphany, think again! After reading this book, you'll never see those seasons in the same way. With humor, spiritual wisdom, and innovative activity suggestions, the author makes you open your eyes in wonder." —Linda Douty, spiritual director and author of 5 books, including *Rhythms of Growth: 365 Meditations to Nurture the Soul* "With heart-open honesty, Sybil MacBeth opens the door to a new exploration of the three-part Nativity Season. With personal and family-friendly practices and her appealing approach, Sybil invites both seasoned Christians and curious seekers to prepare in Advent, nestle into Christmas, and wonder anew in Epiphany. Extremist? Not really, but perhaps the leader of a new awakening. —Connie Denninger is a retreat leader, teacher of prayer and spiritual disciplines, and advocate of the Arts in Christian Practice Sybil MacBeth's genius is for getting the grand themes - like prayer and yearning and waiting and birth and joy - into real life. She starts with scripture and tradition and solid theology and ends up right on the kitchen table or living room (where children and adults alike are actually enjoying one another). As an on-the-ground parish priest, I want this book in every home of every parishioner. That's because I know they want what I want - not to dread the approach of Christmas and feel inadequate in its wake - but to truly experience God's great activity before, during and after in a way that's full of pleasure and meaning. This book lines out the very concrete path from the wish to the reality. —Rev Carleton Bakkum, Episcopal Priest and Rector of Grace Episcopal Church, Yorktown, VA. - also an artist The "Season of the Nativity" by Sybil MacBeth is an invitation into spiritual growth through frameworks and forms - by sharing with the reader some familiar and many new ways to prepare for and celebrate Advent, Christmas, and Epiphany. Her book is an incarnational feast of ideas - both thoughtful and fun, challenging at times and delightful as well. You will want your own copy as well as several to share with your friends. —The Reverend Canon Meredith Hunt, Episcopal Priest, Diocese of Western Michigan As Luther translated Scripture in the language of the people, Sybil Macbeth's *Seasons of the Nativity* translates the Church's ancient Incarnation liturgy into the every day lives of God's children of every age. If you adopt any of Sybil MacBeth's suggestions for observing the Church's liturgical seasons of Advent, Christmas and Epiphany--watch out! You may find yourself holding the ChristChild in a whole new way--that may change your life and the lives of those around you! Whether its *Praying in Color* or her latest work, *Seasons of the Nativity*, Sybil MacBeth makes the mysterious things of God (prayer) and the Church (liturgy) accessible to everyone. In her book, *Seasons of the Nativity*, Sybil MacBeth moves liturgy into action as she provides meaning-full ways to anticipate and expect, welcome and receive, enjoy and cherish the gift of Jesus in the seasons of Advent, Christmas and Epiphany. The Rev. Dr. John R. Denninger, Bishop/President Southeastern District Lutheran Church—Missouri Synod

A Way other than Our Own-Walter Brueggemann 2016-12-15 Lent recalls times of wilderness and wandering, from newly freed Hebrew slaves in exile to Jesus' temptation in the desert. God has always called people out of their safe, walled cities into uncomfortable places, revealing paths they would never have chosen. Despite our culture of self-indulgence, we too are called to walk an alternative path—one of humility, justice, and peace. Walter Brueggemann's thought-provoking reflections for the season of Lent invite us to consider the challenging, beautiful life that comes with walking the way of grace.

Indistractable-Nir Eyal 2019-09-10 "Indistractable provides a framework that will deliver the focus you need to get results." —James Clear, author of Atomic Habits "If you value your time, your focus, or your relationships, this book is essential reading. I'm putting these ideas into practice." —Jonathan Haidt, author of The Righteous Mind National Bestseller Winner of the Outstanding Works of Literature (OWL) Award Included in the Top 5 Best Personal Development Books of the Year by Audible Included in the Top 20 Best Business and Leadership Books of the Year by Amazon Featured in The Amazon Book Review Newsletter, January 2020 Goodreads Best Science & Technology of 2019 Finalist You sit down at your desk to work on an important project, but a notification on your phone interrupts your morning. Later, as you're about to get back to work, a colleague taps you on the shoulder to chat. At home, screens get in the way of quality time with your family. Another day goes by, and once again, your most important personal and professional goals are put on hold. What would be possible if you followed through on your best intentions? What could you accomplish if you could stay focused? What if you had the power to become "indistractable?" International bestselling author, former Stanford lecturer, and behavioral design expert, Nir Eyal, wrote Silicon Valley's handbook for making technology habit-forming. Five years after publishing Hooked, Eyal reveals distraction's Achilles' heel in his groundbreaking new book. In Indistractable, Eyal reveals the hidden psychology driving us to distraction. He describes why solving the problem is not as simple as swearing off our devices: Abstinence is impractical and often makes us want more. Eyal lays bare the secret of finally doing what you say you will do with a four-step, research-backed model. Indistractable reveals the key to getting the best out of technology, without letting it get the best of us. Inside, Eyal overturns conventional wisdom and reveals: • Why distraction at work is a symptom of a dysfunctional company culture—and how to fix it • What really drives human behavior and why "time management is pain management" • Why your relationships (and your sex life) depend on you becoming indistractable • How to raise indistractable children in an increasingly distracting world Empowering and optimistic, Indistractable provides practical, novel techniques to control your time and attention—helping you live the life you really want.

Pole Raising and Speech Making-Jennifer Eastman Attebery 2015-11-01 In Pole Raising and Speech Making, author Jennifer Eastman Attebery focuses on the beginnings of the traditional Scandinavian Midsummer celebration and the surrounding spring-to-summer seasonal festivities in the Rocky Mountain West during the height of Swedish immigration to the area—1880-1917. Combining research in folkloristics and history, Attebery explores various ways that immigrants blended traditional Swedish Midsummer-related celebrations with local civic celebrations of American Independence Day on July 4 and the Mormons' Pioneer Day on July 24. Functioning as multimodal observances with multiple meanings, these holidays represent and reconsider ethnicity and panethnicity, sacred and secular relationships, and the rural and the urban, demonstrating how flexible and complex traditional celebrations can be. Providing a wealth of detail and information surrounding little-studied celebrations and valuable archival and published primary sources—diaries, letters, speeches, newspaper reports, and images—Pole Raising and Speech Making is proof that non-English immigrant culture must be included when discussing “American” culture. It will be of interest to scholars and graduate students in ethnic studies, folklore, ritual and festival studies, and Scandinavian American cultural history.

Essential Questions-Jay McTighe 2013-03-27 What are "essential questions," and how do they differ from other kinds of questions? What's so great about them? Why should you design and use essential questions in your classroom? Essential questions (EQs) help target standards as you organize curriculum content into coherent units that yield focused and thoughtful learning. In the classroom, EQs are used to stimulate students' discussions and promote a deeper understanding of the content. Whether you are an Understanding by Design (UbD) devotee or are searching for ways to address standards—local or Common Core State Standards—in an engaging way, Jay McTighe and Grant Wiggins provide practical guidance on how to design, initiate, and embed inquiry-based teaching and learning in your classroom. Offering dozens of examples, the authors explore the usefulness of EQs in all K-12 content areas, including skill-based areas such as math, PE, language instruction, and arts education. As an important element of their backward design approach to designing curriculum, instruction, and assessment, the authors *Give a comprehensive explanation of why EQs are so important; *Explore seven defining characteristics of EQs; *Distinguish between topical and overarching questions and their uses; *Outline the rationale for using EQs as the focal point in creating units of study; and *Show how to create effective EQs, working from sources including standards, desired understandings, and student misconceptions. Using essential questions can be challenging—for both teachers and students—and this book provides guidance through practical and proven processes, as well as suggested "response strategies" to encourage student engagement. Finally, you will learn how to create a culture of inquiry so that all members of the educational community—students, teachers, and administrators—benefit from the increased rigor and deepened understanding that emerge when essential questions become a guiding force for learners of all ages.

Nuwaubian Pan-Africanism-Emeka C. Anaedozie 2019-12-03 This book examines the contemporary operational and theoretical parameters of Pan-Africanism and black nationalism in the post-civil rights era. It uses the Nuwaubian movement as a case study to explore this essential strand in African Diasporan history, culture, and tradition. The author argues that the Nuwaubian Nation, like their contemporaries such as the Nation of Islam, represents contemporary efforts of African descendants to dialectically and culturally fight oppression. He argues that unlike the classical Back to Africa movements, the contemporary ones do not seek to primarily relocate to Africa, but to go to Africa culturally and bring back Africa to the diaspora. This effort can be seen in the Nuwaubian attempts at unearthing and importing classical African traditions, mores, and values in their in their various communities across the United States, especially in Eatonton, Georgia. Their aim was to chart an identity for their adherents and inspire racial pride for people of African descent.

Between Midnight and Dawn-Sarah Arthur 2016-01-01 Experience the liturgical seasons of Lent, Holy Week, and Eastertide in the company of poets and novelists from across the centuries. This third literary guide compiled by Sarah Arthur completes the church calendar with daily and weekly readings for Lent and Easter from classic and contemporary literature. New voices such as Chimamanda Ngozi Adichie and Benjamín Alire Sáenz join well-loved classics by Dostoevsky, Rossetti, and Eliot. Light in the darkness, illuminating the soul. This rich anthology will draw you deeper into God's presence through the medium of the imagination. Praise for Sarah Arthur's literary guides: "A rich feast." — Lauren F. Winner, author of Still "I may just be a bit smitten with this book." — Ann Voskamp, author of One Thousand Gifts "What a delight, to find so extraordinary a collection." — Kathleen Norris, author of Dakota and Cloister Walk "A thing of beauty!" — the late Phyllis Tickle, author of The Divine Hours "A creative re-envisioning of the traditional devotional." — IMAGE Journal "Once again, Sarah Arthur has provided rich and enriching resources for the recovery of a life of prayer. More difficult, perhaps, than any other truth we may glimpse in the midst of what we know as 'the time being,' is the efficacy of penitential prayer; most elusive is the 'bright sorrow' that couples our repentance with joy. With this book, many will find their way to this inestimable blessing." — Scott Cairns, Author of Slow Pilgrim: The Collected Poems Other Literary Guides by Sarah

The Cure of Imperfect Sight by Treatment Without Glasses-William Horatio Bates 1920 William Horatio Bates provides an alternative look at the study of the eye. He does not deny that there are certain visual defects people experience; however, he does deny that glasses are the one and only solution. Instead, Bates' studies have led him to believe that simple muscle relaxation could relieve the strain that is the cause of most eye problems. This idea is now referred to as the Bates Method. This book is still consulted today by people seeking alternative solutions to their vision issues.

The African Mother Tongue and Mathematical Ideas-Abdul Karim Bangura 2020-06-02 This book by renowned scholar Dr Abdul Karim Bangura combines linguistics and mathematics to show how and why African-centred mathematical ideas can be a driving force in Africa's development efforts. Bangura explores the concept that Africa has been the centre of the History of Mathematics for thousands of years, as the civilizations that emerged across the continent developed contributions which would enrich both ancient and modern understanding of nature through mathematics. However, scholars and other professionals working in the field of mathematics education in Africa have identified a plethora of issues in carrying out their tasks. This is highlighted by one of the most compelling arguments in the book, which is that a major reason for these problems is the fact that the African mother tongues has been greatly neglected in the teaching of mathematics in the continent. Bangura asserts that a change has to be made in order for Africa to benefit from the exceptional opportunities mathematics offer, showing that, even if there is a great body of work connecting linguistics and mathematics, few analyses have been performed on the link between African languages and mathematics—and the ones that have been made are not theoretically-grounded on linguistics. Thus, the book begins by identifying the objects of study of linguistics and mathematics, and delineates which ones they have in common. Next, since the object of study of linguistics is language, the nine design features of language are employed to examine each of the objects as it pertains to African languages. After that, mathematical ideas of sustainability and those of tipping points are suggested as means to help Africa's development efforts.
